Discretion. It's just as important as reliability.

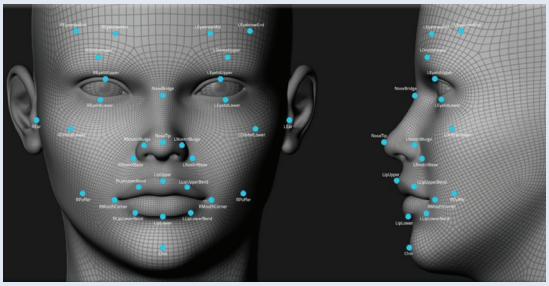
BI SL2®

BI a GEO Group Company®

Breathalyzer with Adaptive Facial Recognition™ technology and cellular service for real-time testing.

Advanced Technology, Simplified.

BI SL2®



- Adaptive Facial Recognition™ Technology "learns" gradual facial changes over time, comparing test photo to a gallery of previous images to compare
- Slim pocket-sized profile weighs in at 8.7 ounces
- Court admissible
- Real-time client photo and BrAC results
- Officers can send random and scheduled test notifications by alerting the client's phone
- LCD screen makes directions clear and simple to follow
- Client photo, location and test results are wirelessly transmitted in real-time via GPS and cellular connection
- The powerful Lithium-ion rechargeable battery has a battery life of 5+ days
- Sensor accuracy: +/- .010 BrAC
