

Flexible solutions to support your team during unprecedented times.

Is the COVID-19 pandemic affecting your supply chain?

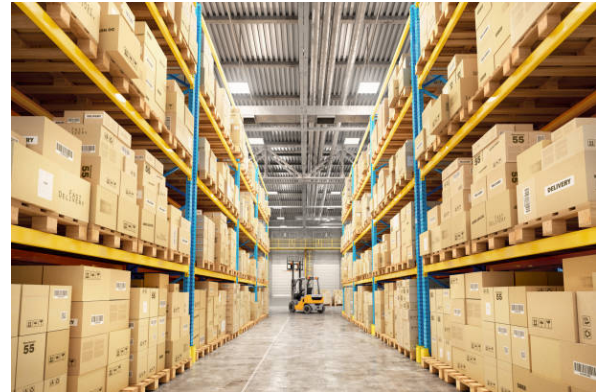

Andrews integrates transportation, warehousing and delivery services, helping to streamline your supply chain process and allowing you to work with only one trusted and capable supplier. Our warehouse management system is designed to support the receipt of goods, control of inventory and delivery of assets. This web-based system allows you access to accurate, real-time information and reporting 24/7.

Program highlights:

- Inventory Control & Asset Tagging
- Pick, Pack & Fulfillment
- Flexible Storage Options
- Full Reporting & Web Access

Whatever your needs are, Andrews will partner with you and utilize our many years of experience as a corporate services company to help keep your business running smoothly during such uncertain times.

We look forward to working together.

**READY TO SUPPORT YOUR BUSINESS
WORLDWIDE**
