

A clean facility starts from the ground up

Clean, dry floors welcome your customers and help promote a professional image. You're busy running your business, so let us help get your floors **Ready for the Workday**[®]. Cintas floor service brings a full offering of customizable options, from mop and mat service to accurately diluted cleaning chemicals and even tile and carpet cleaning. It's all designed to save you time and elevate the appearance of your business.

MAT SERVICE

Mats capture dirt, salt, rain and other unwelcome messes as people enter and walk through your building. The right mat can not only keep your business cleaner, but can also reduce floor maintenance costs. With a large selection of professional-grade mats from Cintas, you'll easily find the right mats for your needs. Choose from a full line of carpet floor mats, scraper mats, custom logo mats, drainage mats, anti-fatigue mats, safety message mats and restroom mats.

MOP SERVICE

A clean mop means a clean floor. Dirty mop heads are a great spot for germs and bacteria to grow. When you reach for a Cintas mop, you can rest easy knowing it's clean and **ready**[™] for your floors. The Cintas mop rental program launders and replaces your mop heads every week. Choose from wet mops, dust mops, pulse mops and microfiber mops to meet your unique cleaning needs.

CLEANING CHEMICALS

Finally, a simple solution to the complicated challenge of having the right mix and right quantity of cleaning chemicals on hand. Your Cintas representative will carefully stock your business with Signet[®] cleaning chemicals, ensuring you have the cleaning supplies you need, from floor and hard surface cleaners to manual warewashing products. And at the push of a button, perfectly diluted cleaning chemicals dispense so you'll save time and money while getting optimal cleaning results.

TILE & CARPET CLEANING

Dull, dingy or stained floors look dirty even when they've just been cleaned. Revive your floors with tile and carpet cleaning service from Cintas. Our professionals deep clean with heat, pressure and extraction to remove more dry particulate soil than any other method.
