

Saving time and uniformly boosting your business image

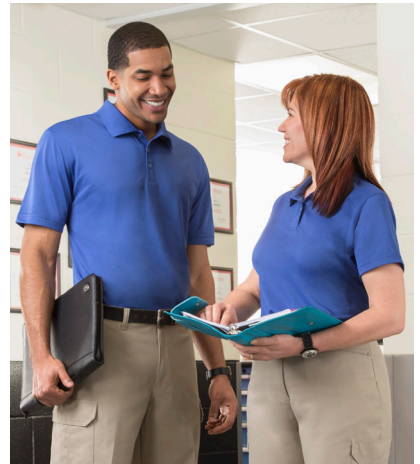

Your company's uniforms tell a story of professionalism, quality and service. They let customers know that your employees are capable and **Ready™** to serve. With Uniform Rental Service from Cintas, the details of managing a uniform program are completely taken care of, saving you time and money.

UNIFORM RENTAL SERVICE

Your employees' uniforms can help them stand tall and proud, representing your business just the way you want. But the details of laundering, repair and maintaining uniforms can be time consuming and expensive. The Cintas uniform rental program can help. You select the retail-inspired uniforms your employees want to wear, including garments designed exclusively for women. Next, customize your uniforms by adding your logo and employees' names. There's even a selection from Carhartt® Rental Workwear and ChefWorks® Rental Culinary Apparel — both offered exclusively by Cintas.

We handle all the cleaning, repair and maintenance, and there's no up-front investment. Flexible program offerings mean you can make changes — like easily adding or removing employees — as your business needs change.

Let Cintas help you save time and money with a full-service uniform rental program.
