

# TRENDS in FACILITY OUTSOURCING

As business budgets are being tirelessly reviewed to save money, more and more organizations are allocating funds to outsourcing and seeking qualified experts to provide those services.

## WHAT CAN OUTSOURCING DO FOR YOUR BUSINESS?

1 Saves the average employee **69 WORK DAYS** per year

2 Eliminate the **40% DROP** in workforce productivity from multi-tasking

3 McKinsey reports **45% OF PAID ACTIVITIES** can be outsourced

“If every business worked to automate basic administrative tasks, studies show they would collectively save **\$5 trillion annually.**”

4 Allow your businesses to **SIDESTEP** complex or strict **regulations with freelancers** due to different tax structures

5 **REDUCE OVERHEAD** keeping prices competitive & streamlines production **PROFITS MARGINS WILL INCREASE**

6 Higher values will beat out cost savings – with companies **shifting back toward QUALITY OVER QUANTITY**

7 Central business operations will be **THE NEW NORMAL**

8 Artificial Intelligence will become **COMMONPLACE**  
RPA has become very popular

9 Businesses will plan **MOST OUTSOURCING** as the practice becomes more connected and easier to do

“In the past, businesses focused on outsourcing more **basic tasks**. Now they...outsource more **niche-specific** needs thanks to digitization of most jobs.”
