

Before your next supplier negotiation,

let RTi help you get ResinSMART

Every plastic processor in America has a sales plan, preventative maintenance plan, a plan on how to take care of your number one asset – employees, but very few focus on the largest cost item in their business – resin. Resin accounts for 50% – 80% of the total cost in a processor's business.

Why settle on pricing data from current suppliers or rely on indices that are often 30 to 60 days old and are not reflective of current markets?

RTi's clients have access to real-time market info because of our global network and 14 billion pounds of transactional visibility. RTi is uniquely able to determine and provide true market pricing for every resin type, every day.

Find out why you can't afford to not be ResinSMART.

Because we are in the market every day, you are in the market every day.

Contact us for a complimentary assessment of your resin spend.

Our Partnership

OMNIA Partners, Private Sector is the nation's largest and most experienced resource in group purchasing - delivering unparalleled purchasing power and access to an extensive portfolio of direct products and services in procurement.

POWER. ACCESS. TRUST.

Do you have a Resin Strategy?

Do you have a competitive resin price or are you tied to an index?

Not sure if you are paying too much for resin?

CASE STUDY

Annual Savings in excess of \$3 million without changing resin or suppliers.

Client is a leading North American packaging manufacturer that uses a variety of commodity and engineering resins with volumes of 75 - 100 million pounds annually.

RTi managed numerous targeted, multi-plant and multi-resin cost reduction strategies, achieving sustainable savings in a volatile market **without changing resin grades or suppliers.**

The client was then positioned to manage inventories by taking advantage of market pricing fluctuations, both in an increasing and decreasing resin market.

RTi's involvement resulted in company-wide savings on a monthly basis.
