

FIRE AND LIFE SAFETY

Protect Your Employees and Properties From the Unexpected

Our comprehensive fire and life safety service offerings include everything from installation to sophisticated monitoring services, testing, inspection, service and maintenance—performed by specially trained and certified technicians.

We support and encourage NICET certification, and our associates have decades of hands-on experience. ADT Commercial National Fire and Life Safety Team (NFLST) members are actively involved with special committees at the National Fire Protection Association (NFPA). They are among the experts responsible for the oversight, writing and adoption of new codes and standards that serve as the foundation for the industry's evolving safety and compliance standards.

Our solutions and services include:

Fire detection and alarm

- Advanced gas and thermal detection
- Advanced smoke and heat detection
