

Your Digital Workplace Services Provider

Your goal is to improve your business outcomes. AVI-SPL helps you reach your future of work by creating agile workplaces that enable your teams to collaborate anytime, anywhere.

AVI-SPL partners with you to discover your business needs and goals. Once these key objectives are determined, AVI-SPL designs, engineers, tests, deploys, and manages the solutions — including unified communications and collaboration, enterprise video, room control systems, and networked AV — that support those goals.

AVI-SPL Services

- AVI-SPL Symphony is a **User Experience Management Application** for collaboration technologies that simplifies user engagement, improves meeting success, and enables business outcomes.
- With **Symphony**, you'll have an end-to-end integrated workflow, single-pane view into your AV and UCC estate, and actionable business intelligence:
 - Monitor and control your collaboration technologies and meetings.
 - Schedule, launch your video-enabled calls.
 - Address your trouble spots before your end users are affected.
 - Understand your room usage and technology issues, and make data-driven decisions about real estate, technology, and adoption.

- **Cloud Collaboration** – We work with Cisco, Microsoft, Pexip, and Polycom to deliver cloud-based and on-premise collaboration as a service.
- **Global Accounts Management Program** – Dedicated project management, engineering, and support — all delivered in accordance with technology standards that align with your worldwide IT, AV, and digital workplace goals.

- **Onsite Managed Services** - Certified AVI-SPL staff work alongside your IT team as an extension of our Global Service Operations Centers (GSOCs). Your AVI-SPL experts support your room systems and meetings, AV devices and collaboration solutions to ensure they operate reliably and efficiently.

- **Support and Maintenance** – Unlimited 24/7 access to AVI-SPL's GSOCs, where help-desk personnel are trained to support your technology solutions. You also receive expert break/fix and on-site technical support.

When you work with AVI-SPL, you're working with a team that:

- Understands your needs and business goals
- Plans and implements the solutions that help you reach those outcomes
- Supports your solutions, environment, and work experience

Visit AVI-SPL.com for written and video case studies featuring companies that have faced challenges similar to yours and overcame them by partnering with AVI-SPL.

Why You Should Partner With AVI-SPL

- We scale solutions and services to any organization's need.
- More certified technicians than any other services provider or systems integrator.
- Ability to certify technical staff to AVIXA standards.
- First multinational integrator to be AVIXA APEX certified, our industry's highest level of recognition.
- Global delivery capability and partnerships with the leading technology providers.
