Notes: Vendor may include other notes regarding the contract update here: (attach another page if necessary).

AWS is a new offering for CDW that we would like to include in the Omnia contract # R171001.  
The request is to add AWS at 0% off MSRP. This discount is inline with cloud consumption based offerings that  
CDW has on other contracts and as such has very tight margins. We believe this contract vehicle provides  
participating members access to a fast growing offering and we have seen a robust pipeline growth with respect to AWS.
