LIVING AND WORKING TOGETHER FOR THE COMMON GOOD

共生

Canon Solutions America's history and development as a business relies heavily on the Canon corporate DNA, which is embodied in the philosophy of **Kyosei**—*all people, regardless of race, religion or culture, harmoniously living and working together into the future.*

Our company's commitment and contribution to the environment and to the world community are an integral part of Canon's management structure, product design, manufacturing, and corporate culture. This commitment has inspired a variety of special corporate programs at both the global and regional level.

One such program is the **Commission on Accreditation of Healthcare Management Education (CAHME) Awards Program**. Canon Solutions America's Award for Sustainability in Healthcare Management Education recognizes higher education institutions that incorporate the ideals of sustainability and social responsibility in healthcare management education and practice.
