

**CloroxPro® and Clorox® Concentrated Bleaches that can be used against SARS-CoV-2, the coronavirus that causes COVID-19 based on EPA emerging viral pathogen guidance**

The CloroxPro™ and Clorox® products listed below have demonstrated effectiveness against viruses similar to SARS-CoV-2, the coronavirus that causes COVID-19, on hard, non-porous surfaces. Therefore, these products can be used against SARS-CoV-2 when used in accordance with the directions for use against the virus listed for each product in the table on hard, non-porous surfaces.

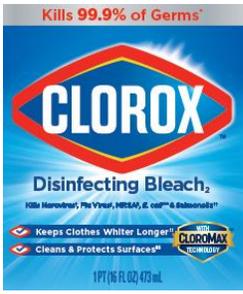

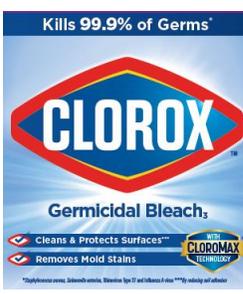

The following table provides information on the product dilution ratio, and the contact time (the time the surface needs to stay wet with disinfectant) that can be used against SARS-CoV-2.
