PERSISTENT PROTECTION

Exoban's **patent-pending** treatment systems keep workplaces protected long term, whereas sanitizers only kill in the moment they are applied. Expensive daily/weekly disinfections don't address the presence of pathogens in real-time. Think of Exoban™ workplace treatment as an invisible shield making your surfaces antimicrobially active.

We work with: Corporate offices, restaurants, retailers, gyms, manufacturers, assisted living, health care, & so much more.

BACKED BY OUR GUARANTEE

Guaranteed treatments mean peace of mind for treated surfaces

OUR PROCESS

1. Baseline testing
2. Installed by EXOBAN crew
3. Post-treatment testing
4. Marketing

ROUTINE TESTING

We make regular visits for multi-point testing to ensure our treatments continue to protect.
