

Body-Worn Cameras Video Data Storage

Why Insight for video data storage?

Partnering with Insight gives you the support of a multibillion-dollar IT solutions provider with global reach, technical depth and financial stability. We'll help you meet your changing IT infrastructure needs. Our industry-leading solutions lower the cost of protecting your data, your business and your reputation.

Here are some of the things we bring to the table:

- Dedicated national support team
- 25,000+ buying accounts nationally
- Integration labs that can handle complex solutions
- Global capabilities
- Best-in-class supply chain management and procurement

How NetApp video storage will help your organization

At least 29 states are considering or have passed legislation mandating body-worn cameras for police officers. Police agencies are struggling to keep up with all of the video surveillance accumulated from their officers through these cameras. What's needed is an easy way to store and digest video and categorize, archive and manage it.

NetApp® Video Surveillance Storage solutions provide an easy way to maintain this data for extended periods of time with limited budgets. Police staff remain in control of the video evidence in-house and also have the ability to store copies securely in the cloud.

- Support any number of cameras at any resolution.
- Gain unprecedented capacity, speed and durability.
- Simplify data retrieval, retention and capture.
- Maintain productivity with high-availability storage.

Insight is your expert connection to the IT solutions that help your organization run smarter.

How NetApp Video Surveillance Storage works

U.S. Communities Government Purchasing Alliance

U.S. Communities was founded in 1996 and today is the leading national government purchasing cooperative. It provides world-class procurement resources and solutions to local and state government agencies, K-12 school districts, higher education institutions and nonprofits looking for the best overall government pricing.

Insight's U.S. Communities partnership:

- Is competitively solicited by Fairfax County, Virginia
- Meets most government agency piggybacking requirements
- Features Insight's best overall government pricing
- Has no user fees
