

Why Insight for FirstNet?

At Insight Public Sector, we define, architect, implement and manage Insight Intelligent Technology Solutions™ that help your organization run smarter. We'll work with you to maximize your technology investments, empower your workforce to work smarter, optimize your business and create meaningful experiences.

Here are a few of the ways we deliver meaningful outcomes:

- FirstNet Authorized dealer
- 5,300+ software, hardware and cloud partners and publishers
- 6,600+ Insight teammates worldwide
- 2,000+ consulting and service delivery professionals

Insight helps you manage
business today and
transform the future.

How FirstNet solutions can help your agency

FirstNet provides priority services, elevated in-network status during an incident and advanced coverage for both urban and rural areas. However, this dedicated, nationwide communications platform has grown beyond public safety broadband to include advanced services, applications and purpose-built devices.

Insight offers FirstNet® solutions that provide your organization with comprehensive network security, improved communication and interoperability, and affordable rate plans. With FirstNet, you can:

- Provide actionable data with innovative apps and devices.
- Use reliable and secure communications.
- Coordinate a response to public safety incidents.
- Innovate with life-saving communications.
- Leverage modern solutions to keep communities safe.

U.S. Communities partnership

Insight holds a contract with the U.S. Communities Government Purchasing Alliance. We offer our entire line of hardware, software and services to agencies nationwide. Competitively solicited by Fairfax County, Virginia, this contract meets most government agency piggybacking requirements and features Insight's best overall government pricing — with no user fees.

Bringing safety to the forefront of technology

The FirstNet® network is purpose-built for first responders and those who support them. Explore FirstNet solutions, available from Insight, designed to help your organization save lives and secure communities.

Security	Coverage	Devices

Insight Managed Mobility

Insight Managed Mobility is an end-to-end solution that helps your organization create an efficient and agile mobility strategy. Capabilities include consultation, procurement, deployment, configuration and management of devices for every mobile technology requirement. We take the complexity out of managing mobile technology so you can focus on the public's needs.

Insight Managed Mobility solutions will help you:

- Reduce endpoint security risks.
- Control costs through a subscription-based model.
- Simplify IT through a single-source provider.
- Increase employee retention and satisfaction.
