

# Full-spectrum security for state and local government

Malicious security attacks and inadvertent vulnerabilities can lead to costly compliance breaches and business-disrupting data loss. They can also take a human toll in frustration, loss of privacy, negative financial consequences and wasted time.

Securing a government environment is complex and requires a comprehensive understanding of software, hardware, network architecture, the content traveling on the network, human factors, and each agency's specific security vulnerabilities and goals. And it requires expert knowledge and practical experience to translate theoretical security concepts into secure products and services.

## Did you know 'unsecured print = unsecured IT'?

**80%** <sup>\*</sup>  
of organizations  
**Security policy in place**  
for accessing documents, along with what and where information can be stored

**63%** <sup>\*</sup>  
of organizations  
**Security policy about what printers and MFPs**  
can be used to print, scan, fax or copy documents

**61%** <sup>\*\*</sup>  
of large enterprises  
**Admitted suffering** at least one data breach through insecure printing

\*Based on results from IDC's Print Security Survey, IDC#US40612015  
\*\*Quocirca 2017 Report, Print security: An imperative of the IoT Era

## Lexmark security ecosystem

Lexmark understands the multi-faceted reality of security threats and responds with a holistic, systematic approach that encompasses the device, the fleet and the whole network infrastructure.

## Security by design

That's why Lexmark doesn't treat security as an afterthought or optional feature but as an integral design and engineering goal, embedded in all our products and services.

Our understanding of network environments and relevant security threats, particularly in relation to printing, gives us the know-how to create unique, solutions that secure your data in every possible way—a capability we've proved by working and overcoming security challenges in some of the most highly regulated organizations and industries on earth.

And our expertise pays off in concrete ways whether you manage your own printing infrastructure or rely on Lexmark Managed Print Services.

### Complete security throughout and around the device and document

### A threat in state and local government

Government has unique challenges, types of information and compliance regulations regarding information that needs to be safeguarded.
