

WE HOLD SUSTAINABILITY AND ENVIRONMENTAL PROTECTION AS OUR KEY PRIORITIES.

CHOOSING SUSTAINABLE FURNISHINGS SHOULD BE EASY, AND AT NATIONAL IT IS. TURN TO US FOR PRODUCTS THAT IMPROVE INDOOR AIR QUALITY, INCREASE THE USE OF SUSTAINABLE MATERIALS, AND REDUCE IMPACTS TO CLIMATE CHANGE.

WE ACTIVELY PURSUE WAYS TO MINIMIZE THE ENVIRONMENTAL IMPACT OF OUR PRODUCTS.

By committing to product stewardship, environmental preservation, green building development, regulatory compliance, social accountability, and economic responsibility, National enhances the lives of our customers and brings value to the markets we serve. We focus our energies toward impactful strategies and actions to reduce our environmental footprint and create a better tomorrow.

NATIONAL®

ENVIRONMENTALLY-FRIENDLY GOODS

Thank you for sharing our passion for protecting the earth. By choosing solutions from National, you are selecting products with recycled content and third party certifications which may include Indoor Advantage™ Gold and level®. What's more, our products can contribute toward rating systems such as LEED®. Explore our portfolio with the easy-to-use ecoChecker tool. The recycled content, certification, and more are available for each product series within the tool. If you are pursuing LEED, Living Building Challenge or another green building rating system, ecoChecker can help with calculations and documentation.

ecoChecker connects you to sustainability information about our products, including contributions to LEED, and independent third party certifications, all together in one easy-to-use, free tool.

INDOOR AIR QUALITY CERTIFICATION

Most National products have earned Scientific Certification Systems (SCS) Indoor Advantage Gold. Indoor Advantage is a third party certification program that focuses solely on indoor air quality and certifies office furniture to the indoor air emission criteria of BIFMA X-7.1. Our products protect indoor air quality through the achievement of stringent standards established by BIFMA, and also meet criteria for the LEED Green Building Rating System.

**Additional information can be found at NationalOfficeFurniture.com/ecochecker
Product certifications can be viewed at www.scs-certified.com**

LEVEL CERTIFICATION

Essentially all of National's products have earned level 2 or 3 certification. level, BIFMA's sustainability certification program for furniture, is based on the ANSI/BIFMA e3 sustainability standard. It is an evaluation of the sustainable attributes of a product, the performance of the facility where the product was made, and the manufacturer itself. The US Green Building Council (USGBC) recognizes the use of level certified furniture in the LEED Rating System under Pilot Credit 80 "Environmentally Preferable Interior Finishes and Furnishings."

Product certifications can be viewed at www.scs-certified.com

LIFE CYCLE ASSESSMENT (LCA)

At National, we have conducted an LCA that is compliant to ISO 14040/14044 on a number of our products and have teams in place working on additional products. Combined with our Design for the Environment (DfE) approach, LCAs provide the benchmark to base improvements on and guide future decisions such as sourcing, production, and distribution to ensure consistent progress is made in reducing our footprint.

HEALTHIER HOSPITALS

National participates in the Practice Greenhealth program called Healthier Hospitals. Our portfolio includes a wide variety of products which meet the guidance of the safer chemicals challenge by the Healthier Hospitals program, version 2.0.

A PRACTICE GREENHEALTH PROGRAM

ANEW - DOING WHAT'S RIGHT WITH WHAT'S LEFT®

National has partnered with ANEW (Asset Network for Education Worldwide) to provide an option for customers who need to disposition furnishings due to remodeling or moving into a new space. By directing unwanted furnishings to others who can use them, ANEW can help you promote healthy growth within communities and divert materials from landfills.

**To learn more or request a proposal, email ANEW at info@anewfound.org
