OMNIA[®]
PARTNERS

STREAMLINED PROCUREMENT PROCESS

NRP roofing services are available through OMNIA Partners, Public Sector. Authorized contractors work directly with NRP to develop and submit comprehensive proposals for consideration. Public agencies save significant time by accessing a contract that has already been awarded by a lead government agency. The ability to purchase directly from this contract saves on costs associated with the traditional bid process.

No need to duplicate the RFP process. Cooperative contracts procurement method has already been competed and satisfies the bid process.
