### **July 2021 Price Adjustment**

Our industry continues to experience tremendous pressures from the global supply network and record output from international commerce caused by escalated consumer spending which has handcuffed the entire shipping network across the globe. Ports remain jammed and empty containers are having trouble making their way back to the small and medium-sized ports further disrupting availability of goods. Water shipments have gone from 30 day travel time to over 90 days or longer and both air and water shipments have more than doubled in price since last year.

We are also seeing heightened inflationary pressure on our core materials (wood, steel, corrugated, foam, resin, etc.) upwards of 5-30% in the last 2 months and several items are on their sixth price increase in the last 12 months. We do anticipate some leveling of this, but a high percentage of the increases will remain in place for the foreseeable future.

While we anticipated inflation and some freight challenges in 2021, it was not at this pace. Our Supply Chain and Operations teams have been able to absorb and mitigate escalating costs with productivity and sourcing strategies; however, we will need to adjust pricing to offset a portion of the increases we are experiencing.

Effective July 5, 2021, OFS and Carolina will implement a price increase resulting in a weighted average 3% adjustment.

- CET will be updated on July 5th, 2021
- Other eTools will be updated with their July releases
- Online price lists will received stickered updates

All orders placed by July 5, 2021, must ship in Q3 (by 10/1/21) in order to receive the current list pricing. If an order requested delivery date falls beyond this 90 day window, Order Entry will apply the price increase unless a Regional Vice President (RVP) has approved the list price hold even if the order is placed prior to July 5, 2021.

As GSA, contracts and healthcare GPOs review this price adjustment, we will communicate progress and new effective dates based on their approvals. However, we may not know if they approve or when it would take effect until July 2021 or later. Therefore, we're asking our partners to make all quotes valid through July 5, 2021, or for 30 days, whichever is the furthest, in anticipation of a possible price increase.

Thank you for your understanding with this business decision. We truly appreciate your partnership and our teams are ready to support you and your customers.

Sincerely,

Nick Blessinger  
VP, Marketing
