K-12 funding for Chromebooks

As additional government funds are being allocated to help schools reopen, schools may be eligible to use a portion of this funding to help equip students with new technology. Office Depot® offers a wide range of technology solutions for use in and out of the classroom. This includes Chromebooks from HP, Lenovo® and Samsung® that are in stock and ready to ship.

WHY CHROMEBOOKS?

Chromebooks are known for their fast performance, centralized management and low total cost of ownership. In addition, they're typically intuitive, easy to manage and lighter and thinner than most laptops.
