Personal Protective Equipment (PPE)

Help equip your schools with gear for learning.

As your schools begin to reopen their doors, your district may have instated new safety measures to encourage social distancing and help reduce the spread of germs. Office Depot[®] offers PPE to help you create a clean and comfortable environment as staff and students return to school.

FIND PPE PRODUCTS AND MORE FOR YOUR SCHOOLS — ALL FROM ONE SOURCE.

FACE MASKS AND COVERINGS

Nonmedical disposable face masks are designed for single use. Many of the face masks we offer from DSBJ, Powecom and more feature ear loops for easy wear and come in a variety of materials, including cloth, 3-ply nonwoven fiber and hypoallergenic options.

FACE SHIELDS

Face shields can help provide a protective barrier for your staff. Omar face shields come fully assembled and feature adjustable bands. These shields are latex-free and can be worn in addition to a face mask and/or goggles.

HAND SANITIZER

Hand sanitizers serve as a fast-acting, quick-drying way for your staff and students to clean their hands without the need for water or towels. We offer a variety of hand sanitizers from BYD Care and HYGX, including fragrance-free options and sanitizers with aloe.

TECHNOLOGY

Infrared thermometers provide a solution for checking temperatures safely and quickly — without contact. Infrared thermometers by Dr. Talbot's include memory storage, auto-shut-off functionality, LED displays and fever warnings.

CLEANING CHEMICALS

Disinfectants, cleaners and deodorizers can help reduce the spread of germs while creating a cleaner environment within your buildings. Consider using them in every area of your schools, from your classrooms to your cafeterias.

*WARNING: THESE MASKS ARE NOT RESPIRATORS OR SURGICAL MASKS. They are NOT FDA cleared or NIOSH approved and may or may not meet fluid barrier or filtration efficiency levels. They are recommended for use only by the general public. They are NOT recommended for use in: (1) any surgical setting or where exposure to liquid, bodily fluids or other hazardous fluids may be expected; (2) a clinical setting where there is an infection risk through inhalation exposure; or (3) the presence of a high-intensity heat source or flammable gas. These products do NOT eliminate the risk of contracting any disease, infection or virus.

**WARNING: THIS MASK IS NOT A RESPIRATOR OR A SURGICAL MASK. It is NOT FDA cleared or NIOSH approved and it may or may not meet fluid barrier or filtration efficiency levels. It is recommended for use only by the general public. It is NOT recommended for use in: (1) any surgical setting or where exposure to liquid, bodily fluids or other hazardous fluids may be expected; (2) a clinical setting where there is an infection risk through inhalation exposure; or (3) the presence of a high-intensity heat source or flammable gas. This product does NOT eliminate the risk of contracting any disease, infection or virus.

***WARNING: The FDA's Emergency Use Authorization for Non-NIOSH-Approved Imported FFRs Made in China authorizes respirators for use in health care settings by health care personnel as recommended by the CDC during FFR shortages until the declaration that circumstances exist justifying the authorization of the emergency use of personal respiratory protective devices is terminated under Section 564(b)(2) of the Federal Food, Drug and Cosmetic Act or the EUA is revoked under Section 564(g) of the Act. This product has not been tested or approved by NIOSH. This product does NOT eliminate the risk of contracting any disease, infection or virus. Health care personnel should consult the applicable and updated Emergency Use Authorization(s) issued by the FDA; CDC guidelines; and available local, state and federal guidelines regarding selection and use of KN95 respirators.
