

Maximum airflow. Maximum protection.

Sanitize even a spacious room with the high-capacity airflow and multi-stage filtration of the TRIO Plus™ UVC & HEPA Equipped Air Purifier. It cleans the air in a 775 square-foot schoolroom three times every hour. Three state-of-the-art technologies intercept airborne microorganisms and viruses with quiet efficiency, so learning can proceed without interruption.

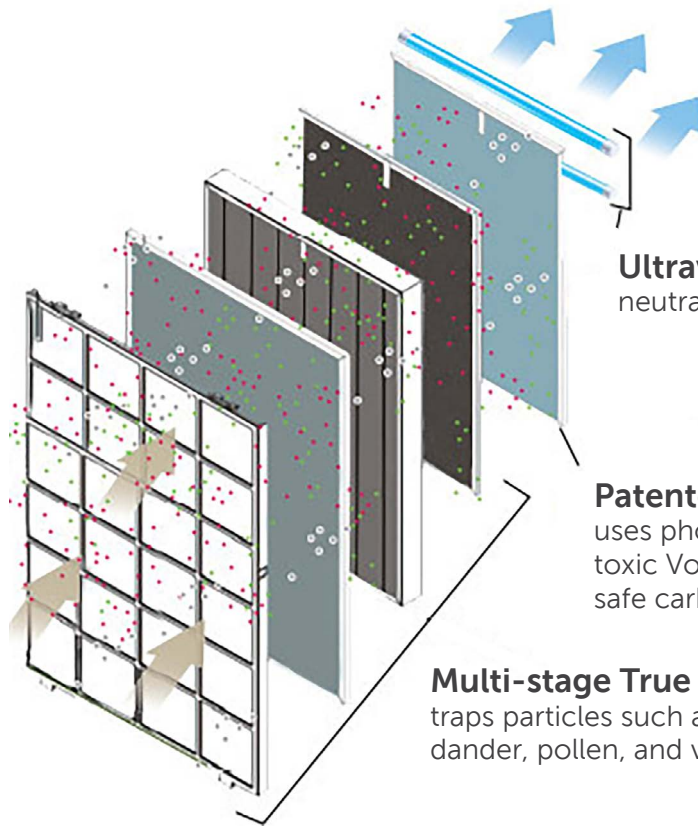

TRIO Plus™
Air Purifier

Clear the air with 3-stage protection.

Ultraviolet-C (UVC) Germicidal Purification
neutralizes bacteria, viruses, mold, and fungi

Patented PRO-Cell™ Technology
uses photo-reactive oxidation to break down
toxic Volatile Organic Compounds (VOCs) into
safe carbon dioxide and water vapors

Multi-stage True HEPA Filtration
traps particles such as mold, bacteria, dust,
dander, pollen, and viruses

TRIO Plus™ UVC & HEPA Equipped Air Purifier

- Dimensions: 17.3" x 28" x 9"
- Weight: 26.2 lbs.
- 1 amp rating
- Quietness: 25–55 dBA
- Clean Air Delivery Rate: 295 cubic feet per minute (CFM)
- Can clean the air in a room up to 2,212 square feet in 1 hour
- Room Size covered at 3 air changes per hour: 31' x 25' (775 sq. ft.)
- Room Size covered at 5 air changes per hour: 26' x 17' (442 sq. ft.)
- Two powerful UVC (254 nm) bulbs output 10,620 $\mu\text{W}/\text{cm}^2$ for germicidal irradiation
- Replacement filtration parts available

Product availability and shipping times vary. Not intended for high-risk exposure settings. Does not prevent COVID-19.
