Discover our no-bid scientific discounts.

Purchasing your Science supplies through the School Specialty/OMNIA Partners national contract gives you access to our broad and deep assortment of best-in-class products and brands, names you trust and recognize, all focused on improving learning outcomes. Choose the best Science products for your school or district, spend less time ordering, and spend less money — all through your OMNIA Partners contract. Add in our value-added items like Professional Development, free freight or a growth rebate, and there’s no reason to create a bid — just shop through your OMNIA Partners contract for all your Science supply needs.
Today’s students are tomorrow’s trailblazers. Set up students for future success.

School Specialty offers STEM/STEAM resources to motivate and inspire the scientists and engineers of tomorrow. Allow our STEM specialists to identify resources that will enhance your district initiatives.

MAKERSPACE: HANDS-ON EXPLORATION

A place where students are thinking hard. Working with their hands. Talking with each other. Inventing. Tinkering. Building and Learning.

- FISCHERTECHNIK ELECTRONICS KIT
- KIDS FIRST AMUSEMENT PARK ENGINEER BUILDING SET

ROBOTICS & CODING

Students are growing up in a world filled with changing technology. Inspire the next generation of problem solvers with robotics and coding resources that help foster a growth mindset.

- CUBELETS ROBOT BLOCKS
  Cubelets magnetic robot blocks make it easy for builders of any age to image, craft, and invent countless robot constructions
- SAM LABS LEARN TO CODE WITHOUT MICROBIT
  Using a block-based programming approach, this course kit consists of a variety of teaching materials.

SCIENCE LABS

Science isn’t just learned, it’s discovered. Hands-on exploration has been shown to improve learning and memory in students. With 1000s of lab supply products to choose from, you can count on School Specialty for solutions that advance learning in the classroom.

- DIVERSIFIED WOODCRAFTS MOBILE LAB STATION
  ADA Compatible. The faucet is operated by a toggle switch water pump. Unit has a GFI protected AC duplex electrical receptacle, 25' extension cord and locks on all the drawers and door.
- DIVERSIFIED WOODCRAFTS AUGMENTED REALITY SANDBOX KIT
  This amazing sandbox uses 3D visualization applications and a hands-on exhibit that combines a real sandbox, virtual topography and water, using a closed loop of a Microsoft Kinect 3D camera, powerful stimulation and visualization software, and a data projector.
- FREY SCIENTIFIC TRINOCULAR LED STEREO MICROSCOPE
  Trinocular head, 7.5X to 50x zoom magnification. Features energy-efficient LED illumination and paired with C-mount adapter and integrated 8 in. Android-based LCD tablet.
- EISCO BASIC HUMAN SKELETON MODEL
  This rod mount skeleton is a full life size, pelvic mounted, human skeletal structure that is hand crafted to show students all the important bones and joints of the body.
