12.6% Under Collective Bargaining Globally

22,200+ Team Members

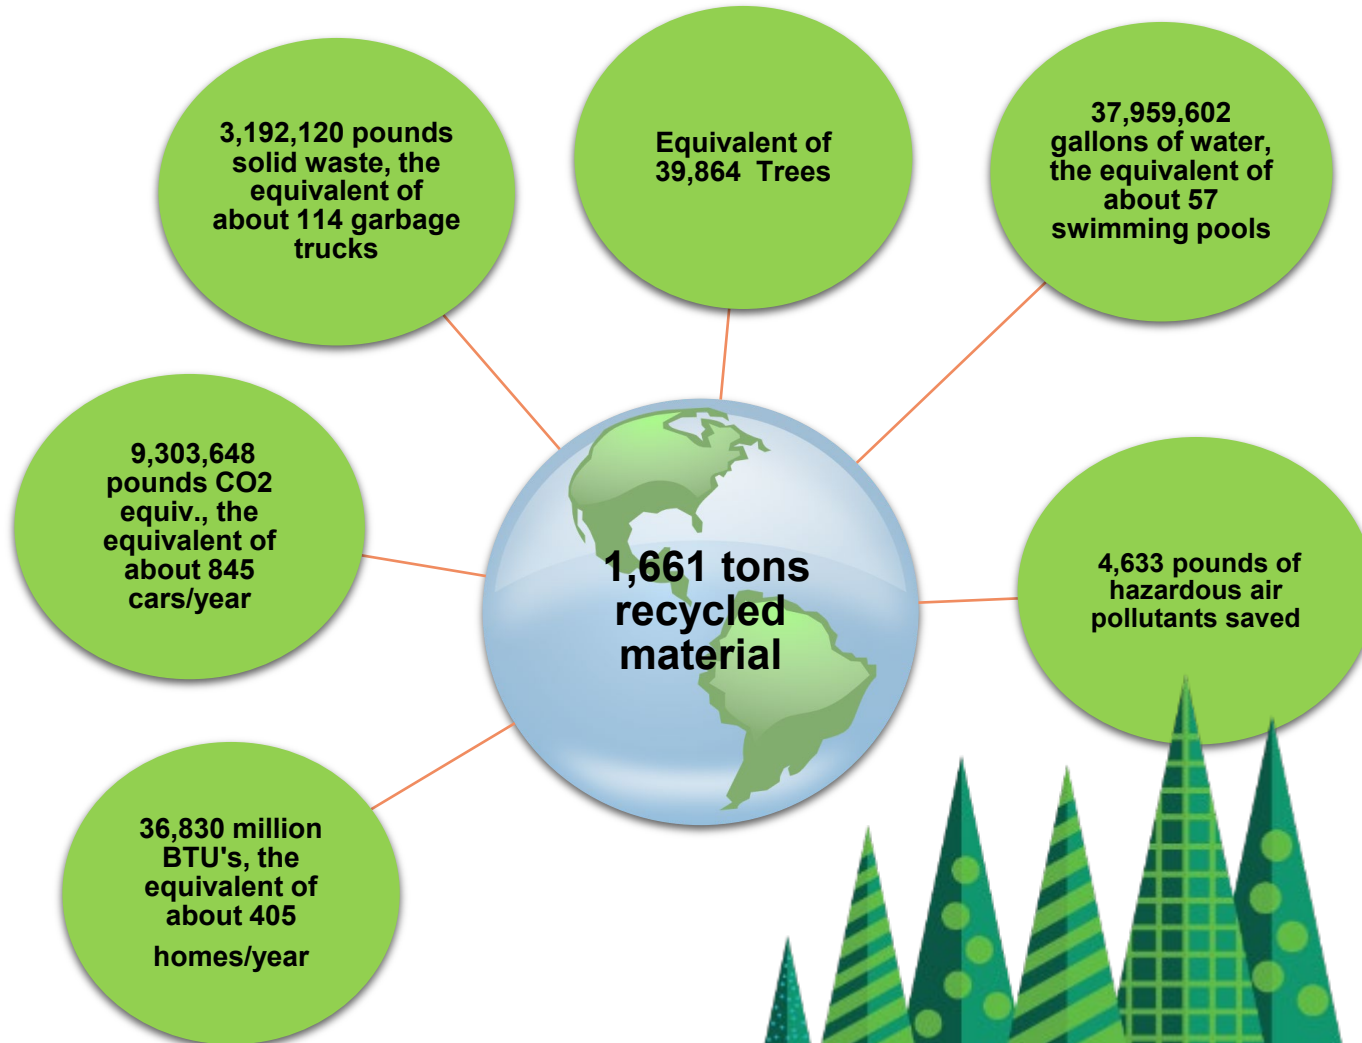

50% Diversity Among U.S. Team Members

64% in the U.S. and 36% abroad

Typical Annual Sustainability Impact

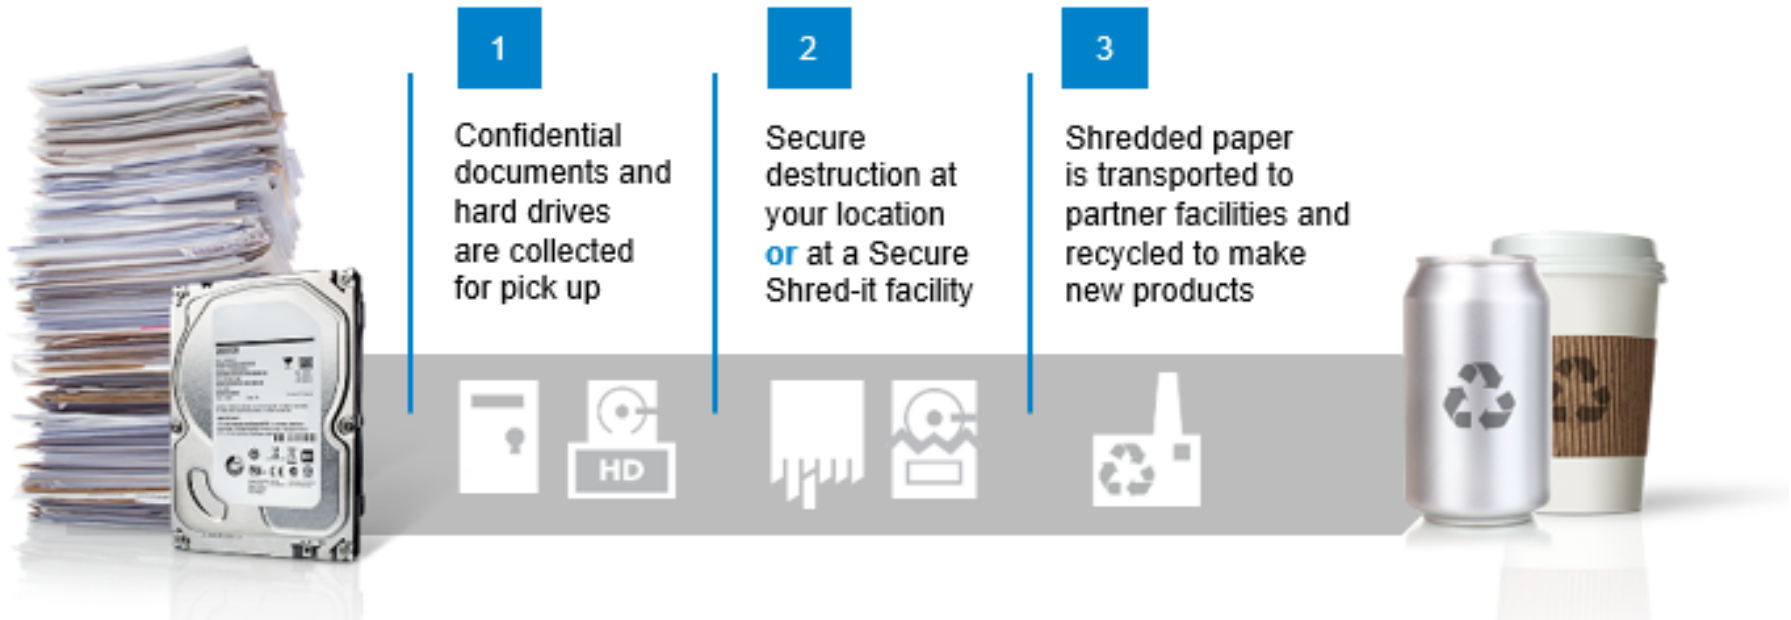

100% of all Paper Shred by Shred-it is Bleached, Pulped and Recycled into Secondary or Tertiary Consumer Paper Products!

Recycling

By partnering with Shred-it for secure document and hard drive destruction, we make sure that every piece of paper and hard drive you discard stays secure – from the time it leaves your hands to the moment it's shredded and then recycled.

Global Sustainability

Material collected and destroyed by your Shred-it service is recycled. While this ensures that private information is disposed of safely, there are several far-reaching additional environmental benefits. Compared to the same quantity of paper from virgin wood pulp, every ton of recycled paper:

- » Saves 18 new trees from being harvested for paper production
- » Uses 64% less energy
- » Uses 50% less water
- » Causes 74% less air pollution
