

DISINFECTIX

SITE DISINFECTING SERVICE

by **TERMINIX COMMERCIAL**

FOR NATIONAL ACCOUNTS - TERMINIX COMMERCIAL AND COPESAN

DISINFECTING YOUR BUSINESS IS SERIOUS BUSINESS.

The rapid spread of COVID-19 has left many businesses facing the unique challenge of protecting their employees and customers from potential exposure to the virus. And while you may go to great lengths to maintain the cleanliness of your facilities across your geographical footprint, thorough disinfecting is required to be confident that your locations are prepared for your customers and employees to get back to business.

TRUST THE RIGHT PARTNER.

To help create a healthier and safer environment, you must disinfect, and you must do it right. But what does “doing it right” look like? It looks like **Disinfectix™ by Terminix Commercial®**. A site disinfecting service carried out by professionals that is labeled for use against various pathogens and meets EPA criteria for use against SARS-CoV-2, the novel coronavirus that causes COVID-19.

FEATURES & BENEFITS:

- Promotes a healthier environment with as little disruption to your business as possible.
- Follows the EPA-approved labeling for disinfectant products on List N, which have been shown to kill pathogenic organisms that may be present on non-porous surfaces.
- Our fine-mist application and high-touch wipe process requires only 10 minutes contact time and leaves no residue behind.
- Can provide you with peace of mind and help protect your business’s reputation.
- Is effective and approved for use in businesses such as daycares, schools, warehousing, restaurants and grocery stores.
- Available to National Account customers - Terminix Commercial and Copesan brands, with services performed by local Terminix teams.

TERMINIX

THERE'S A NEED TO DISINFECT. AND THERE'S A WAY TO DO IT RIGHT.

Safeguarding your business against infectious illnesses is no time for hiring unqualified companies or opting to do it yourself. We have the expertise and the right tools to provide an effective line of defense against the invisible threats that can put your customers and employees at risk.

Our service professionals:

- Are trained on proper use of the products including disinfectant application techniques and enhanced safety protocols.
- Utilize proper personal protective equipment (PPE) to minimize the spread of any germs or pathogens.
- Have years of experience in servicing thousands of diverse businesses with a national presence, in major industries, across the country every day.

Disinfectix™ by Terminix Commercial®
uses products that meet the criteria and are deemed effective by the EPA for use against SARS-CoV-2, the novel coronavirus that causes COVID-19.

DON'T TAKE ANY CHANCES—FIND A PARTNER YOU CAN TRUST TO GET THE JOB DONE RIGHT. PUT YOUR EMPLOYEES, YOUR CUSTOMERS AND YOUR BUSINESS FIRST WITH DISINFECTIX™ BY TERMINIX COMMERCIAL®.
