## GEARING UP FOR ASSESSMENTS

### Integrating Technology for Learner Success

Assessments are one of the many tools that can help educators understand student's needs and the best options for support. The Chariot Group's Online Marketplace offers Logitech education products that can improve assessment quality and effectiveness.

*One study found that students need focused sound to be **300% louder than other sounds** or they may lose part of the learning.<sup>1</sup>*

### Common State Testing Requirements

Wired vs. Wireless Peripherals

Availability of an External Keyboard and/or Mouse for Each Student

Bluetooth Prohibited

Availability of a Headset for Each Student

### The 3 Types of Assessments

#### Diagnostic Assessments

- Digital assessments help districts understand students' knowledge levels and fill gaps
- Allow the use of external mice and keyboards, and highly recommend the use of headphones

#### Summative Assessments

- Cumulative assessments provide evidence that a student has met the learning objective
- State assessments evaluate students by grade
- Digital test requirements include:
  - iPad devices require external keyboards
  - Chromebooks and PCs require external keyboards and mice
  - Headphones/headsets are required for audio portions of tests

#### Formative Assessments

- Consistent assessments provide an efficient way to gather student feedback throughout lessons
- Digital solutions allow students to show their own process using real-world tools
  - Embed feedback checks in digital presentations
  - Screencasting enables students to record computer activities
  - Video and audio empower students to explain their thinking
  - Digital tablet writing tools allow students to draw their analysis

Keys-to-Go for iPad	920-006701 (Black) 920-008918 (Stone)

## 1 BENEFITS OF ADDING A MOUSE

Students who are still developing their fine motor skills can be slow and **make more errors with the trackpad** than with a mouse.

**12-14**  
yrs

**Students age 12-14**, typically have been found to make more errors with the trackpad than with a mouse.

## 2 BENEFITS OF ADDING A FULL HEADSET VS. HEADPHONES

Students using a Logitech headset saw a **350% increase in performance** with English learning apps.

Over **80%** of students **felt more confident** with their performance using learning apps with a Logitech headset.

## 3 CLEANABLE SOLUTIONS

Designed and proven to **hold up against disinfectants**, even after years of cleaning.

## 4 HOW IS SMART CONNECTOR DIFFERENT THAN BLUETOOTH®?

Smart Connector allows instant connectivity without a Bluetooth® connection. **No batteries needed** and one less thing to keep charged in the classroom.

## 5 COMMITMENT TO SUSTAINABILITY

We are reimagining how we **design, source, manufacture, distribute and recycle** to improve the carbon, toxicity, circularity and social impact of everything that we do.
