

# AERA MAX<sup>®</sup>

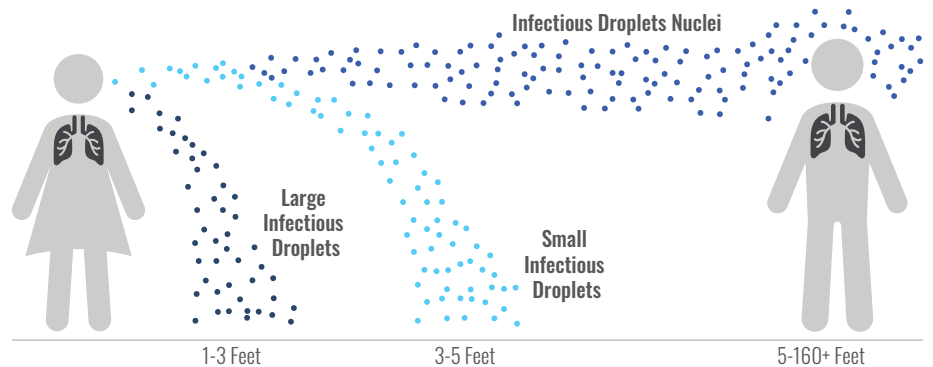

## PROFESSIONAL

### Clean the Air We Share

The rapid global spread of COVID-19 has increased our urgency to protect ourselves and each other. Multiple studies have demonstrated that when it comes to virus transmission, the airborne threat is real and cannot be ignored.

Healthy and safe facilities matter now, more than ever. We must protect ourselves in shared environments against future viral outbreaks.

A complete hygiene solution should consist of 3 essential components – washing your hands, sanitizing surfaces and cleaning the air for protection against person-to-person virus transmission.
