

May 19, 2021

As the Executive Director for Housing and Dining at University of Wyoming, I have been blessed to work with both US Foods and Omnia Partners. Shortly after my arrival at University of Wyoming back in 2007, we signed a GPO agreement with Provista (now OMNIA Partners) with prime vendor services from US Foods. For the first few years I served on the Provista Higher Education Advisory Team (HEAT), to ensure that the agreements provided the right products at the right price and to ensure US Foods delivered on all established service and product agreements.

I am pleased to say that after 14 years we continue to be extremely satisfied with both OMNIA Partners and US Food. Our fill rates with US Foods have been great. We receive the products we need, when we need them. Over the years we have conducted market baskets, to assess our pricing and find this agreement continues to provide the best value for University of Wyoming. We have also conducted fill rate comparisons with our peers and find US Foods fill rates to be consistently on the top of this list.

Please feel free to contact me if you have specific questions that I can help answer.

Sincerely,

Eric Webb

Executive Director for Housing & Dining

University of Wyoming
