

SMART SPACE SOLUTIONS

Portable classrooms for K-12, higher ed and childcare

Whether you need additional space to accommodate a growing student population, temporary classes during a school renovation or extra room for social distancing, modular classrooms from WillScot can help.

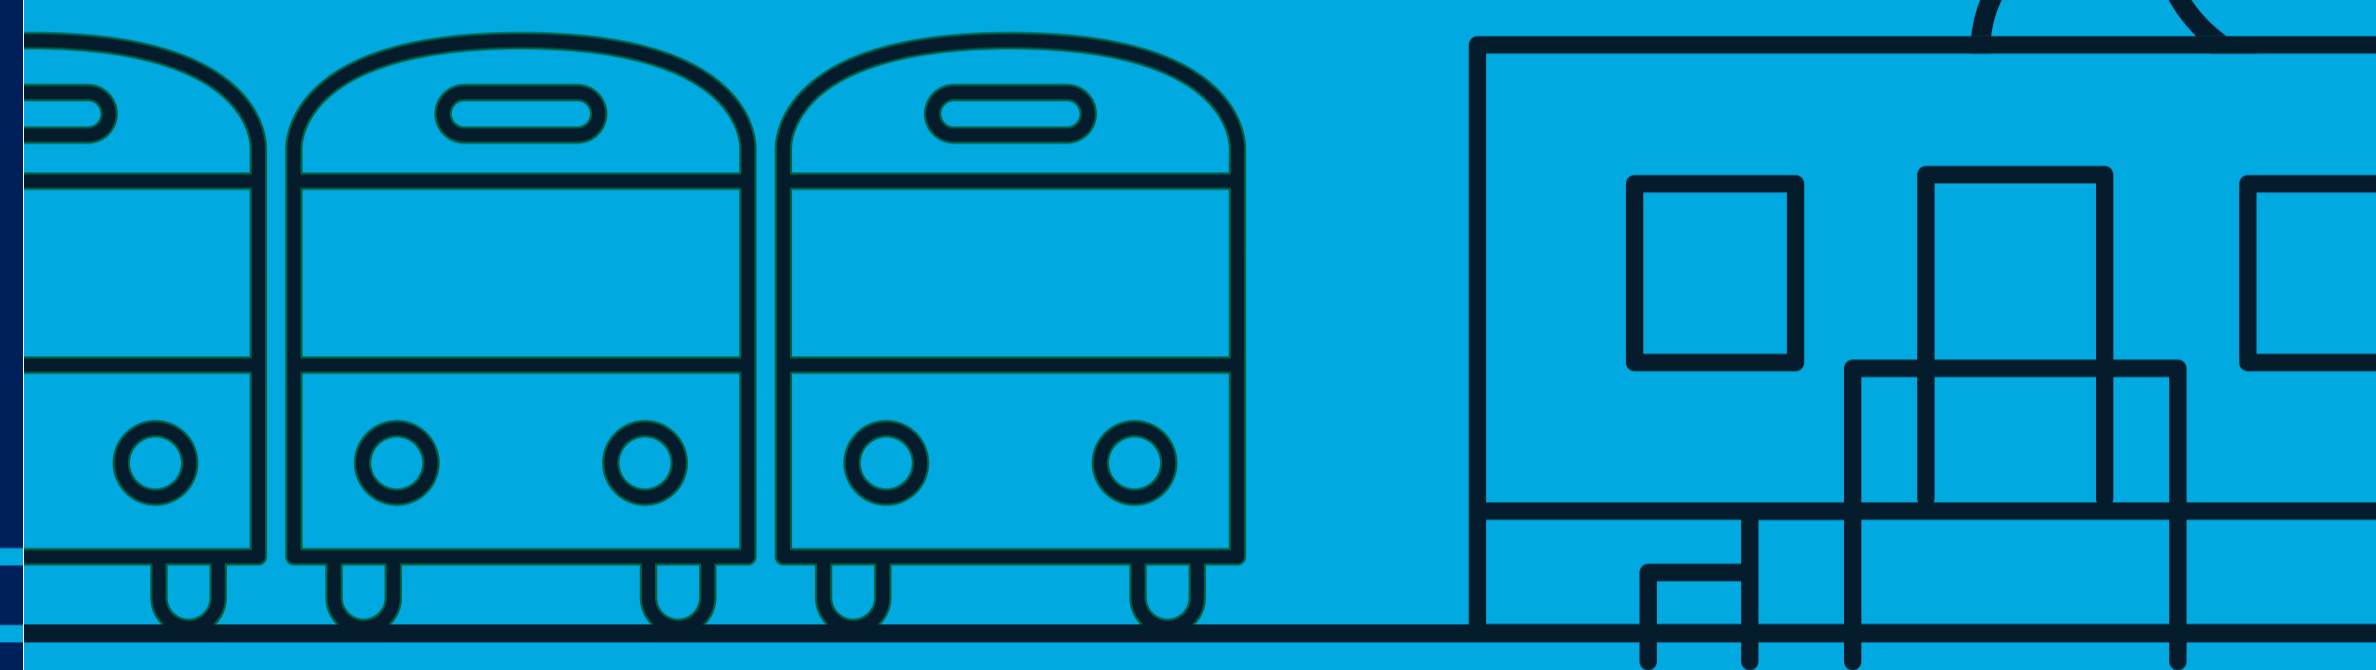

MINIMAL DISRUPTION

Modular buildings are a fast, safe and efficient way to add more space to your campus, sometimes within a few days, so disruption to your school is minimal.

SITE FLEXIBILITY

Modular buildings can be installed almost anywhere – a parking lot, soccer field or adjacent to existing buildings – so you can keep student and teachers on campus and engaged in school programs.

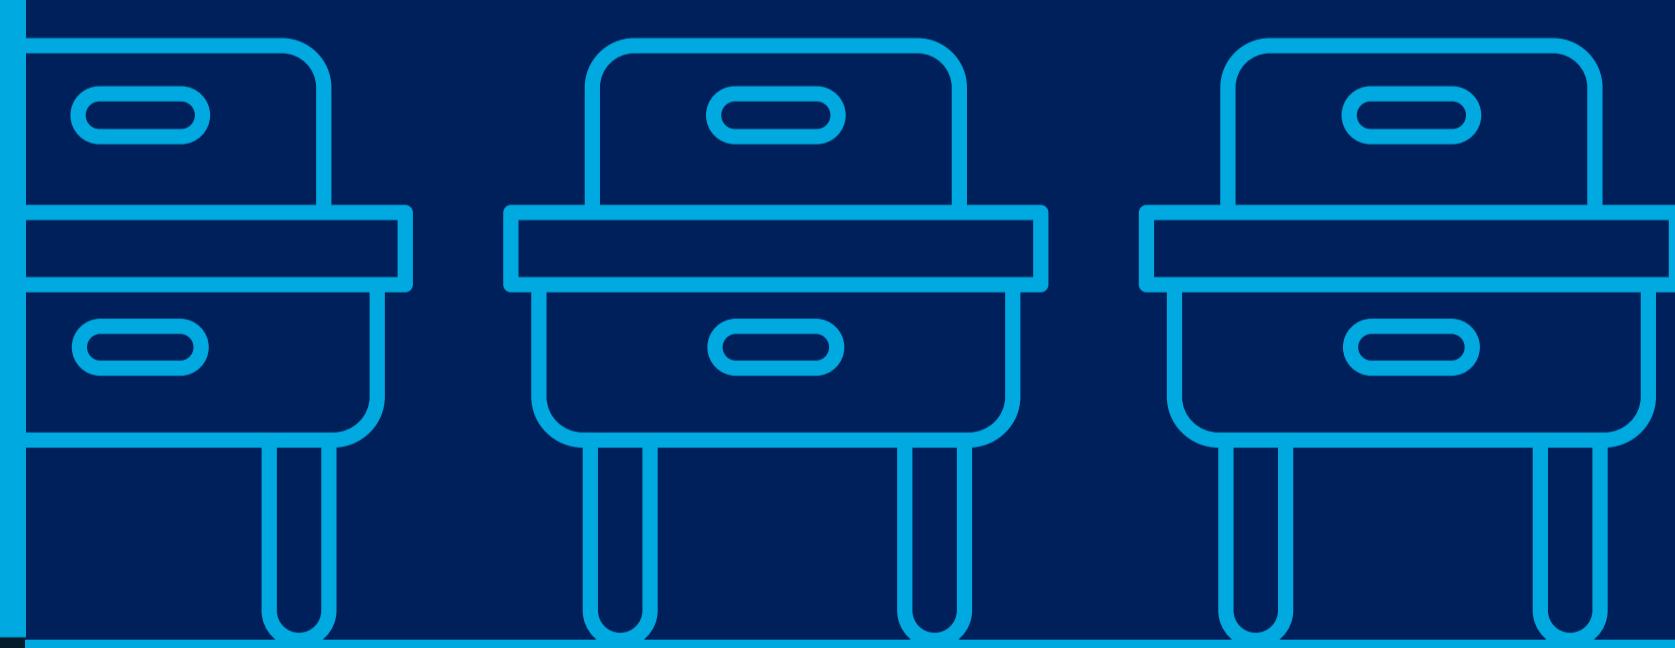

RIGHT SIZE SPACE

Modular buildings are easily added, expanded or removed to meet your changing needs, so you pay for the space you need and nothing more.

EVERYTHING YOU NEED IN ONE SPACE

WillScot has everything you need to start instruction on day one, from entry steps and ramps to prewired data hubs to tables, chairs and more.

OMNIA
PARTNERS

OMNIA PARTNERS COOPERATIVE PURCHASING AGREEMENT

WillScot buildings are available through Omnia Partners Cooperative Purchasing Agreement – the joint purchasing agreement that makes leasing even easier with preset rates and processes.
