

MOBOTIX THERMAL SCREENING STATIONS

FIRST-LEVEL SCREENING OF SURFACE TEMPERATURE

© Ergotron, Inc. 2018. All rights reserved. Actual device may differ slightly in appearance.

With the need for a greater level of awareness around your employees' and visitors' health, Konica Minolta has created a portable station for the detection of surface temperatures. Featuring a MOBOTIX Thermal Radiometry camera, this system may augment your workplace protocol by providing first-level screening of surface temperature.

Thermal radiometry imaging technology measures infrared energy quickly and efficiently. This all-in-one system comes with everything you need to establish a front-line screening process.

- **MOBOTIX M16 thermal camera**
- **6MP optical color sensor**
- **High-quality, portable cart with desk**
- **Powerful laptop with keyboard and mouse**
- **Screening solution software**
- **LCD monitor**
- **Professional set-up services**

Let Konica Minolta offer you a turn-key solution with built-in services to ensure your system is properly set-up, programmed and calibrated so you begin screening for individuals that may need to be redirected for further screening or restricted from entering your facility.

- **MOBOTIX M16 thermal camera mounts to the top of the cart**
- **LCD monitor screen provides dual display of the thermal and color image**
- **Desk comes with a storage area for the laptop**
- **Convenient holder for disinfecting wipes**
- **If required, an optional thermal radiator is available**

Thermal screening images differentiate between hot objects and face objects, and thumbnail images with temperature data are saved on the dashboard with clear green or red indicators of pass or fail.

OMNIA Partners is the largest and most experienced organization in purchasing and supply chain management. Covering both the private and public sectors, OMNIA Partners unites industry-leading buying power and world-class vendors to offer an extensive portfolio of sourcing solutions and partnerships. Through economies of scale, OMNIA Partners is able to deliver more contracts, in more verticals, with transparent, value-driven pricing. The collection of solutions offered includes indirect materials, direct materials, and value-added services covering all strategic spend categories that organizations face both inside and outside of procurement. Learn how we can help you soar past every growth goal and marker of success at www.OMNIAPartners.com.
