

Education Solutions

Made in
California.
Designed
by you.

Who we are

With the fastest lead time in the industry, SitOnIt Seating® and IDEON® offer high-quality seating that combines award-winning design with intelligent ergonomics. From healthcare to higher education, we've been the go-to destination for build-to-order seating since 1996.

Born and bred in California, all of our key collections are designed in-house and rigorously tested for quality control, strength and durability. We make customization easy—our user-friendly ChairBuilder® tool lets you design your dream chair with just a few clicks. With chairs, sofas and stools for every desk, space and environment, the possibilities are endless.

Discover premium seating solutions—at a fraction of the price.

Our build-to-order promise

Custom-designed chairs, no waiting. Our lean manufacturing operation means we can ship build-to-order chairs in just two days. That means we can build the chair you want—and deliver it when you want it—at a price no one else can match.

Fastest shipping in the industry

Choose from two, five or 10-day shipping. We cut lead time, sync orders and avoid off-schedule shipments at a rate our competitors just can't match. From start to finish, we maximize efficiency in every single area—whether it's sourcing and logistics or assembly and production.

Seating Solutions 101

Discover customizable, build-to-order options for every space and for every user—whether you’re a student, faculty member, on staff or just visiting.

Design Flexibility

Our Commitment to Sustainability

TASK STOOL TEXTILE: Electric Blue Mesh (back), SitOnIt-Collection Pop Electric Blue (seat),
NESTER TEXTILE: Apple Mesh (back), SitOnIt-Collection Pop Apple (seat)

Movi

Movi is movement-inspired and collaboration-friendly, making it perfect for any dynamic learning environment. The nester features a caster design and flip-up seat for easy seating plus a bleach cleanable mesh back (10:1) and clean-out space for easy maintenance. In addition, 14 degrees of flex at the hip coupled with a movement-friendly back and arm support allow for enhanced comfort.

Makerspace

Today's evolving learning environment calls for high-design seating solutions that can keep up with it all. Introducing Movi, the last nester you'll ever need. From brainstorming and informal catch-ups to prototyping sessions, Movi is a modern multitasker that can adapt quickly to any makerspace.

Nester

Light Task

Task Stool

TEXTILE: SitOnIt Collection Sugar Fire

Relay

Durable and adaptable to the finish, the Relay fits right into classrooms or maker-spaces of all kinds.

Makerspace

Designed for extra comfort and quick transitions, the Relay chair comes in stacking and nesting models for high-volume storage in makerspaces of all sizes. Simply pull up a chair to review blueprints or set up seating for a programming class in a snap — thanks to durability, a spacious sit and ribbed back support, the Relay chair brings practical solutions to any collaborative, multi-use environment.

Nester

Four-Leg Side Chair

NOVO TASK CHAIR TEXTILES: Ocean Mesh (back), SitOnIt Collection Horizon Skyline (seat), INFLEX MULTIPURPOSE CHAIR (WITH TABLET ARM) PLASTIC: Navy

InFlex

Oversized tablet arms accommodate laptops for note-taking and maximize seating capacity. Lightweight InFlex chairs with casters support mobility for team projects. InFlex is a best-selling classroom solution because its flex-back disc system, with 13 degrees of back angle range, offers spine-friendly comfort at a moderate price.

Novo

Novo's customization possibilities — from frame color to lumbar support and accent to breathable mesh — mean this chair can blend in with pre-existing designs or create a look that shouts the school colors. Novo is built to deliver comfort and customization to a variety of students, teachers and administrators.

Classroom

Effective classrooms mean students and instructors collaborate. They offer interactive learning where everyone is comfortable, safe and at ease. For dynamic and interactive learning spaces, explore seating that can withstand daily wear and tear while still being comfortable.

Novo Task Chair

InFlex Four-Leg Chair (with Tablet Arm)

PLASTIC: Apple

Rio

All Rio® models feature our patented Active Rebound Control (ARC)Technology®—a durable, weight-assisted flex mechanism that has been re-engineered to allow for better comfort and movement. The wire rod side chair stacks six on the floor and 15 on the optional cart, making it a great choice for multi-use spaces that require quick set-ups and breakdowns.

Four-Leg Chair (with Tablet Arm)

Classroom

Great classrooms let students and instructors collaborate. They are interactive learning environments where everyone feels comfortable and supported. A sturdy chair that's still easy to move can help foster a more interactive learning environment, allowing students and instructors to collaborate naturally.

Wire Rod

Four-Leg Side Chair

30" Bar Stool

TEXTILE: Momentum Odyssey Dijon, **PLASTIC:** Sterling

InFlex

Designed by Giancarlo Piretti, the versatile InFlex task chair with innovative flex-back support is ideal for media and computer labs. Choose from multiple plastic shell colors, frame finishes and textiles to create a customized look for your space.

Four-Leg Side Chair

Media/ Computer Lab

Students spend hours in the media lab, creating projects on the latest technology. From art and architecture to film and engineering, computer labs need to foster creativity, innovation and research for a diverse group of users.

Light Task Chair

Task Stool

TEXTILES: Apple Mesh (back), Momentum Tradition Sprout (seat)

Wit

Adjustable lumbar support and height-adjustable arms make the Wit collection well suited for lab environments. Specify Wit with mesh back or Wit Thintex™ back; both are comfortable and ergonomic. A pull handle for easy mobility and 12 mesh, fabric or vinyl color choices are unexpected standard features given the surprisingly low price of the Wit collection.

Thintex Midback Task

Thintex Highback Task

Media/ Computer Lab

These days, getting hands-on experience using the latest technology is a given for most students, no matter what the area of study. From art to engineering, labs for all departments need to facilitate creativity, innovation and originality.

Four-Leg Side

Mesh Midback Task

Highback Mesh Task

FOCUS SIDE TEXTILES: Black Mesh (back), Momentum Tradition Theater (seat)

Focus Side

The Focus Side combines elegant design and remarkable comfort that stands out in an interactive learning environment. Integrated lumbar support and a molded waterfall seat provide supreme comfort for longer periods of time. Add arms, casters or tablet arms to create the perfect chair for a seminar room or lecture hall.

Relay

The upholstered Relay nester is a comfortable sit for a lecture, seminar or event. Relay features a ribbed back for support, optional curved arms and can be easily ganged, stacked and transported. With a simple flip of its seat, Relay quickly transforms for compact storage.

Relay Nester Side Chair

Lecture Halls

General purpose and divisible rooms must be flexible to accommodate a wide range of subjects and teaching styles, and support collaborative work.

Focus Four-Leg Side

Focus Four-Leg - Upholstered Back

Four-Leg Side - Wood Back

PLASTIC: Tangerine

Lumin

Lumin™ is lightweight and stackable, and the contoured, flexible back is perforated for breathability. Circle Lumin up for group work, arrange at angles for testing or simply stack them to clear an open space. Add the optional tablet arm for extra utility and a more traditional classroom look.

Four-Leg Side Chair

Cafeteria/ Breakroom

High-traffic areas like multipurpose dining and break areas should have seating that's easy on the eyes—and easy to move around.

Discover slim, lightweight options that are stackable, durable and easy to clean.

Wire Rod

30" Bar Stool

Rowdy

Crafted from a single shell for a simple modern look, our Rowdy is multipurpose seating that's lightweight, sturdy and super stackable (up to 40 on a cart!). With a cut-out handle for easy mobility, the Rowdy is ideal for high-traffic areas like break-rooms and cafeterias. The slender shell features a ribbed back for extra support.

Cafeteria/ Breakroom

Multi-use dining areas may serve staff and students by day and host receptions or parties by night.

Therefore, the furnishings need to address capacity constraints and maximize square footage. Chairs that are light, stackable and durable make it easy to repurpose the area quickly without compromising functionality, space and design requirements.

PLASTIC: Lemon

Wire Rod

Wire Rod - Upholstered Seat

ROUND OTTOMAN TEXTILE: SitOnIt Collection Newport Lemon, Newport Tangerine
BENCHES TEXTILE: SitOnIt Collection Monterey Flurry (seat), SitOnIt Collection Monterey Citrus (chassis)

Paséa

It's time to rethink what a lounge collection can (and should) be. Active Working Posture, gapless benches, movable ottomans and more make Paséa the go-to option for flexible common areas and transitional spaces.

Designed by Qdesign

Common Spaces/ Corridors

Learning takes place outside the classroom, too. Modular and movable lounge furniture can help students create places to huddle for exam prep, study groups, between-class breaks and more.

TEXTILES: SitOnIt/IDEON Collection Oasis Newport Aqua (seat), SitOnIt/IDEON Collection Versa Burst Electric Blue (chassis)
TEXTILES: SitOnIt/IDEON Collection Oasis Newport Aqua (seat), SitOnIt/IDEON Collection Oasis Cue Fog (chassis)

Nano

You don't need a bachelor's degree in engineering to get the most out of Nano. Create countless possibilities with just four smart, simple shapes. Configure, reconfigure and repeat.

Common Spaces/ Corridors

In today's educational environment, intellectual growth and teamwork take place all over campus, from student unions to library lobbies. The modular Nano lounge collection is built to fit anywhere for close collaboration and quick flexibility.

TEXTILES: Maharam Urban Pool

IDEON Compositum

Compositum is where durability meets style. Its steel-rail construction withstands heavy usage in tough environments while a myriad of style options makes it a versatile option for common areas of all shapes and sizes.

Ottoman

Sharp Club Chair (with Tablet Arm)

Common Spaces/ Corridors

Residence halls play an important role in college selection. Students and parents alike report that the state of dormitories and other common areas is a big factor when making their final decision.

Sharp Settee

Sharp Sofa

TEXTILES: Momentum Beeline Forge (back); Designtex Boreas Mustang (seat)

IDEON Visit Modular

The Visit Modular collection can be configured for virtually any environment. Create adaptive solutions for what you need—whether you want to maximize a multi-use space or have several rooms that need specific solutions.

Ottoman

Student Union

The center of student life, the student union is a crossroads where faculty and staff cross with alumni, visitors and current students. It's the heart of any campus—where meetings and meetups, coffee dates and study groups come together.

Armless Chair

Wood Arm Chair

Tablet Arm Chair

IDEON Arioso

Arioso is a complete seating solution for spaces that require both durability and high design. Choose from sofas, settees, club chairs and ottomans.

Freelance

The Freelance collection is perfect for a 24/7 student center. With an easy clean-out space between seat and back and a ton of textiles to choose from, it's ideal for high-traffic areas that need comfortable, easy-maintenance seating.

ReAlign

Contemporary tailored lines, a thin profile and enduring comfort make ReAlign the right task chair for library staff. With seven control mechanisms and five arm styles to choose from, ReAlign can solve almost any office requirement.

Library

Libraries have transformed from mere book access and storage to an interactive and collaborative learning space against a technological backdrop. Today's libraries require stylish seating solutions to successfully transform facilities into flexible spaces that encourage users to learn around the clock.

ReAlign Highback Task Chair

TEXTILE: Momentum Tradition Regal

The Focus Collection

A signature sculpted back. A unique Y-shaped back support. A body-hugging design and a youthful, energetic design. What's clear is the Executive, Work, Side and Sport models of the Focus collection have one thing in common: superior comfort.

Side Mesh Back

Administration

Maximize productivity across all departments—whether it's admissions and accounting or student services and HR.

Midback

Executive

Highback

TEXTILE: Momentum Dive White

Amplify

Enhanced synchro or swivel tilt mechanisms make Amplify ideal for the conference room. Adjustable lumbar provides optimum ergonomic support. Designer-fixed arms with textured arm pads and black (or polished aluminum) base options make a powerful statement. For task and conference settings alike, Amplify combines affordability with comfort and style.

Upholstered Task Chair

Administration Conference Room

The busy departmental conference room must maximize performance and productivity while accommodating the latest technology. Chairs require arms and mechanisms that allow staff to comfortably listen to presentations, work on tablets or laptops and collaborate.

Upholstered Task Stool

Mesh Task Stool

Mesh Midback Task Chair

Mesh Highback Task Chair

- Club chair and ottoman
- Armless, wood arm and upholstered arm models
- Flexibility to create dynamic modular configurations
- 10 foot styles
- Tablet, pull handle and magazine rack/cupholder options

(page 24)

Project Spotlights

ALABAMA STATE UNIVERSITY

Alabama State University included seating as part of a 2012 building renovation project. The university wanted comfort plus a variety of mech combinations and back options to accommodate executive, conference and staff seating as well as a solution for student dining areas.

For the administrative areas, the school chose Focus Work highback and midback. Volley was perfect for the high use/high abuse dining area. The customer liked the option to use either the four-leg or the sled base, and after a year of researching fabric was pleased to find that Momentum Silica Medal was already graded-in.

XAVIER UNIVERSITY

Xavier University sought to furnish its new residence hall lobby and lounge areas with seating that would set the stage for dynamic interaction among students and faculty.

A key factor in the decision-making process was field-replaceable components. The ability to replace just the damaged part offers a great time savings and economical advantage. Xavier simply orders the IDEON part and the school's maintenance team replaces the component in minutes. By eliminating the need to reconstruct a complete chair, we ensure their high-quality, sustainable seating is consistently available.

CALIFORNIA STATE UNIVERSITY, FULLERTON

California State University, Fullerton needed attractive yet durable seating for its largest-ever housing and dining construction project. The dormitory provides housing for 1,900 students – more than doubling the campus’ residential population – while the Gastronome, a 565-seat contemporary dining facility, offers a diverse eatery.

CSUF chose IDEON because of our budget-friendliness, in addition to a prior pleasant experience with SitOnIt Seating’s Focus Work. In addition, the materials, COM ability and Lifetime Warranty all proved to be large factors in the university’s decision to purchase from the IDEON Composium Collection.

Why Choose Us?

TESTED & APPROVED

We put ourselves through the ringer (so you don't have to). Rest assured that our products have been tested for quality control, strength and durability.

ANSI/BIFMA CERTIFIED

SitOnIt Seating and IDEON are members of the Business and Institutional Furniture Manufacturer's Association (BIFMA). Tests developed by BIFMA are approved by the American National Standards Institute (ANSI) to determine the strength and durability of seating. Although testing is not a warranty or guarantee, our products meet or exceed BIFMA and ANSI standards.

HEAVYWEIGHT CHAMPIONS

We use rigorous standards that test for arm and leg strength, overall load and impact. Our Heavy Duty chairs have a 350 lb. weight capacity and bariatric models are rated to 500 lbs. and 1000 lbs. Bariatric models are available in 30" and 42" widths with additional seat foam, steel reinforcement and extra large casters with 25% more weight capacity. IDEON club chairs, settees and sofas are rated to 250, 500 and 750 lbs. respectively.

BUILT TO LAST

The unique IDEON steel rail system* creates a robust, durable understructure that withstands even the toughest environments. The arms are anchored by a high performance molded joint system that provides long-lasting stability. The modular assembly of rails and components makes field replacement of our components simple, ultimately extending the life of the product.

**Not applicable for the Visit Modular collection.*

SUSTAINABLE DESIGN

We make it easy to go green.

Design an eco-friendly room from the ground up or upgrade an existing space to meet the latest environmental standards.

LEED CERTIFIED

Earn points toward LEED certification thanks to our U.S. manufacturing location and our use of recycled materials where possible.

GREENGUARD CERTIFIED

Most SitOnIt Seating and IDEON products have met the rigorous criteria required by Greenguard Gold in accordance with the Collaborative for High Performance Schools.

LEVEL CERTIFIED

We've worked to achieve BIFMA level® certification for all SitOnIt Seating and IDEON seating products.

WE DID OUR HOMEWORK

Download detailed documents that break down the percentage of recycling content, manufacturing process and indoor air emissions for every chair we make.

ENDLESS CUSTOM OPTIONS

Developed by world-renowned designers and engineers, all of our collections are customizable from top to bottom.

FIND YOUR HUE

With thousands of textiles, COM options, frame accents and finishes to choose from, you can mix and match to your heart's content —whether you're enhancing school colors or just in the mood to be creative!

PERFECTION IS POSSIBLE

Our accurate fabric matching ensures that patterns will line up perfectly—even with replacement upholstery parts ordered years later!

SAFETY FIRST

We make it easy for designers and buyers to put safety first. Since fire safety is a top priority for many facilities, we offer CAL 133 models for every collection, COM fabric approval service and a 10-day turnaround all at an extremely competitive price point.

Smart Seating Solutions

Good educators know that everyone learns differently—and part of teaching is creating a learning environment that’s optimized for high performance. Whether you want students engaged and comfortable during a lecture or easily mobile while working in groups, SitOnIt Seating and IDEON products have got you covered.

Discover an ultra-customizable selection of build-to-order chairs, sofas and stools for any and every space—at a fraction of the price.
