FASTENAL®

FAST Solutions® VENDING

NATIONALIPA™ EXPERIENCED • FOCUSED • TRUSTED

Contract #142101 - www.nationalipa.org

REAL CUSTOMERS, REAL RESULTS

RAPID RETURN ON INVESTMENT:

"Fastenal offers a great VMI opportunity through its vending machine service. I would recommend the Fastenal (FAST 5000) program to anyone needing a quality vending solution."

- Doug Johnson, Xcel Energy Category Manager, Sourcing (Minneapolis, MN)

Results Reported: Total program costs reduction of 30-50% (vs. previous vending machines)

MINIMIZE INVENTORY COSTS:

"It essentially does the job of an inventory control manager. . . That's huge for us."

- Ricardo Lopez, VP of Operations, Lakeshore Technologies (Lakeshore, MI)

Results Reported: Reduction in inventory of 75% (estimated at $20,000 per month)

INCREASE PRODUCTIVITY:

"The Fastenal vending system has reduced the down time in man hours of time spent looking for items. The machines have also reduced our workers comp claims on not having the safety gear available."

- Matthew Maloney, Supervisor of the Facility Services Dept, Mercy Health, Oklahoma City, OK

REDUCE CONSUMPTION:

"Inventory is easier to keep on hand and easier to count and reorder. Tool crib attendants spend more time showing cost savings, writing PO's,billing, etc. … Corporate and department heads love it. They get automated reports about usage. They also love that tool crib attendants no longer have to make a judgment call about giving out additional gloves."

- Charlie Dillon, Tool Crib Manager, Waterloo Industries (Waterloo, IA)

Results Reported: In the first month of use, glove consumption went from more than $13,000 to $9,200

REDUCE LABOR COSTS:

"Fastenal has taken on the burden of inventory management and our guys spend far less time walking and waiting to get needed supplies."

- Scott Bowen, Purchasing Manager, Roush Fenway Racing (Concord, NC)

Results Reported: Labor involved in managing and retrieving inventory has been reduced 20-25%
