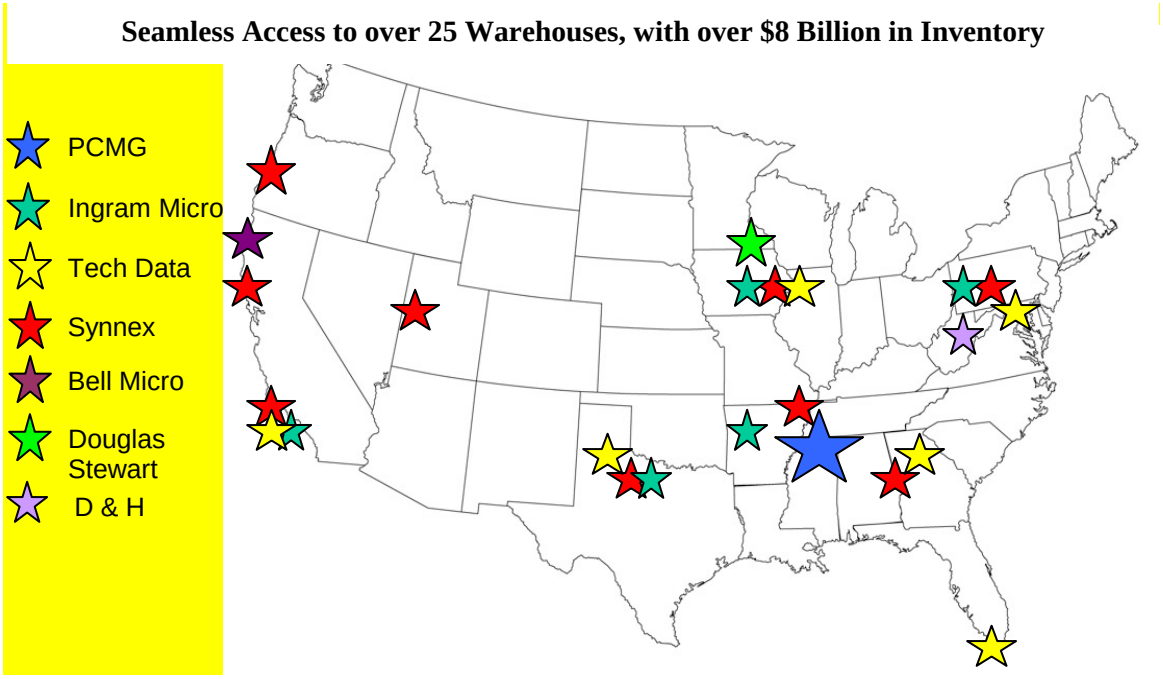
Distribution Centers

PCMG's state-of-the-art full service 225,000 square foot distribution center is strategically located next to the FedEx hub in Memphis, Tennessee. (Our long-standing relationship with FedEx works to the government's advantage—allowing government customers to order products as late as 10 p.m. EST, in time for same-day shipping of in-stock items from PCM's distribution center). PCM is also electronically linked, via EDI, to over 30 regional distributors and manufacturers that act as Virtual Warehouses, to streamline distribution operations, through cutting-edge technology, to enable timely execution of Government orders. The benefits of the virtual warehouse program are reduced inventory carrying costs and improved turn-over of inventory. Through its distribution facilities and virtual warehouses, PCM can provide the daily access to over $8 billion in inventory. These existing capabilities are based upon commercial best practices proven by PCM, and are made available to the Government by PCMG.

For example, The Memphis, Tennessee and Columbus, Ohio warehouses ship, on average, 15,000 orders per week and have handled up to 43,000 orders weekly during peak times. These shipments amount to over 77,500 individual pieces shipped on a weekly basis. The shipping accuracy rate is 99.97%. PCM's warehouse and configuration center stocks, on average, $40-$50M in inventory with access to over $8B in "virtual" inventory. This virtual inventory is available through a network

of distributors with warehouses on both the East and West coasts. PCM front and backend order management allows for 95% of in stock orders to ship same day.



The Memphis warehouse also includes a Configuration Center to support imaging and asset tagging, special configuration support and staging prior to shipment. Housing an onsite Configuration Center in Memphis adds an element of control to the accuracy of the orders and ensures that all services are performed and quality checked prior to shipment. Currently, the Memphis Configuration Center weekly shipment average is 900 orders with up to 1800 orders shipped during peak times. This statistic equates to an average of 972 systems shipped from the Configuration Center on a weekly basis. The accuracy rate of these shipped systems equals 99.5%. The Configuration Center also allows for staging of shipments. When unique packing or documentation requirements exist, or shipments must be consolidated to multiple locations, PCMG will utilize the services of the Memphis Configuration Center to stage and ship.

The Memphis Configuration Center includes technicians certified in Apple Desktops; Apple portables; Microsoft Certified Systems Engineer (MSCE); Microsoft Certified Professional (MCP); IBM Warranty Technicians; IBM X Series Server; IBM Mobile and Desktop Systems and HP Certified Systems Engineer.

7. Contact Information

Headquartered in Chantilly, Virginia, PCMG began by providing IT products through a comprehensive sales model which included inside telephone sales; internet sales; custom customer Corporate Access Pages (CAP) sites; and published catalogs delivered to the desk side.

PCMG fully-staffs operations locations in El Segundo, California, Chantilly, Virginia and Shelton,

Connecticut as well as numerous satellite offices electronically connected to the operations locations.

Both the El Segundo and Chantilly locations host complete, end-to-end business systems on servers physically located at the location. Both locations have electronic access to the other but operate independent of each other from an operations perspective. Because the functions and customer base of each location have unique requirements, the systems and databases that drive the systems are independent of each other. Both locations staff a sales team and an engineering team along with an accounting, purchasing and IS department. The "catalogs" that PCMG has developed for our open market sales and for our contract sales are resident on servers in both locations. Both locations host fully integrated business systems that allow sales personnel to prepare customer quotations by accessing live data in our "catalogs." Customer orders are accepted at each location and both purchasing departments have unique accounts with our various distributor and manufacturer partners.

Through internal collaboration and employee exchange, PCMG can offer the combined expertise of the parent and subsidiary organizations in one cohesive team with the assurance of corporate commitment but without the overhead of surplus staff.

14. Capabilities and Functionality of PCMG Ordering Website

PCMG.com— PCM considers itself a leader in Internet e-commerce innovation and will continue enhancing its leadership position on the Internet. The PCMG.com site serves as a premier destination for the government market to gather pertinent information on quality products and services offered at PCMG. This site includes home pages applicable to the federal, state, local, and education markets, with a complete listing of contracts. Additional features of the site include tradeshow calendars, product availability, online purchasing, and order tracking.

15. Expertise with Web-based Procurement

PCMG currently hosts many integrated sites for large customers such as the State of Florida, State of Georgia, State of California, and the State of Virginia (VITA). We currently offer two different types of sites, totally dependent on the customers' needs and capabilities.

eProcurement sites are suited to customers who utilize their own custom or purchased procurement system, but want support for user authentication as well as order placement. Most customers using eProcurement are on systems such as Ariba, Oracle iProcurement, SAP, CommerceOne, etc…

These customer-specific web sites allow online ordering and order management, tracking, invoicing, order history, and product comparisons. Individual CAP sites can offer access to the full PCM product offering, or can be limited according to the customer's identified catalog and pricing. These sites are all accessible via a web page and offer customer's ease of use and the ability to gather product information prior to getting approval for purchase. In fact, customers can simply build an order that is being considered, and the system will furnish a quote for internal requisition processing. A customer may visit the CAP site at any time and see their order history and current order status.

PCM currently supports thousands of customized procurement sites for our public sector customers. Our web site can refresh automatically on a predetermined schedule as frequently as hourly, if desired, to take advantage of up to the minute cost savings as our purchasing professionals negotiate special purchases, or as manufacturer pricing changes.

Once an order is entered through PCM's system, an automated credit check or credit card verification is performed and, if approved, the order is electronically transmitted to the warehouse, where a packing slip is printed for order fulfillment. Orders fulfilled by certain distributors linked electronically with PCMG are transmitted directly to their warehouses via electronic data interchange (EDI). Using its distribution center, Virtual Warehouse links, and award-winning web site approach, PCMG can provide customers a complete electronic commerce transaction center.

The benefits of customized e-procurements sites:

- ***Hot Links to Manufacturer Sites—***for current product information

- ***Specific Pricing Information—***The e-procurement site will supply, at a minimum, Part #, product description, OEM part name and number, and the TCPN Contract price. To provide the best product pricing to *all* of its customers, PCMG regularly aggregates orders and, based upon those orders, negotiates better product pricing from manufacturers and suppliers. In addition, when presented with a large, aggregated, specific product order from a Participating Public Agency, PCMG will negotiate with the manufacturer, on behalf of the agency to obtain further volume discounts.

- ***Online Quotes—***Customers can simply build an order that is being considered, and the system will furnish a quote for internal requisition processing.

- ***Order History and Tracking Information—***A customer may visit the e-procurement site at any time and see their order history and current order status.

  Corporate Access Pages ("CAP" sites) are suited to customers who do not currently have their own workflow based procurement system. These sites provide integration for both, authentication of users and order placement, but are specifically designed to allow customer to set up workflow for support of their purchasing approval process based on both dollar threshold and user.

  CAP sites allow users to order directly from the web, track their orders and maintain a history record of ordering activity. Orders can be directly placed on the e-commerce site. Instructions on how to place orders through the contract will be detailed within this site. A listing of support team members will be available with all contact information including name, email address, telephone and fax numbers. This site is provided at no additional cost and provides:

16. Ability to create and maintain a dedicated TCPN page on our website as well as other capabilities for promoting the contract online

Yes, we have this ability and have implemented it successfully for other contracts.

17. Ability to maintain a vendor page on TCPN's website including always up to date contact information and promotional materials

Yes, we have this ability and have implemented it successfully for other contracts.

CAP Sites—PCMG maintains and operates an extranet for its corporate and government customers, called "Corporate Access Pages" or CAP sites. From the PCMG.com web site, government and educational users will be able to access a personalized CAP site. This CAP site will provide users with contract-specific product pricing, availability, and same-day order processing, with next-day delivery of products.

18. Description of PCMG Customer Service Department, hours of operation, number of service centers etc.

Customer service personnel man the telephones from 8 a.m. EST through 8 p.m. EST to answer

customer inquiries regarding shipments; availability and product return.

PCMG ***Customer Service*** (CS) organization which is staffed in the Chantilly, VA and El Segundo, CA offices have responsibility for notifying customers when purchase orders are received and processed; when expected shipments are to arrive; for handling all issues that may require a return; and for communicating with the customer after shipment to ensure customers are satisfied. A CS Representative will work closely with the PCMG Account Managers to assist in coordinating large shipments that require staged delivery or deliver to multiple locations. For large shipments with varied locations, the CS Rep. will work with the end users to schedule deliveries and to keep end users informed of changes in shipment status. The CS Rep. is the most qualified at this point in the procurement to explain the PCMG Return policy and to facilitate returns by communicating everything that an end user must do and everything that the end user can expect to happen after the return.

In most cases, returns fall into three categories:

1. Customer return with a re-shipment order (original product damaged, defective product, wrong product shipped, or lost shipment)
2. Customer return with a change in product (wrong product ordered)
3. Customer cancellation; PCMG returns product to vendor or to PCMG stock

Customer requested returns after the thirty day time period will be considered on a case-by-case basis.

When an end user desires to return a product, a call to the CS Rep. will prompt the issuance of a Return Material Authorization (RMA). All returns must be handled through PCMG. The CS Rep. will track RMAs and, if desired, order replacement product on behalf of the end user.

NOTE: Only a PCMG CS Rep. may issue an RMA to a customer. The CS Rep. must obtain a valid RMA number from our vendors prior to product being returned to a vendor.

In addition to handling customer inquiries, the CS Rep. will also work closely with the Technical Support staff to coordinate any installations or professional services engagements.

PCMG prides itself on a tradition of outstanding customer care and support. Our devoted team of account representatives understands that our customers are the hallmark of our enduring partnerships. Most of the products sold by PCMG are subject to a manufacturer's warranty. The warranty provided by the manufacturer is the first place to look for assistance with difficulties that may accompany your purchase. To obtain information regarding manufacturer's warranties, please refer to the website below, contact us at the following e-mail address, warrantyinfo@pcm.com or call us: 1-800-625-5468.

http://www.pcmall.com/pcmall/information/product_support/mfr_warranty.asp

We encourage customers to request information from any of our account executives about extending the service period on any of the products that you purchase.

19. Description of any litigation, bankruptcy or reorganization.

PCMG has no past or present involvement in any litigation, bankruptcy or reorganization .

20. Description of plans to market the contract within the first 90 days of award.

We have always maintained our commitment that the contracts we support will provide our end users with the best possible value proposition – ease of use + broad product offering + competitive pricing. We are selective in contracts that we pursue and we execute against them with certainty and commitment. PCMG intends to use TCPN as our lead contract vehicle in the SLED space enabling us to compete against US Communities and WSCA on a nationwide level. We intend to put our full Marketing and Sales resources behind the launch. We will advertise in trade publications, co-brand literature, attend regional trade shows jointly and literally make thousands of outbound calls advertising the contract.

In addition to the above, our plans include the following:

A co-branded press release within first 30 days
Announcement of award through any applicable social media sites
Direct mail campaigns
Advertisement of contract in regional or national publications
Dedicated TCPN and Region 4 ESC internet web-based homepage with:
TCPN and Region 4 ESC Logo
Link to TCPN and Region 4 ESC website
Summary of contract and services offered
Due Diligence Documents including; copy of solicitation, copy of contract and any amendments, marketing materials

PCMG has an established marketing plan that is specifically designed for State, Local and education customers. Our customized plan includes, but is not limited to the following types of marketing efforts:

Electronic Marketing:

PCMG is an industry leader in direct marketing of IT products to government and education. In addition to the "Knowledge is Power Campaign" outlined below, we are willing to capitalize on the processes and resources already in place to help TCPN to promote the contract. We have an assigned Business Development Director for State, Local and Education whose responsibilities are to support and promote the contract and ensure that our sales team has the resources needed to meet the needs of the contract's eligible users. We view our relationship with TCPN and its members as a working partnership. A combination of the following elements will form the foundation of promotional success:

- Effective data mining to clearly target customers
- Education of sales force
- Effective implementation of marketing vehicles
- Compelling messaging
- Product availability
- Tracking of customer activity
- Customer Feedback/Satisfaction Surveys if desired by TCPN

PCMG will use an integrated program of these proven approaches to promote the contract:

Mailing Lists—PCM maintains a proprietary list of millions of names of previous and potential customers. PCMG is prepared to use these existing mailing list management approaches to establish a mailing list, and send e-mail newsletters (if the State allows), applicable to the Software Contract.

Catalogs— PCMG delivers top quality products through its distinctive full-color direct response catalogs (PCM, PCMG, and Mac Mall).

Sales Force— PCMG uses a very aggressive approach of combining outside and inside sales resources to understand our clients unique requirements. This hybrid approach will allow PCMG to aggressively market a resulting contract enabling a marked increase in marketshare for both PCMG and TCPN. Combined with a planned participation in over 30 identified national and regional public sector end user trade shows, unique online and web-branded marketing initiatives will enable substantial market growth and revenue dollars for PCMG and TCPN.

Brown Bag Product Webinars/ Technology Refresher Information Sessions—Using in-house technical expertise as well as our manufacturer partners' resources, PCMG offers a variety of content rich information sessions. These sessions are designed to provide updates to customers on specific contract issues/changes, new product launches, as well as customer education on information technology topics such as server consolidation, distributed print management, energy conservation, Continuity of Operations, and Network security to name a few. The sessions last from 30 – 60 minutes and are typically scheduled as Lunch time learning sessions, thus the "brown bag" concept of bring your lunch & learn!

Shows & Events—regional and in-agency tabletops and tradeshows play an important role in contract promotion. PCMG participates in a variety of these events to develop customer relationships, promote contract vehicles and merchandise our products and services.

PCMG is committed to best practices which will ensure program focus and common understanding of program goals. PCMG chooses its teaming partners with great care and includes attention to criteria like corporately-supported "green" initiatives. We seek out partnerships with companies who have well entrenched green initiatives in place that complement those in place at PCMG and our parent company, PCM, Inc. We monitor our manufacturer partners for green initiatives that involve design, manufacturing, operations and packaging.

Across PCM's multiple divisions including PCMG, we take pride in being industry leaders and adopting progressive environmental standards and practices that demonstrate our commitment to corporate social responsibility. We are constantly evaluating the way we conduct business, looking for innovative ways to reduce our carbon footprint and minimize our impact on the planet. Identified by the State of California for our "Go Green" initiatives, policies and procedures, PCM and its subsidiary PCMG are continuously diligent about the practices within our own corporation and the corporations with whom we partner

35. How does PCMG ensure and measure the success of our sustainability policy and initiatives?

PCM is committed to being "Best in Class" and that is certainly evident in our approach to green initiatives. As a company, we feel it is our obligation to seek out the latest advances in green operation – to lead by example. PCM carefully measures and benchmarks its green initiatives, raising the bar each year in terms of the results for every one of our properties across the country.

The successful execution of company-wide green initiatives is being achieved through a detailed, measurable and long-term program called GO GREEN. This proprietary program is national in scope; implemented at all locations including our warehouse, and sets operational benchmarks to reduce energy consumption and waste, improve environmental protection, encourages sustainable procurement and ongoing communication with key stakeholders.

The premise of GO GREEN is the idea that sustainability is both the right thing to do and the smart thing to do. According to market research, approximately 12% of consumers are True Greens, people that consistently purchase green products. Another 68% can be classified as Light Greens, buyers who buy green sometimes. Truly green businesses align their products, services, and business cultures to their customers. They understand that 'going green' is one of the best ways to lower costs, increase revenues, improve operational efficiencies, & increase stakeholder support.

The program itself focuses on five environmental pillars:
1. Energy: A key focus is on Energy Conservation and Efficiency and the incorporation of renewable energy sources
2. Waste Management: Our goal is to generate zero waste by implementing a consistent and dedicated approach to waste diversion and waste minimization.
3. Environmental Protection: Our goal is to eliminate adverse impacts at our properties wherever our activities, products and services interact with the environment, while ensuring compliance with governmental regulations.
4. Sustainable Procurement: Wherever possible, we will utilize environmentally-friendly products, services, best management practices at all locations, and
5. Communication: Our comprehensive Green Communication Plan has been designed to inform, engage, educate and share green best practices with our employees and customers so that we can work together to make a difference.

Overview Types Key Elements Service Models Resources

Cloud Services

Cloud computing offers a new way to manage your business by providing IT services through virtualized applications, software, hardware and networking services that are housed in an internet “cloud“. Unlike a traditional environment where you own and actively manage the infrastructure and resources, a cloud computing model enables you to “lease” these resources.

The cloud provides unmatched flexibility to quickly adapt to your changing business needs and it’s the most efficient, most dependable and most agile environment ever created. And, it’s easier to deploy than you might think.

Don't have time? Drop us a line.

For most organizations, the move from a traditional IT operation to a cloud-based business solution requires a proactive approach to understand your unique needs and then create a functional action plan addressing architecture, business opportunity and innovations, process changes, and growth strategies. And PCM can help put you on the fast track to the Cloud.

The Cloud Services Team at PCM has extensive experience designing, deploying and managing solutions from the industry's top manufacturers and vendors including HP, Cisco, VMware, Dell (Compellant & EqualLogic), EMC and NetApp. We offer both private and public cloud offerings such as:

- Servers- Windows, Linux and i5
- Secure Network and Storage
- Anti-Virus
- Email
- CRM
- Web/Email filtering
- Email encryption
- Email archiving
- Consulting Services
- Cloud design
- Deployment services

PCM understands that our customers require a mix of on-premises and hosted IT services and we can offer fast, reliable and scalable services which can be easily re-configured to meet the demands of your business. You pay for what you use with the ability to add server capacity, processing power or storage as your needs change.

Organizations who adopt cloud computing find that it offers a single way to help lower capital expenditures, increase revenue, improve customer experiences and cultivate innovation. Businesses are able to steer their organizations in new directions by pooling resources to maximize efficiencies and reduce operating costs.

The Cloud provides small and mid-sized companies access to the most sophisticated, state-of-the-art technologies previously reserved for only the largest organizations. It is especially well suited to growing businesses in that it provides the flexibility to quickly change as the needs of the business change without the up-front investment.

Don’t let the high costs of hardware, software, networking and support prevent your organization from upgrading to new

technology solutions that you need to compete. Whether you need hosted applications, backup and recovery solutions or just online storage, we're here to help meet all your needs. Call your Account Executive to start your journey towards Cloud Computing.

your specific requirements. Our segregated and secure production network is set up for Gigabit Ethernet, so we can image many systems from our image server in a very short period of time. The accuracy of the image deployed is guaranteed by our First Article Build process. This documented process mandates the creation of a system or systems built with your customized image and the development of step by step configuration instructions to be followed in the image deployment process. The system(s) and the deployment instructions are then sent to you for evaluation and approval. After we get your approval, we place the image onto the authorized production image server and publish the instructions on our internal quality system site.

All image loads require supervisory personnel to inspect each installation. Additionally, we use an automated electronic data collection process, which verifies that the correct load was downloaded to each system.

Asset Tagging and Reporting
Asset Tagging and Reporting is a service that can be customized to your requirements. It provides for the placement of a specially created asset tag on a system unit and/or packaging. This also includes the creation of asset tracking reports using either software supplied by you or an Excel spreadsheet. The service can be customized to include the creation of specialized bar code labeling if needed.

Essential Managed Services
Essential Managed Services are the foundation of a properly managed IT environment, offering critical monitoring and management of your server and networking infrastructure. They are designed for organizations that have skilled IT resources on staff that will be responsible for incident resolution and daily operations aspects of your systems.

Advanced Managed Services
Advanced Managed Services fulfills the needs of clients who require monitoring and management of their network and server infrastructure and also want our expert engineers to take the lead on resolving your tricky technology issues 24 × 7 × 365.

These services are designed for organizations with skilled IT resources capable of handling the daily operational aspects of managing their technology, but choose to have us handle incident resolution so their resources are free to focus on higher level tasks.

Premier Managed Services
Our Premier Managed Services are the highest level of Managed IT Services that we offer. In addition to monitoring, proactive patch management and incident resolution, they provide for the full outsourcing of your daily IT operations.

Enterprise Mobility Management

Mobile technology is changing how we conduct business. Not only has there been an increase in the use of smartphones, tablets and laptops, but the number of organizations adopting Bring Your Own Device (BYOD) policies has skyrocketed. And to complicate matters, employees now expect to be able to access their business applications — email, contacts, calendars, SharePoint, CRM and other portals — on these devices from any location and any time of the day.

The priority for IT departments has become to identify the requirements needed to secure and support these mobile devices. They recognize their organization can gain a competitive edge with mobile devices when the proper security policies and procedures are in place. And, they can satisfy the user through profile-configured VPN and network access, so they no longer have to hunt for corporate access and Wi-Fi keys.

Don't have time? Drop us a line.

have to restrict corporate access and Wi-Fi keys.

Mobile device use and security must be carefully managed in order to protect the security of both your organization's physical assets and its sensitive information. According to an Info-Tech Research study, up to 30% of mobile devices are lost or stolen along with their corporate data and intellectual property. In a BYOD environment, every misplaced smartphone, tablet, or laptop is a potential gateway to your sensitive systems. When users can access and modify data on unsecured devices, it creates additional risks for information control, malware, data corruption, and theft.

With more than twenty years experience and dedicated processes, the PCM experience is the top of the game. The entire process is managed and maintained wholly within PCM, which makes us a true single-source provider. Plus, our comprehensive service offerings cover the entire mobility process, from pre-deployment planning through device management and on to lifecycle management.

Overview Types Key Elements Service Models

Service Models

The cloud model is composed of three service models: Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS). Each type of cloud services is geared for different purposes:

SaaS Software as a Service

Enables users to access applications running on a Cloud infrastructure from various end user devices, usually through a web browser. The user does not manage or control the underlying Cloud infrastructure or individual application capabilities other than limited user-specific application settings.

Software as a Service (or SaaS) is used by users to complete business tasks. Examples of SaaS include:

- Email
- Office automation
- CRM
- Information/Knowledge Sharing (Wiki)
- Social Networking (Twitter, Blogging, FaceBook)

PaaS Platform as a Service

Enables users to deploy applications developed using specified programming languages or frameworks and tools onto the Cloud infrastructure. The user does not manage or control the underlying infrastructure, but has control over the deployed applications.

Platform as a Service (or PaaS) is used by developers and deployers for creating and deploying applications and services for users. Examples of PaaS include:

- Application Development, Data, Workflow, etc.
- Security Services (Single Sign-On, Authentication, etc.)
- Database Management
- Directory Services

IaaS Infrastructure as a Service

Provides users with processing, storage, networks and other computing infrastructure resources. The user does not manage or control the infrastructure, but has control over operating systems, applications and programming frameworks.

Infrastructure as a Service (or IaaS) is used by system managers to create platforms for service and application testing, development, integration and deployment. Examples of IaaS include:

- Mainframes, Servers, Storage
- IT Facilities/Hosting Services

Case Study: Digital Signage for Beverage Manufacturer

The Services organization was tapped by an international beverage maker to help them acquire nearly 50 digital displays that could survive a whirlwind marketing tour across the nation in the middle of summer. And — they needed them in less than 30 days.

Customer Challenge

Our customer is an international beverage manufacturer with worldwide distribution in over 20 countries. The company was planning a nationwide promotional road show tour across the United States, and they needed large format digital displays to support their multimedia messaging campaign. Each road show would be held in an outdoor tent, and the entire production would be transported between venues by tractor trailers.

Our customer contacted us 30 days prior to the kickoff of their tour with a challenge: they needed 48 displays for the event, and they needed them immediately. After conferring with our Digital Signage Technical Consultant about where and how the displays would be used, we determined that the right displays would have to meet two primary criteria. First, they would need to be portable and sturdy enough to survive the nationwide tour. Second, they needed to be durable enough to withstand the extreme temperatures and humidity of the outdoor weather.

Services Solution

When our customer first reached out to us, they were considering purchasing consumer-grade displays for their road show. However, our Services Team explained that there are inherent shortcomings of deploying in-home flat-panel televisions for such an event. Not only would this shorten — if not void — the manufacturer's warranty on the displays, but using them in outdoor tents during sweltering summer heat would likely lead to failures. The only way consumer-grade displays could function reliably in such an environment is if they are housed inside climate-controlled enclosures, but the customer's compressed timeline and budgetary constraints made this option unfeasible.

After exploring multiple options, we decided that the best solution given the constraints would be deploying NEC P402 displays. These professional-grade displays are rugged enough to handle the rigors of being transported across the country, and they have internal thermal sensors that trigger a sealed airflow system, which provided some much needed temperature and moisture resistance.

Because our staff had used these exact displays successfully in restaurants where high heat and moisture are common, they were confident in recommending them to the customer. In addition, we would be able to procure 48 units quickly enough to meet the customer's short time frame.

Business Results

Given the tight deadline, we immediately set to work ordering the necessary displays and were able to deliver all 48 of the units to our customer with more than enough time for them to prepare the equipment for their event. Thanks to the NEC displays' industrial-strength design, they performed perfectly throughout the grueling tour. And our customer's high-definition digital signage was the star of the show, impressing everyone who stopped by to watch the presentation.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM
Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (www.nj.gov/dca/lgs/lfns/lfnmenu.shtml).

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at www.nj.gov/dca/lgs/p2p. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract. (See Local Finance Notice 2006-7 for additional information on this obligation) A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. **NOTE: This section is not applicable to Boards of Education.**

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM
Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county. The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs). When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure. Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report. The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement. The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act. The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.

NOTE: This section does not apply to Board of Education contracts.

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."
