

What are Managed Service Provider Solutions?

Overseeing a contingent workforce program with multiple suppliers can be overwhelming. This solution streamlines the way you source, hire and manage contingent labor with better processes and crystal-clear visibility into your program. We design a customized MSP solution for each customer to address their specific needs, empowering them with processes and reporting they need to reveal powerful insights into performance, cost and risk.

What makes our MSP Solution different?

We go above and beyond the typical out-of-the box solutions that you may be familiar with. Here are a few highlights:

- » **Deep research:** we spend the time to understand you, your needs, goals and processes.
- » **Technology:** like shoes, finding the right fit is make-or-break. We take the time to make sure you're picking the right one.
- » **Leveraging suppliers:** we assess your community of suppliers and find ways to develop a more successful partnership. With more than 15 years of industry experience, we've partnered with nearly all of them!
- » **Cost control:** we make sure you're not over-paying for labor, while conducting regular audits to ensure every dollar spent helps you achieve goals.
- » **Weekly touch points:** it's amazing how many problems strong communication can solve (and avoid).
- » **Innovation for the future:** we won't give you the keys and walk away. We will continue to do the research for continuous process improvement so you can evolve and grow.

The top signs that you can streamline your program:

If any of the following issues apply to you, we highly recommend considering an MSP:

- » You rely on **manual reporting**
- » You **can't track temporary labor spend** by candidate or supplier
- » You're not sure you can hire the **best talent**
- » You don't have a clearly **defined system in place** to manage suppliers.
- » You **can't quickly find basic information** like candidates' and their managers' contact information

What does a successful program look like?

- » There are clear, consistent processes in place
- » Reporting is easy, you can quickly access the facts and figures that matter to you and your team
- » You're leveraging technology to uncover new insights
- » Pay rates are vetted and audited
- » You have a trusted partner and expert to call for guidance and problem-solving
