## Implementation of House Bill 1295

### Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

#### Filing Process:

Starting on January 1, 2016, the commission made available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. This process is known as acknowledging the certificate. The commission will post the acknowledged Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. The posted acknowledged form does not contain the declaration of signature information provided by the business.

A certificate will stay in the pending state until it is acknowledged by the governmental agency. Only acknowledged certificates are posted to the commission's website.

Furthermore, Senate Bill 252 (85R Legislative Session), which amends Chapter 2252 of the Texas Government Code to add Subchapter F, prohibits contracting with a company engaged in business with Iran, Sudan or a foreign terrorist organization identified on a list prepared by the Texas Comptroller.

The following documents are used in evaluating and administering cooperative contracts and are included for Supplier's review and response.

Exhibit A – RESPONSE FOR COOPERATIVE CONTRACT

Exhibit B – ADMINISTRATION AGREEMENT, EXAMPLE

Exhibit C – MASTER INTERGOVERNMENTAL COOPERATIVE PURCHASING AGREEMENT, EXAMPLE

Exhibit D – PRINCIPAL PROCUREMENT AGENCY CERTIFICATE, EXAMPLE

Exhibit E – CONTRACT SALES REPORTING TEMPLATE

Exhibit F – FEDERAL FUNDS CERTIFICATIONS

**EXHIBIT A**  
**RESPONSE FOR COOPERATIVE CONTRACT**

---

**1.0 Scope of Cooperative Contract**

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Supplier and OMNIA Partners.

**1.1 Requirement**

Region 4 Education Service Center (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector (“OMNIA Partners”), is requesting proposals for Internet Service Providers for TEA Texas Connect. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal (“Master Agreement”) be made available to other public agencies (“Public Agencies”), through OMNIA Partners’ cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners as a Participating Public Agency in OMNIA Partners’ cooperative purchasing program. Registration with OMNIA Partners as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither OMNIA Partners, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.

This Exhibit A defines the expectations for qualifying Suppliers based on OMNIA Partners’ requirements to market the resulting Master Agreement to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers in order to serve Participating Public Agencies through OMNIA Partners.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners to make the Master Agreement available to Participating Procurement Agencies.

## **1.2 Marketing, Sales and Administrative Support**

During the term of the Master Agreement OMNIA Partners intends to provide marketing, sales, partnership development and administrative support for Supplier pursuant to this section that directly promotes the Supplier's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies.

OMNIA Partners will assign the Supplier a Director of Partner Development who will serve as the main point of contact for the Supplier and will be responsible for managing the overall relationship between the Supplier and OMNIA Partners. The Director of Partner Development will work with the Supplier to develop a comprehensive strategy to promote the Master Agreement and will connect the Supplier with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

The OMNIA Partners marketing team will work in conjunction with Supplier to promote the Master Agreement Public Agencies through channels that may include:

- A. Marketing collateral (print, electronic, email, presentations)
- B. Website
- C. Trade shows/conferences/meetings
- D. Advertising
- E. Social Media

The OMNIA Partners contracting teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
- D. Regular business reviews to monitor program success
- E. General contract administration

Suppliers are required to pay a one-time (1 x total MRR) administrative fee payment of 3% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the OMNIA Partners Administration Agreement (Exhibit B).

### **1.3 Estimated Volume**

The dollar volume purchased under the Master Agreement is estimated to be approximately \$100 million in the State of Texas. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and OMNIA Partners.

### **1.4 Award Basis**

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will, at OMNIA Partners' option, be the basis of award on a through OMNIA Partners. If multiple Suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same Suppliers will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g. governing law) are subject to modification for each Participating Public Agency as Supplier, such Participating Public Agency and OMNIA Partners shall agree without being in conflict with the Master Agreement. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (i.e. invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, governing law, etc.) ("Supplemental Agreement"). It shall be the responsibility of the Supplier to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Supplier to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. In instances where supplemental terms and conditions create additional risk and cost for Supplier, Supplier and Participating Public Agency may negotiate additional pricing above and beyond the stated contract not-to-exceed pricing so long as the added price is commensurate with the additional cost incurred by the Supplier. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Supplier (Contract Sales are reported to OMNIA Partners).

All signed Supplemental Agreements and purchase orders issued and accepted by the Supplier may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Supplier is responsible for reporting all sales and paying the applicable administrative fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

## **1.5 Objectives of Cooperative Program**

This RFP is intended to achieve the following objectives regarding availability through OMNIA Partners' cooperative program:

- A. Provide a comprehensive competitively solicited and awarded agreement offering the Products covered by this solicitation to Participating Public Agencies;
- B. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;
- C. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

## **2.0 REPRESENTATIONS AND COVENANTS**

As a condition to Supplier entering into the Master Agreement, which would be available to all Public Agencies, Supplier must make certain representations, warranties and covenants to both the Principal Procurement Agency and OMNIA Partners designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Supplier.

### **2.1 Corporate Commitment**

Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, and (2) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with OMNIA Partners and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate account manager within the RFP response that will be responsible for the overall management of the Master Agreement.

### **2.2 Pricing Commitment**

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

### **Conflicts of Interest**

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an “apparent” conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency (“NFE”) must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. Violations. The NFE’s written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE’s employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

#### **1. Termination for Convenience:**

The right to terminate this Contract for the convenience of the Participating Public Agency is retained by the Participating Public Agency. In the event of a termination for convenience by the Participating Public Agency, the Participating Public Agency shall, at least ten (10) calendar days in advance, deliver written notice of the termination for convenience to Contractor. Upon Contractor's receipt of such written notice, Contractor immediately shall cease the performance of the Work and shall take reasonable and appropriate action to secure and protect the Work then in place. No amount ever shall be owed or paid to Contractor for lost or anticipated profits on any part of the Scope of Work not performed or for consequential damages of any kind.

#### **2. Equal Employment Opportunity:**

The Participating Public Agency highly encourages Contractors to implement Affirmative Action practices in their employment programs. This means Contractor should not discriminate against any employee or applicant for employment because of race, color, religion, sex, pregnancy, sexual orientation, political belief or affiliation, age, disability or genetic information.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided*, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

3. "During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.
- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.
- (3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the

contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

- (4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- (6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- (7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

#### 4. Davis Bacon Act and Copeland Anti-Kickback Act.

- a. Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program.**
- b. All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.
- c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.
- d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

- e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.
- f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland “Anti-Kickback Act.”** However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

“Compliance with the Copeland “Anti-Kickback” Act.

- (1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- (2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses
- (3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.”

5. Contract Work Hours and Safety Standards Act.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.
- c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.
- d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

“Compliance with the Contract Work Hours and Safety Standards Act.

- (1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- (2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.
- (3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.
- (4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.”

6. Rights to Inventions Made Under a Contract or Agreement.

- a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as**

FEMA awards under these programs do not meet the definition of “funding agreement.”

- b. If the FEMA award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

- c. The regulation at 37 C.F.R. § 401.2(a) currently defines “funding agreement” as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.
7. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of \$150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.
- a. The following provides a sample contract clause concerning compliance for contracts of amounts in excess of \$150,000:
- “Clean Air Act
- (1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.
  - (2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
  - (3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.
- Federal Water Pollution Control Act
- (1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
  - (2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
  - (3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.”
8. Debarment and Suspension.
- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
  - b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security’s regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).

- c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*].* A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at [www.sam.gov](http://www.sam.gov). See 2 C.F.R. § 180.530; *PDAT Supplement*, Chapter IV, ¶ 6.d and Appendix C, ¶ 2.
- d. In general, an “excluded” party cannot receive a Federal grant award or a contract within the meaning of a “covered transaction,” to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a “covered transaction,” which is any non-procurement transaction (unless excepted) at either a “primary” or “secondary” tier. Although “covered transactions” do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS’s implementing regulations, it does include some contracts awarded by recipients and subrecipient.
- e. Specifically, a covered transaction includes the following contracts for goods or services:
  - (1) The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
  - (2) The contract requires the approval of FEMA, regardless of amount.
  - (3) The contract is for federally required audit services.
  - (4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.
- d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

“Suspension and Debarment

- (1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
- (4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the

period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.”

9. Byrd Anti-Lobbying Amendment.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Contractors that apply or bid for an award of \$100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ 1; 44 C.F.R. Part 18; PDAT Supplement, Chapter IV, 6.c; Appendix C, ¶ 4.
- c. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See PDAT Supplement, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.
- d. The following provides a Byrd Anti-Lobbying contract clause:

“Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.”

10. Procurement of Recovered Materials.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; PDAT Supplement, Chapter V, ¶ 7.
- c. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
- d. The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

“(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(2) Information about this requirement, along with the list of EPA- designate items, is available at EPA's Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>."

#### 11. Additional FEMA Requirements.

a. The Uniform Rules authorize FEMA to require additional provisions for non- Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:

b. Changes.

To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

c. Access to Records.

All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and agree to comply with applicable provisions governing Department and FEMA access to records, accounts, documents, information, facilities, and staff. See DHS Standard Terms and Conditions, v 3.0, ¶ XXVI (2013).

d. The following provides a contract clause regarding access to records:

"Access to Records. The following access to records requirements apply to this contract:

(1) The contractor agrees to provide (insert name of state agency or local or Indian tribal government), (insert name of recipient), the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract."

#### 12. DHS Seal, Logo, and Flags.

- a. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).
- b. The following provides a contract clause regarding DHS Seal, Logo, and Flags: “The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.”

13. Compliance with Federal Law, Regulations, and Executive Orders.

- a. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.
- b. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: “This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.”

14. No Obligation by Federal Government.

- a. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.
- b. The following provides a contract clause regarding no obligation by the Federal Government: “The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.”

15. Program Fraud and False or Fraudulent Statements or Related Acts.

- a. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.
- b. The following provides a contract clause regarding Fraud and False or Fraudulent or Related Acts: “The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor’s actions pertaining to this contract.”

Additional contract clauses per 2 C.F.R. § 200.325

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided in the contract.

**a) Products, Pricing, and Availability**

Texas Connect Program

- i. Present Offeror's plans and pricing for offering service under the TEA Connect Texas Program. The Offeror's proposal should clearly outline any requirements Offeror proposes of Texas school districts and program households. Separate pricing may be submitted for urban and rural areas.

We have embedded our coverage area and an Excel spreadsheet showing 3,118 campuses and 317,131 unconnected students for every district under the coverage area. We currently are the primary E-Rate Internet provider for over 80 school districts in this coverage area. We have been in talks with those districts and surrounding districts where we are not the E-Rate provider of record and have set up community hotspots along with direct student access to the schools' filtering (MAC of student's device is the only one that can hit their ISD content filtering and network via these hotspot connections). Hotspots have been placed in stadiums, parking lot access locations, etc. Whether it is a school-provided device or the student's device (computer/phone/etc.), only the MAC address of the device authorized can hit the school's network and filtering. The same methodology can be deployed with this solution and remove the upcharge for cloud filtering from Nextlink.

Since the pandemic surfaced in early 2020, we have also worked directly with these districts identifying and informing them of solutions for their unconnected students and adjustments our coverage and tower locations in order to pick them up.

This proposal takes each of those initiatives to a higher level across every district within current coverage, as of May 12, 2021. The orange icons on the accompanying map (*Figure 1*) identify the districts included in the bid that our network will reach by July 1, 2021, for a total of 3,118 campus locations – 317,131 students using the student population and the unconnected student data (reflects counts as of 2019 funding year, so this may have increased or decreased for each). The total annual recurring amounts in our pricing could vary based on student reach requested by each school district.

The rate plans listed are our standard month-to-month rates. These rates normally drive a \$250 installation since there is no term length guaranteeing a return on equipment and labor efforts through 12 months of service for each student connected. However, we have **waived that \$250 installation fee**, set the standard rate, and we are currently offering Emergency Broadband Benefit Program discounts NOW (\$50 off every rate plan plus a \$50 computer) through the end of that program for families that want to take

direct advantage of a home internet service rather the student-only option depicted in this proposal.

*Figure 1 Green towers are currently active; orange towers will be active no later than the end of July 2021.*

We have included a cost per student in the rate plan utilizing our cloud content filtering services. The option to only register the students MAC address within the router is still available through Nextlink Internet provisioning services in connection with the district's device assignment standard operating procedures. If a district takes that option, we will remove the cloud-based filtering element eliminating \$3 per student per month.

ii. Describe Offeror's proposed equipment deposit and return strategy.

In most cases, if a student vacates the premise, we will terminate services, leave the equipment at the home for 60 days to see if another tenant moving in could use general consumer internet services. However, if the district has another student enter that household, we will mirror the previous student's setup.

In the event we cannot retrieve our router, POE device, and radio/dish from the roof, there is a \$400 non-returned equipment charge. This is rare. We have had unstable customers where we deemed it unsafe for our personnel to access the premise. These are typically the only cases where we have returned equipment reparations. This is not a hard stance for this proposal.

- iii. Should a student leave a school district, describe a school district's ability to terminate an individual household before the end of a school year.

Upon notice from the district, Nextlink will suspend services until another need at the household (one renter moves out, another moves in) or after a period of not longer than 60 days. At that point, the equipment will be removed from the household via dispatch ticket to remove.

- iv. Describe Offeror's content filtering capabilities. How do these capabilities align with the Children's Internet Protection Act?

As described in the summary for section 'i' above, the pricing included in this proposal includes Nextlink's cloud CIPA content filtering and firewall. The option to only register the student's device to the router is a possibility where only that student's device in the home can access the district's curriculum and approved sites while utilizing the connection. "Uncle Bob" cannot connect his device and go to unseemly sites or access the districts services. These capabilities align with the Children's Internet Protection Act in that they are blocking and/or filtering internet access to obscene content, child pornography, and content deemed to be harmful to minors.

- v. Describe Offeror's coverage across Texas. Include known dead zones without service and any known plans to bring service to dead zone areas.

Nextlink coverage area in the state of Texas is expanding rapidly. There will be additional coverage area besides what is indicated on this map by the award date. If awarded this RFP, Nextlink can provide Region 4 ESC with an updated KMZ for Google Earth. This proposal is based on the orange locations converting to in-service green by July 1, 2021. The 3,118 campuses and 317,131 unconnected students priced in our proposal falls within this coverage area.

- vi. Describe Offeror's ability to provide multi-lingual support to households.

Nextlink has bilingual staff who can assist with customers whose first language is Spanish. Our call centers are based in the United States. Therefore, phones are answered in English with the option of transferring to a bilingual staff member.

- vii. Is pricing available for all products and services?

Yes, pricing is available for all products and services. The rate plans indicated are all-inclusive of labor installation, de-installation, and equipment required to connect the student's device to our DEMARC DIA. An optional managed router for \$7.99 is denoted but not required as we will place a standard router without home WiFi in the home for direct Ethernet connection.

- viii. Describe any shipping charges.

No additional shipping charges will be assessed.

- ix. Provide pricing for warranties on all products and services.

All our products and services will be under warranty as long as these services are provided by Nextlink. The pricing for these warranties is included in our Products and Pricing information.

- x. Describe any return and restocking fees.

Nextlink does not assess an additional return or restocking fee as long as contract obligations are met.

- xi. Describe any additional discounts or rebates available. Additional discounts or rebates may be offered for large quantity orders, single ship to location, growth, annual spend, guaranteed quantity, etc.

All exceptions to our standard installation or equipment charges are explained in sections 'l' through 'x.'

- xii. Describe payment methods offered.

Nextlink accepts auto-pay utilizing either a credit card or e-check. For commercial, business, and education accounts, we invoice our customers, who typically pay by either a check or electronically.

- xiii. Propose the frequency of updates to the Offeror's pricing structure. Describe any proposed indices to guide price adjustments. If offering a catalog contract with discounts by category, while changes in individual pricing may change, the category discounts should not change over the term of the Contract.

No changes will occur over each 12-month renewal period.

- xiv. Describe how future product introductions will be priced and align with Contract pricing proposed.

Nextlink is proactive in upgrading infrastructure equipment to provide the best quality of service to our customers. In doing so, this process sometimes requires Nextlink to upgrade endpoint equipment. If this process occurs, there will be no additional cost assessed to the customer. If any equipment fails, Nextlink replaces this equipment at no cost to the customer.

- xv. Provide any additional information relevant to this section.

There is no additional information at this time.

**b) Performance Capability**

- i. Include a detailed response to Appendix D, Exhibit A, OMNIA Partners Response for Cooperative Contract. Responses should highlight experience and describe how volume will be tracked and reported to OMNIA Partners.

The increased need for internet connectivity in Texas in response to the COVID-19 pandemic or overall students' families who simply do not have access or affordable options available. This proposed project will improve connectivity to unserved and underserved areas of Texas to, in particular, unconnected students and address the needs of distance learning and other remote business services through this TEA and E-Rate program.

Students are at serious risk of falling behind because of the cruel collision of COVID-19 and insufficient internet coverage in rural areas of the state. Today, there are students using free WiFi in a McDonald's parking lot to upload their homework, and others are unable to participate in remote learning sessions because of a poor home internet connection.

"Connect & Advance Texas" is a Nextlink Internet effort where we are currently contacting ISDs and informing them that we are an approved FCC approved Emergency Broadband Benefit Provider, bringing awareness to this program to assist them with the homework gap now. Nextlink is offering the \$50 off monthly service plans plus a \$50 connected device to households who qualify. As additional E-Rate funding is released, Nextlink is excited to offer connectivity to even more households who do not presently have access to or have sufficient bandwidth for remote learning.

This response has been created specifically to deliver a comprehensive broadband package that addresses access, adoption, and application in over 3,000 campus locations across our Texas coverage as of July 1, 2021.

Nextlink is set up to report in numerous fashions where we are already providing extensive reporting to USAC for ISD E-Rate C1 and C2 services along with Emergency Broadband Benefit Program reporting, Lifeline reporting, Connect America Fund reporting, along with HUBB activation reports, speed tests reporting. Overall internal revenue recurring services by account is available to customize in any way that Omnia Partners would like to receive the data.

- ii. The successful Offeror will be required to sign Appendix D, Exhibit B, OMNIA Partners Administration Agreement prior to Contract award. Offerors should have any reviews required to sign the document prior to submitting a response. Offeror's response should include any proposed exceptions to OMNIA Partners Administration Agreement on Appendix B, Terms and Conditions Acceptance Form.

Included.

- iii. Include completed Appendix D, Exhibits F. Federal Funds Certifications.

Included.

- iv. Describe the Offeror's understanding of the Scope of Work and the TEA Connect Texas Program requirements. Detail how the Offeror proposes to meet each of the requirements.

#### **Access**

School facilities are strategically located to most effectively serve their community. In some cases, those same locations can serve as an optimal broadcast point for higher speeds of internet spectrum than previously available. Combined with supplemental infrastructure, either co-located or constructed, the advantages of fixed wireless technology can serve immediate and long-term bandwidth needs. Nextlink has already constructed or will construct, or may approach local anchor tenants within a district's community in order to extend our 100Mbps services to the students in need per community. All campus locations within this proposal are already slated for service by July 1, 2021.

#### **Adoption**

Internet access alone is often not enough to close the digital divide or entirely meet the promise of broadband. In addition to the acceleration of broadband infrastructure projects, the "Connect & Advance Texas" proposal will meet every media channel suggested for spreading the word, including digital, print, direct mail, sponsored events, etc. We also have our commercial sales team who continues to build relationships in every community we serve. We will be working with local municipality leadership, economic development corporations, chambers of commerce, and all local builders to continue to expand either our Fixed Wireless coverage or potentially uncover areas where Fiber to the home (FTTH) is economically feasible.

### **Application**

As part of the “Connect & Advance Texas,” we have partners like Microsoft who can provide additional technology packages of devices, software, and training programs to help bridge the gap and assure the greatest overall impact this grant program has set out to achieve. We will be rolling out Microsoft-sponsored training and education events hosted as “virtual learning” for those that need to be proficient with online services and overall computing devices. We can share more of these programs delivered directly through Nextlink and other local community clubs such as 4-H and FFA. This could include access and information to any combinations of Microsoft computers and software like Teams, OneDrive, SharePoint, Class Notebook, Flipgrid, and more.

### **Summary**

This process started by targeting districts/counties that have been notably impacted (Johns Hopkins University COVID data available). Next, enlisting those school districts that have a demonstrated need in which a comprehensive broadband solution could be of true value. Students in these homes face several challenges including the lack of devices coupled with the lack of connectivity, and those with Internet experience bandwidth challenges and struggle with affordability. Quality broadband is a foundational component for success with the district’s remote learning objectives, and it is a challenge they continually seek innovative solutions to resolve.

Any community household or commercial entity that is within the coverage area will be able to subscribe to the high-speed internet this network will provide, whether that be a middle school student, a senior citizen seeking telehealth services, a college student completing their own remote curriculum, or an individual required to work from home. This program will specifically target the unconnected students in those communities while our greater network can assist in many other ways for business, telehealth, and other needs of the community at large.

The State of Texas and the TEA understand that increasing Texan student access to high-quality broadband is one of the most important economic development issues of our time – cutting across core education, healthcare, and business sectors. A rising tide that lifts all boats, Nextlink and any partners represented in the “Connect & Advance Texas” application stand ready to work with the TEA to meet this most important challenge we face.

v. Describe Offeror's broadband data performance standards.

Nextlink utilizes a variety of technologies and network architectures for the delivery of voice and high-speed internet services to customers in rural communities. The service is delivered through both fiber and wireless technologies which are interconnected into multiple data centers across multiple states to provide customers with an exceptionally reliable and resilient customer experience. The technologies and architectures used within each of the transport segments of the networks are further elaborated below. Nextlink has engineered its network to be extremely dynamic, including an aggregation data center in every state (including two in Texas) and multiple 100G Transport connections in both Layer 1 and Layer 2 connecting them all. Nextlink is also positioned to convert these aggregation data centers to become transit and peering exchange locations as needed when demand grows. Currently Nextlink operates three (3) transit data centers and three (3) aggregation data centers across its footprint. Nextlink is directly peered or connected with the top content providers in the nation such as Microsoft, Google, Netflix, Hulu, and many more.

Below are the core capabilities of the network technologies utilized by Nextlink that will enable achievement of performance, latency and MOS requirements:

- Excess Capacity – Nextlink designs its network to rapidly add additional capacity when reasonable load requirements are exceeded.
- Scalability – Nextlink builds a network with scalability in mind in all elements including last mile and middle mile such that unanticipated subscriber demands or subscriber counts can be quickly addressed. The unprecedented material surge in traffic in the spring of 2020 resulting from the Covid pandemic caused a substantially higher demand from the Nextlink subscriber base for work-at-home and home-schooling applications. Nextlink was easily able to identify hot spots in the overall network at both the last mile and middle mile and upgrade those areas almost immediately to provide increased capacity.
- Carrier Grade – Nextlink is utilizing carrier grade equipment throughout its network – from the data center to the tower and to the subscriber – capable of handling large traffic loads with dynamically efficient routing pathways.
- Data Center Peering – Nextlink utilizes a variety of peering tools and connections in its data centers to mitigate sub-optimal traffic routing to enhance Internet connectivity.

- Distance from Fiber Transport Sites – While Nextlink provides wireless service across a large area of rural countryside, we typically keep the vast majority of tower sites within two to three licensed microwave connections from a fiber transport site. Additionally, Nextlink’s network is interconnected with fiber redundancy built into its design with the use of different fiber transport systems as outlined above.
  - Redundancy – Throughout the Nextlink network, redundancy in middle mile/backhaul and data center network connectivity allows for backup protection for those situations where equipment fails or fiber is cut in the field with no impact to service or degradation in quality.
  - Traffic Management – Nextlink utilizes a variety of traffic management and monitoring platforms which utilize both automated and manual guidance of network traffic flows as well as quality of service prioritization to ensure voice packets retain priority—all professionally managed through its Network Operations Center running 24/7/365.
- vi. Describe each service’s network reliability. Include disaster recovery plans and business continuity plans.

In conjunction with the physical plant Nextlink operates, it also incorporates multiple NNI’s with facilities-based transport providers to interconnect towers and markets to the colocation facilities. These interconnections are supported with Layer 2 circuits that provide the “backbone” needed to maintain low latency, resilient connections throughout the WAN.

Nextlink maintains NNI’s with national telecommunication carriers such as AT&T, Zayo, Century Link, Windstream, Mediacom, Cable One, and more regional operators such as Fiber Light, Dobson, and Great Plains Internet giving Nextlink various options to expand across the US.

Within multiple data centers, Nextlink maintains multiple 100Gbps connections with Tier 1 IP transit providers such as Zayo, Cogent, and Hurricane Electric. These IP transit providers peer with full BGP routes to promote maximum uptime for Nextlink’s customers. This also includes a dedicated peering connection to the voice services provider. Nextlink aggregates voice traffic and routes these data packets through redundant hardware devices to the upstream carriers. Multiple product sets for the various market segments Nextlink supports – residential, enterprise, government, and SLED – are maintained by this architecture.

These physical and logical components make up the framework of Nextlink’s product set. At a high level, Nextlink’s architecture consists of multiple core routers. WAN transport elements are comprised of multiple fiber rings and Layer 2 circuits and interconnect to the core routing infrastructure. This transport network allows

Nextlink to operate routing protocols from the core routers to fiber-based transport POPs located throughout the Nextlink service footprint.

### **Core**

Each core site has redundant core routers provided by the Nokia 7750 routing platform (<https://www.nokia.com/networks/products/7750-service-router/>) as well as redundant DPI and QoE devices provided by Sandvine iQ42300 platform. If any one of those components fail, the ISIS, OSPF and BGP protocols deployed in those devices will automatically reroute traffic around any faults to the redundant device or redundant data center.

### **Aggregation Site**

In addition to what the aggregation data center can provide, at each aggregation site, there is a power control system capable of keeping the site online for 8 hours or more with backup power in the event of a power failure. This power control system will also notify the Network Operations Center of the outage and technicians will be dispatched with a generator immediately as per policy. If Nextlink finds the need to expand the bandwidth between two sites beyond the 200G already designed, Nextlink can add additional routers and use DWDM filters to add additional channels to the existing dark fiber pair.

[https://onestore.nokia.com/asset/206825?\\_ga=2.39804515.1966687366.1609966020-1541501953.1609966020](https://onestore.nokia.com/asset/206825?_ga=2.39804515.1966687366.1609966020-1541501953.1609966020)

### **Pre-aggregation**

At the tower level, each site has at least two connections to other towers for redundancy. In addition to 8 hours of backup power, Nextlink has a strict 4-hour SLA in the event of a complete site outage. When the microwave backhaul links trend toward benchmark capacity limits, Nextlink will add additional parallel links between the sites in either new channels or using cross-polarization interference cancelling technology (XPIC).

### **Fixed Wireless Access**

In the fixed wireless access network tower sites host wireless access points. The 802.11 wireless access points are powered from the access switch. The wireless access switch is powered from the power control systems which will afford them 8 hours of uptime for the switch itself and wireless access points. In the event of the loss of communication or degeneration of service, with the wireless access point, the NOC will receive a notification and they will proceed to move the subscribers affected to other access points. Before an access point hits its capacity limit, Nextlink can address the issue in a multitude of ways including, but not limited to, adding additional access points in the same direction, adding access points

using different spectrum assets, as well as adding smaller towers in the area to offload the oversubscribed tower.

### **Fixed LTE Access**

In the LTE wireless access network tower sites host Remote Radio Heads (RRH) Connected to Base Band Units (BBU) constituting an eNodeB via SMF. The current configuration runs GPP standard LTE Advanced. The RRH's and BBU are powered from the power control systems which will afford them 8 hours of uptime. In the event of the loss of communication or degeneration of service, with the RRH and/or BBU, the NOC will receive a notification and they will proceed to move the subscribers affected to other RRH. Before an RRH hits its capacity limit, Nextlink can address the issue in a multitude of ways including but not limited to, adding additional RRH's in the same direction, adding RRH using different spectrum assets, upgrading the BBU to GPP 5G, as well as adding smaller towers in the area to offload the oversubscribed tower.

### **Fiber Access**

In the fiber access network each headend hosts an Optical Line Terminal (OLT). The OLT supports multiple Passive Optical Network (PON) and Active Optical Network (AON) standards. The OLT chassis has for Line Terminal (LT) card slots. The LT cards support multiple fiber access protocols. The PON LT cards supports GPON, XGS-PON, and in the 25GPON. Nextlink does not have plans currently to run 25GPON. In the passive optical network, we use central split, cascaded split, and distributed tap architectures. The AON LT card supports, 1000BASE-LR, 1000BASE-ER, 1000BASE-ZR, 10GBASE-LR, 10GBASE-ER, 10GBASE-ZR, optics for our Active Ethernet point-to-point customers. The OLT has two Network Terminal (NT) cards configured in Active/Active redundancy. The OLT has redundant power connections to the power control system. In the case of loss of communication or degradation in communication with Optical Network Terminal (ONT) and the Subscriber's location, the NOC is notified. The NOC will resolve any network issues or dispatch the appropriate field personnel to address any issues. Before a PON port or AON hits its capacity, Nextlink can address the issue in multitude of ways. In the PON network, Nextlink can add a higher capacity PON Protocol to the combiner element or change to a Multi-PON Optic. On the AON, Nextlink will upgrade the optics, as necessary. There are currently 100GBASE ZR optics in the market. Nextlink will upgrade the OLT chassis, LT cards, and NT cards as necessary to meet the growth in demand and performance now and into the future.

### **Fixed Wireless Subscriber**

The Subscriber receives Internet and voice access to the Nextlink network through a Subscriber Module (SM) mounted on their premises. Each Nextlink Fixed Wireless Subscriber receives a SM, UPS, and router. The UPS is sized to provide two hours of backup time to the router and SM. Subscribers can elect to add VoIP services to their existing 4-wire hardware via an ATA (analog telephone adapter). The ATA's power is

backed up using the same battery backup system. Nextlink offers a 24-hour battery back-up solution.

**Fixed LTE Subscriber**

The Subscriber receives Internet and voice access to the Nextlink network through User Equipment (UE) radio mounted on their premises. Each Nextlink Fixed Wireless Subscriber receives a UE, UPS, and router. The UPS is sized to provide two hours of backup time to the router and SM. Subscribers can elect to add VoIP services to their existing 4 wire hardware via an ATA (analog telephone adapter.) The ATA's power is backed up using the same battery backup system. Nextlink offers a 24-hour battery back-up solution.

**Fiber Subscriber**

The Subscriber gets Internet and voice access to the Nextlink network through a fiber ONT. Each Nextlink installation will include a ONT, UPS, and router. The UPS is sized to provide two hours of backup time to the router and ONT. Subscribers can also have VoIP services with their existing 4-wire hardware via an ATA (analog telephone adapter) device. The ATA's power is backed up using the same battery backup system. Nextlink offers a 24-hour battery back-up solution.

- vii. Describe the security policies, measures and any certifications or standards the Offeror has in place to protect privacy and ensure security of information and data transmitted through the Offerors services and products. Include how Offeror ensures data encryption and protect data. Include a description of how the Offeror protects against outside threats and, if compromised, how the Offeror responds to security breaches.

Nextlink database and information systems are beyond multiple firewall and VPN connections with multi-factor authentication. Information storage is located in private intranet systems between various data centers in both hot and cold storage configurations. Additional information on our security and privacy policy can be found here: <https://nextlinkinternet.com/privacy-policy/>

- viii. Describe how planned outages are communicated.

Nextlink will communicate planned outages on our website. Commercial or Direct Internet Access customers can subscribe to a mailing list. Maintenance happens between 2:00 am and 6:00 am CST.

- ix. Describe how Offeror responds to emergency requests and orders.

Nextlink will respond to emergency requests with law enforcement or government entities in response to subpoenas, court orders, or other regulatory or legal process (including civil and criminal) or as otherwise required by law; in order to investigate, prevent, or take enforcement action regarding illegal activities, suspected fraud, and situations involving potential threats or harm to any person (including Subscribers), the NEXTLINK INTERNET Network, Site, or other Company assets, or in cases where we believe our Master Service Agreement has been/is being violated.

- x. What is Offeror's average on time installation rate? Describe Offeror's history of meeting the installation, shipping, and delivery timelines.

Nextlink's standard installations have an average time of two hours. Our current track record is 93% for on-time installs, and we are continually seeing an improvement in this percentage as personnel are added to cover for unexpected incidents such as a sick employee. If an installation is out of the ordinary and requires additional equipment, the salesperson communicates that information to the subscriber at the time of scheduling and then the Installation Technicians are careful to stock all necessary equipment on board their vehicles before leaving the warehouse. Nextlink has a Dispatch Department which proactively schedules installations and arranges appointments efficiently.

- xi. Describe Offeror's product return and restocking policy.

Nextlink does not assess an additional return or restocking fee as long as contract obligations are met.

- xii. Describe Offeror's customer service/problem resolution process. Include hours of operation, number of services, etc.

Customers can report service issues via phone, email, chat, social media, or web submission to our Customer Care Center. Support issues are processed by our Tier 1 Technical Support team. Tickets are created for each incident, contact, or issue to document and classify the nature of the complaint or interaction. The Support Agent will work directly with the customer to complete basic troubleshooting steps in accordance with the issue being reported. If the Support Agent is unable to resolve the issue during that interactions, the ticket will be escalated to our Tier 2 Senior Technical Support team for advanced troubleshooting. Senior Support Agents will consult with the Networking team as needed to fully resolve the issue. The Senior Support Agent will keep in contact with the customer to provide updates and confirm

resolution. Once resolution has been confirmed with the end-user, the ticket will be closed.

Our Network Operations Center is open 24/7 monitoring tower outages. The Technical Support Department is available Monday – Friday, 7 am to 11 pm; Saturday, 7 am to 10 pm; and Sunday, 7 am to 10 pm. We support internet and VoIP services.

- xiii. Describe Offeror’s invoicing process. Include payment terms and acceptable methods of payments. Offerors shall describe any associated fees pertaining to credit cards/p-cards.

First invoice posts on the date of installation. Install fee and the first month of service is due upon receipt. Services are billed in advance, for example, if the invoice posts on Jan 1, the invoice is for service dates 01/01-01/31. All residential invoices are due upon receipt. Autopay is a requirement for residential account and payment is to be automatically drafted the same day the invoice posts. We accept Visa, Mastercard, Discover and E-Checks. No fees for payment processing are assessed. After 7 days of non-payment, a \$5 late fee is assessed. After 30 days of non-payment, services are suspended. Customers can call or use our online portal to process/update payment methods when needed.

- xiv. Describe Offeror’s contract implementation/customer transition plan.

If a student’s family is a current customer of Nextlink, and they have already met their service commitment, we will do a contract assignment change internally under their Master Agreement. This is our standard operating procedure, and this change will not create any disruption in servicing, supporting, or billing.

- xv. Describe the financial condition of Offeror.

We are financially sound and have generated a net profit annually for the past three years, as indicated by the financial statements provided in this RFP. We are not in red-light status with our SPIN (Service Provider Identification Number).

- xvi. Provide a website link in order to review website ease of use, availability, and capabilities related to ordering, returns and reporting. Describe the website’s capabilities and functionality.

[www.nextlinkinternet.com](http://www.nextlinkinternet.com)

Our website's content is continuously updated for both our current and prospective customers. Nextlink's subscribers are able to initiate communication by email, chat, or phone with our Sales, Support, and Billing Departments using information on our website. Prospective Nextlink customers can go to our website and just by entering their address, they can check to see if they are within our coverage area. Since our residential service is dependent on line of sight and signal loss can occur between large buildings, trees, etc., connectivity is determined at time of installation. If we are not able to meet the company specifications deemed outstanding service, the install is not completed. Our website offers the feature to "sign up" for services or a new customer can call in to schedule an installation time. Lastly, our website allows existing customers to enter in the information to increase their bandwidth speed without requiring a phone call.

Our website can also be utilized to promote the offerings from this RFP.

xvii. Provide any additional information relevant to this section.

None at this time.

Supplier Response  
Exhibit A

**3.1 Company**

- A. Brief history and description of Supplier to include experience providing similar products and services.

Nextlink is an internet service provider delivering high-speed internet and voice services throughout Texas, Oklahoma, Kansas, Nebraska, Iowa, and Illinois to residential, business, K-12 schools, libraries, rural healthcare, higher learning, and governmental agencies. We use fixed wireless and fiber optic technology to deliver voice and data services to the under-served enterprise, commercial, residential, and public and private school markets within the states we serve.

Since initiating operations in the fall of 2012 in Weatherford, Texas, Nextlink Internet has experienced radical, organic growth, resulting in a physical move of our corporate offices to Hudson Oaks, Texas, and adding numerous remote offices throughout the six states we serve. Currently, Nextlink ranks as the sixth largest fixed wireless provider in the United States. Our customer base consists of over 75,000 residential and commercial customers, and over 80 independent school districts and public libraries.

Through integrity, accountability, passion, and a focus on success, Nextlink is a company that honors commitments, provides solutions, and strives for the highest quality of customer satisfaction. Nextlink's competitive differentiation, within both wireline and wireless, in the rural and semi-rural markets in which it serves is relatively simple: offer higher speed plans, better quality of service, and an intense focus on the customer service experience. This is evident by our 4.9 star Google review from 8,123 responses.

Key reasons for Nextlink's growth include its investment in its network and continued focus on maintaining its customer-to-access-point ratio. We employ a Network Operations staff 24/7 that constantly monitors tower utilization to prevent oversaturation. In addition, Nextlink has a robust, active tower construction strategy designed to meet the needs of the ever-growing subscriber base. Given the intense demand for our services, we invest heavily in our staff as we grow so that we are never understaffed.

We also utilize mobile solar trailers for temporary power across our network. In addition, we are testing wind power at various tower locations across the Nextlink network.

H. Describe how supplier differentiates itself from its competitors.

Unlike many of our competitors, Nextlink's approach focuses not only on speed but also on the quality of service offered. Nextlink minimizes the number of wireless backhaul connections before its data traffic is transported on its fiber network and maintains the vast majority of its wireless backhaul connections on licensed links that mitigate interference. Our tower network maintains substantial redundancy in both fiber transport (with multiple and varied transport networks across a regional area), while also cross-layering the tower network with redundant wireless backhails to minimize service disruptions in the event of an equipment or fiber outage.

The management team at Nextlink collectively has had extensive WISP and telecom experience prior to Nextlink's founding. Many of our managers have large-scale Fortune 100 experience. Our Education Team is led by a former classroom teacher and administrator (16 years as the Director of Technology for Region 9 ESC), and this team understands the importance of providing all students the same educational opportunities, regardless of geographical location. Our educational team has over 40 years combined experience in education, and they understand that the homework gap can only be closed when all students, even those who are economically disadvantaged, have access to high-speed internet at their homes.

**c) Qualifications and Experience**

- i. Provide a brief history of the Offeror, including year it was established and corporate office location.

Since initiating operations in the fall of 2012 in Weatherford, Texas, Nextlink Internet has experienced radical, organic growth and has become one of the largest wireless internet service providers in the nation. Currently, Nextlink ranks as the 6th largest fixed wireless provider in the United States. We presently have over 75,000 residential and commercial customers and over 80 school districts and libraries. Our Call Center response time is now at over 80% of the calls being answered within 45 seconds. Nextlink conducts Giving Back Campaigns eight times a year in which we support non-profits in the communities we serve. You can see just some of our involvement at <https://nextlinkinternet.com/community/>.

Our corporate office is located at 95 Parker Oaks Lane in Hudson Oaks, Texas.

- ii. Describe Offeror's reputation in the marketplace.

We pride ourselves in our 4.9 star Google review rating with over 8,100 reviews. School districts continue to sign new contracts for service with Nextlink, and existing schools renew their service with us. Understanding that these districts have multiple bids submitted when their E-Rate 470 is posted, their choice of Nextlink as their provider indicates satisfaction with the service and customer support they are receiving. Each school district and commercial account is assigned their own account manager for individualized service, giving them a direct line for support.

- iii. Describe Offeror's reputation of products and services in the marketplace.

Nextlink does not place bottom dollar profits over customer satisfaction, so therefore, we purchase and provide high quality equipment (i.e., Cambium, Ubiquiti, etc.) at both the customer site and in our infrastructure. Nextlink offers a diverse array of service packages appropriate and useful for residential, business, commercial, and school district customers. Nextlink devotes all efforts toward providing outstanding internet and phone service instead of spreading resources thin by providing extraneous products and services. On staff at Nextlink are Quality Control Specialists. Several of these staff members devote their time listening to incoming calls to make certain the interaction between our customer and Nextlink is always the highest quality. Because of extensive training and several weeks of mentoring before an installation technician is certified to perform installs independently, surveys consistently indicate that our reputation is honest, reliable, and knowledgeable. To

maintain our outstanding reputation, our Installation Department has also implemented policies and procedures for field personnel to execute with quality, safety, and efficiency. This department also conducts field visits with the Field Managers and RDOs for quality assurance, and all procedures have been standardized in our daily operations. This has helped us become more standard across all departments that look to us for questions or concerns. We have plans to implement QSE to the infrastructure side of things by the end of this year.

- iv. Describe the experience and qualification of key employees.

We offer our school districts the choice of SPI (Service Provider Invoice) or BEAR (Billed Entity Applicant Reimbursement) on their monthly invoice. All school districts and libraries are given our Director of Education Initiatives' direct cell number so that questions and/or concerns are addressed in a timely manner. **d) Value Add**

- i. Provide any additional information related to products and services Offeror proposes to enhance and add value to the Contract.

Key reasons for Nextlink's growth include its investment in its network and continued focus on maintaining its customer-to-access-point ratio. Unlike other internet providers who disregard bandwidth saturation and customer satisfaction for net profit results, Nextlink's Engineering Department continually monitors our bandwidth capacity. When an access point reaches 70% capacity, the engineers immediately work with our Infrastructure Department to deploy additional access points so that the end user receives full bandwidth capacity.

Nextlink's Call Center staffing is based on documented call logs which cue management to add additional staff members. As a result, our customers' wait time when calling for support is significantly decreased. Our goal is to reach a 45 second wait time for anyone calling in for support, questions on billing, or any customer service issues. During March 2021, we successfully reached the wait time of less than 45 seconds on over 80% of our calls. This percentage is increasing as staff members are added on a continual basis. It is important to Nextlink to provide not only best in class service, but also outstanding customer support.

In addition, Nextlink employs a Network Operations staff 24/7 that proactively monitors tower utilization and functionality. If a problem should arise, on-call infrastructure staff members are deployed immediately. These staff members have all the equipment necessary to replace malfunctioning parts to meet the SLAs (Service Level Agreements).

*Figure 1 February 2021*

In addition, Nextlink has numerous generators which are immediately deployed when a tower loses electricity (i.e., the recent ice storm in Texas, Figure 1). While other providers lost internet

functionality for an extended period of time, Nextlink's towers were providing service well ahead of our competitors.

As indicated in this RFP, Nextlink has offices geographically spread throughout the six states we serve. Presently, in Texas we have 13 offices and warehouses. This provides us the opportunity to serve customers in the communities where we live and gives us a faster response time.

Finally, Nextlink does not cap bandwidth usage. This value-added service is imperative as we help as the flipped classroom.

## PART V – GENERAL

### 22. LIMITS ON TRANSFERS & ASSIGNMENTS; OTHER LIMITS

Unless otherwise agreed to by NEXTLINK INTERNET in writing, Subscriber's rights to use the Services, or to designate other users of Subscriber's account, may not be assigned or transferred and are subject to any limits established by NEXTLINK INTERNET, or by Subscriber's credit card company or other billing institution, as applicable. Attempts by Subscriber to assign or transfer these rights without written approval of NEXTLINK INTERNET will constitute a violation of this Service Agreement and the Company may de-activate Subscriber's account.

### 23. CHOICE OF LAW AND VENUE

This Service Agreement is made in the State of Texas. This Service Agreement and all of the Parties respective rights and duties in connection herewith, including, without limitation, claims for violation of this Service Agreement, state consumer protection laws, unfair competition laws and any claims in tort, shall be governed by and construed in accordance with the laws of the State of Texas, United States, notwithstanding any conflict of laws. You understand, acknowledge and agree that you are subject to the personal jurisdiction of state and federal courts in Parker County, Texas.

### 24. MODIFICATION, WAIVER AND DISCRETIONARY ENFORCEMENT

Neither the course of conduct between the Parties nor trade practices shall act to modify the provisions of this Service Agreement. NEXTLINK INTERNET may enforce or decline to enforce any or all of the terms of this Service Agreement in its sole discretion. Subscriber understands, acknowledges and agrees that NEXTLINK INTERNET's failure to exercise or enforce any right or provision of this Service Agreement shall not constitute a waiver of such right or provision. In no event shall NEXTLINK INTERNET be required to explain, comment on, suffer liability for or forfeit any right or discretion based on the enforcement, non-enforcement or consistency of enforcement of such terms.

## 25. MISCELLANEOUS

**25.1. SEVERANCE** – If any term of this Service Agreement is found by a court of competent jurisdiction to be invalid, illegal or unenforceable, it shall be construed in such a way as to render such term enforceable while still giving as much effect as possible to the original intentions of such term. If this cannot be done, and the entire term is held to be invalid, illegal or unenforceable, and cannot be so repaired, then the term shall be considered to be stricken from this Service Agreement as if it had not been included from the beginning. In any such case, the balance of this Service Agreement shall remain in effect in accordance with its remaining terms, notwithstanding such invalid, illegal or unenforceable term. Nothing contained in this Service Agreement shall be construed to limit NEXTLINK INTERNET's rights and remedies available at law or in equity.

**25.2. CAPTIONS/HEADINGS** – Captions or headings used in this document are for convenience only and shall not be considered a part of this Service Agreement or be used to construe its terms or meaning.

**25.3. CONTINUATION** – The provisions of any Sections of this Service Agreement which by their nature should continue shall survive any termination or expiration of this Service Agreement. Overall, Sections 1 – 5, 7 – 25, 27, 30 – 31 shall also survive any termination or expiration.

## 26. RENEWAL

Unless designated otherwise in the COS or SLA, this Service Agreement shall automatically renew for successive one (1) year terms unless at least ninety (90) days prior to the end of the current one (1) year term, either Party gives written notice to the other Party of their intent to terminate the Service Agreement. No Early Termination Fees shall apply in any such successive term of this Service Agreement.

## 27. NOTICE

All notices required of Subscriber pursuant to this Service Agreement shall be sent via email to [billing@team.nxlink.com](mailto:billing@team.nxlink.com). Except as otherwise specified herein, all notices required of NEXTLINK INTERNET pursuant to this Service Agreement shall be sent via email to the Subscriber, using the email address that Subscriber has most recently provided to the Company for such purposes.

## 28. 911 SERVICE AND ALARM SYSTEM NOTICE

**28.1.** NEXTLINK INTERNET voice service includes 911/E911 (“911”) access to emergency services. The Company provides this access pursuant to the FCC’s rules. 47 C.F.R. § 9.5. See <https://www.fcc.gov/consumers/guides/voip-and-911-service> for additional information.

VoIP service does not support traditional 911 access to emergency services. In particular, it is essential that the physical location (street address) of the caller (the “Registered Location”) be registered with the Company to ensure correct routing of emergency calls. Therefore, it is extremely important that Subscriber provide NEXTLINK INTERNET with the correct address where the equipment and the NEXTLINK INTERNET Service is or will be located. Subscribers are only permitted to use the NEXTLINK INTERNET Service, including VoIP voice service, at the address associated with the Subscriber’s account. Subscriber must also promptly update this address if it changes and may do so in any of the following ways: Call Subscriber Service at 682-333-0747 or toll-free at 855-NXT-LINK (698-5465) or Log into the NEXTLINK INTERNET Subscriber Portal and make the change.

**28.2.** Your call will be routed directly to the nearest public-safety operator. Even with a correctly registered service address, however, some emergency agencies may not be able to automatically determine the location of the 911 call and Subscriber understands that in such circumstances, Subscriber, or any other caller, may need to provide the physical location of the emergency.

**28.3.** NEXTLINK INTERNET VoIP Services recommends an uninterruptible power supply (“UPS”) intended to provide up to eight (8) hours backup power in the event of power outages. In the event that Subscriber’s Internet service experiences an outage as a result of a power outage beyond the coverage of the UPS or for some other reason, Subscriber will be unable to make 911 calls using NEXTLINK INTERNET’s VoIP service. In such event, Subscriber is encouraged to use a cellular phone to call 911. Subscriber should also notify any employees or guests regarding these potential limitations. A Service suspension or termination (regardless of the reason) will prevent Subscriber or any other party from using the NEXTLINK INTERNET Service, including the ability to make 911 calls.

**28.4.** Subscribers who have an alarm system connected to NEXTLINK INTERNET’s VoIP service may also experience outages if the Internet connection or power is down. As such, NEXTLINK INTERNET encourages Subscribers to use a cellular phone based alarm system or keep a single POTS line (also called wireline, copper / analog lines) in place for those services.

**28.5.** As required by the FCC, the Company notifies You, the Subscriber, that 911/E911 service may not be available through Your NEXTLINK INTERNET VoIP service or may have less availability than traditional E911 services in circumstances including, but not limited to (i) relocation of Subscriber's VoIP equipment, (ii) use of a non-native telephone number; (iii) a broadband connection failure; (iv) loss of electrical power and delays in the registration (or update) of your service address in the emergency services databases. If E911 service is available, Subscribers will pay a one dollar and fifty cent (\$1.50 U.S.) charge per month.

**28.6.** NEXTLINK INTERNET provides You with this information when service is initiated and provides warning stickers or equivalent labels for placement in Subscriber's location to alert individuals regarding the potential limitations of access to emergency services. In the event that Subscriber requires additional labels for use in Subscriber's location, please contact the Company.

## 29. FORCE MAJEURE

If the performance of this Service Agreement or any obligations hereunder is prevented, restricted or interfered with by reason of earthquake, fire, flood or other casualty or due to strikes, riot, storms, explosions, acts of God, war, terrorism or a similar occurrence or condition beyond the reasonable control of either or both Parties, the Party so affected shall, upon giving prompt notice to the other Party, be excused from such performance during such prevention, restriction or interference, and any failure or delay of performance reasonably deemed to result therefrom shall not be considered a breach of this Service Agreement.

## 30. ARBITRATION

**30.1.** NEXTLINK INTERNET and Subscriber agree to arbitrate all disputes and claims related to the NEXTLINK INTERNET Service between them. This agreement to arbitrate is intended to be broadly interpreted. It includes, but is not limited to: (1) claims arising out of or relating to any aspect of the relationship between the Parties, whether based in contract, tort, statute, fraud, misrepresentation or other legal theory; (2) claims that arose before this or any prior Service Agreement (including but not limited to, claims relating to advertising); (3) claims that are currently the subject of purported class action litigation in which You are not a member of a certified class; and (4) claims that may arise after the termination of this Service Agreement.

**30.2.** This arbitration agreement does not preclude You from bringing issues to the attention of federal, state or local agencies, including, for example, the FCC or state regulatory commission. Such agencies can, if the law allows, seek relief against us on Your behalf. **You understand, acknowledge and agree that, by entering into this Agreement, You and NEXTLINK INTERNET are each waiving the right to a trial by jury or to participate in a class action.** This Service Agreement evidences a transaction in interstate commerce, and thus the

Federal Arbitration Act governs the interpretation and enforcement of this provision. This arbitration provision shall survive termination of this Service Agreement.

**30.3.** A Party who intends to seek arbitration must first send notice of the dispute to the other Party. The notice to NEXTLINK INTERNET must be sent via email to [billing@team.nxlink.com](mailto:billing@team.nxlink.com). Notices to the Subscriber will be sent via certified mail to the last mailing address on file. The notice must (a) describe the nature and basis of the claim or dispute; and (b) set forth the specific relief sought (“Demand”). If NEXTLINK INTERNET and Subscriber do not reach an agreement to resolve the claim within thirty (30) days after notice pursuant to this provision is received, Subscriber or NEXTLINK INTERNET may commence an arbitration proceeding. The arbitration will be governed by the Commercial Arbitration Rules and the Supplementary Procedures for Consumer Related Disputes (collectively “AAA Rules”) of the American Arbitration Association (“AAA”), as modified by this Service Agreement. The arbitrator is bound by the terms of this Service Agreement. All issues are for the arbitrator to decide, except that any issue(s) relating to the scope and enforceability of the arbitration are for a court of appropriate jurisdiction to decide. Any arbitration hearings will take place in the county of Subscriber’s billing address. Subscriber is responsible for paying the non-refundable filing fee and the costs of its own attorney. NEXTLINK INTERNET shall be responsible for paying the arbitrator fees and hearing fees. The prevailing Party is entitled to recover their attorneys’ fees if awarded by the arbitrator.

## 31. ENTIRE AGREEMENT

This Service Agreement, including rates, products and services agreed to at time of service or purchase origination and other documents incorporated herein by reference constitutes the entire and only agreement with respect to the subject matter hereof between Subscriber and NEXTLINK INTERNET, applicable also to all users of Subscriber’s account. This Service Agreement supersedes all representations, proposals, inducements, assurances, promises, agreements and other communications with respect to the subject matter hereof, except as expressly set forth in this document. By executing this Service Agreement and the Subscriber’s continued use of the Services, the Parties agree to the terms and conditions of this Service Agreement. This Service Agreement can be amended only in writing with Agreement by both Parties.
