

# **AMP&M, LLC in partnership with E2E Group**

Turn Every Recognition Moment into Business Success

Our Strategic partnership allows us to offer you a variety of technology platforms each designed for a specific purpose. We work with our clients to determine the specific requirements of each project and then match the proper technology to the requirements. This ensures each client has the proper features and functions to efficiently and effectively operate their program and ensure optimal results.

# Platform Overview & Common Features

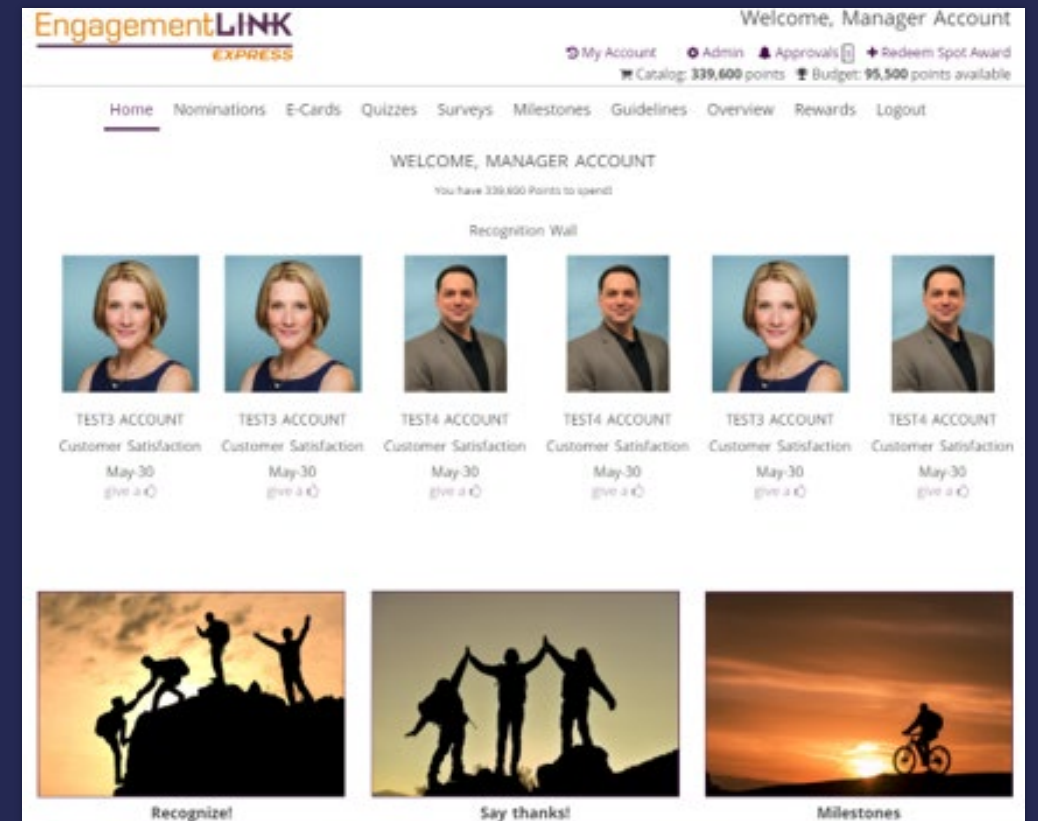

Following is a high-level overview of each platform, it's intended purpose, and target audience.

Common Features for all platforms:

- Are fully mobile enabled for use on any device
- Integrate with a client supplied HR or participant file that is regularly updated to support new hires, terminations, organization changes, etc
- Can be utilized with single sign on or direct login
- Can be integrated with API or external data sources as needed
- Are fully transactional and provide robust reports including tax reporting
- Are billed upon redemption allowing the customer to retain non-redemption and breakage
