

Exclusive TEA Connect Texas Program – Pricing Schedule

AT&T is proud to call Texas our home as our worldwide headquarters is located right here in the Lone Star State.

- Nearly **\$8.2 billion** invested by AT&T in its best-in-class wired and wireless networks in Texas from 2017-2019.
- **100 percent** of population in Texas covered by the AT&T Mobile Broadband network as of Sep. 30, 2020.
- **More than 15.2 million** strand-miles of fiber optics in Texas as of July 31, 2020.
- **Nearly \$1.7 billion** generated in local and state taxes by AT&T operations in Texas in

We are truly eager to step up and work hand-in-hand with Region 4 and the Texas Education Agency in providing broadband internet service to economically disadvantaged students across Texas and help bridge the Digital Divide that so many have experienced.

The pandemic proved that all students need reliable broadband at home. Now more than ever before, connecting students with the resources they need to maintain a sense of normalcy is paramount. For students that means creating the best digital learning environment. Many of these students have lacked access to the connectivity and devices required to learn since the shift to remote learning almost a year ago. Whether students are learning remotely or in the classroom, having access to high-speed internet and devices helps ensure successful learning outcomes and giving these students the chance to reach their full academic potential.

We support the TEA Connect Texas program goal of connecting every affected student in Texas with broadband and will continue to work with you for accessible, affordable, and sustainable broadband connectivity.

Through support from the highest levels within AT&T, across multiple divisions and with executive leadership, we were able to provide a great pricing offer for this program. It makes internet service to students affordable by providing qualifying

economically disadvantaged students with wireline internet service at highly discounted rates that are much less than our lowest consumer offer.

Exclusive TEA Connect Texas Program Offer - Fiber:

3 Year Option-Up to 1 Gig download / Up to 1 Gig upload with CIPA Compliant Content Filtering **for only \$33.32 per month**, or at a lower price, **\$28.55 per month** for this service with a one- time installation charge of \$202. Unlike AT&T, Cable providers do not generally support 1G/1G Dynamic

3 Year Option with 1 Year Subscription-Up to 1 Gig download / Up to 1 Gig upload with CIPA Compliant Content Filtering **for only \$60.59 per month**, with a one- time installation charge of \$240 and a reduced rate of **\$33.32** per month in month 13+. Unlike AT&T, Cable providers do not generally support 1G/1G Dynamic service to homes

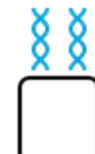

Clarification: AT&T's pricing has not changed. The original offer did not include the 1% administration fee for OMNIA Partners as AT&T did not have a cooperative agreement with OMNIA at that time.

AT&T can provide services in **262** zip code areas across Texas today! We have the most expansive reach of any telecommunications provider across Texas as well as the largest copper infrastructure deployment in the State.

TEA Connect Texas Expanded Offer - Copper:

3 Year Option-For students who live in areas that do not have fiber available at this time, but do have copper access, we can connect them with speeds up to **75Mbps download / 8 Mbps upload for \$37.88 per month or just \$31.99** with a \$202 installation charge

3 Year Option with 1 Year Subscription- copper access with speeds up to **75Mbps download / 8 Mbps upload for \$70.69 per month** with a one-time installation charge of \$242.40 and a reduced rate of **\$37.88** per month in month 13+.

Clarification: AT&T's pricing has not changed. The original offer did not include the 1% administration fee for OMNIA Partners as AT&T did not have a cooperative agreement with OMNIA at that time.

Above Pricing is subject to the following:

* Content Filtering included. Customer may choose to turn it down, but there is no change in price.

* Pricing accounts for student movement capped at 12% annually; any movement beyond that, AT&T reserves the right to charge \$200 for installation cost recovery.

* Pricing contingent upon existing facilities

Internet Now Mobility Offer:

AT&T recognized potential lengthy deployment of these services as a Value-add option. **Regardless of Carrier chosen, AT&T's Internet Now Mobility offer is available for immediate deployment.**

*Our offer provides several options, all include content filtering and unlimited wireless data! Schools can get a Moxee mobile hotspot device at no cost, after credits, when purchased on a 12 or 24-month agreement. There is also a Bring Your Own Device BYOD option. Service option pricing is extremely low, and ranges from **\$11 per month to \$17 per month**, depending upon the plan and period selected. (Pricing details may be found in the Value - Add section of our RFP response.)*

AT&T is helping to provide high quality learning experiences amid today's challenges through products and services that will promote student achievement and we're committed to continue our support for those making a difference to students most at risk. With that in mind we look forward to partnering with both Region 4 and TEA to make a significant impact on the lives of these Texas students and through them the lives of their families.
