

# IT'S OUR JOB TO MAKE YOUR JOB EASIER.

The numbers speak for themselves. Tens of thousands of batteries and lighting products. Myriad solutions for your team's phone and tablet repair needs. Endless key fob programming and replacement options... The days of hunting around to track down parts and replacements are over. We're Batteries Plus, and solutions are our specialty.

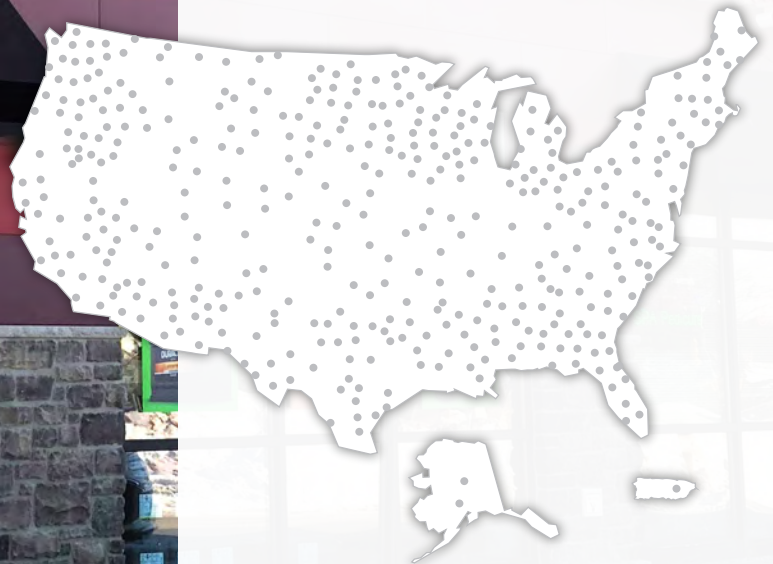

With a free business account, all of your business and industry lighting, power and repair needs are addressed and solved, from the hard-to-find to the everyday. Whether your business is nationwide, or focused solely on your community, you concentrate on running your business; we'll handle the rest.

**Take a look through our catalog and let's talk.**

## WE'RE YOUR LOCAL PARTNER WITH A NATIONAL PRESENCE

What does that mean? Simple. You'll enjoy all of the buying power of a nationally recognized name, but with the personal service of a locally based shop. That's Batteries Plus.

# ACCOUNT BENEFITS

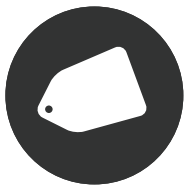

## Quality Products

The items you need at prices you want from a name you trust.

## Local Delivery

We drive to you, and meet you on your time, which means your focus stays on running your business.

## Volume Pricing

Batteries? Bulbs? Services? Doesn't matter. Mix and match to save on what you need to keep your business humming.

## Site Assessments

What can you improve upon? Which changes might save you money? We'll take a look.

## Tailored Services

Every client is different. We'll customize your services based on your needs, from pricing to delivery.

## Phone & Tablet Repair

Repair, don't replace! Screens, ports, buttons & cameras fixed, and we'll change fading batteries, too.

## Recycling

For batteries, bulbs and ballasts, according to EPA Regulations. Go green.

## Online Tools

View your order history, save to favorites and manage your account users. Punchout solutions available.

# POWER MATTERS

Turn it on. Power it up.  
Ready...set...All systems go.

A business partnership with Batteries Plus means that all of your battery needs are covered, orders are promptly filled, and replacements are on hand when you need them. So, less downtime, more hey-team-let's-get-it-done time.

From the everyday to the hard-to-find. From the tiniest coin cell batteries to batteries that power heavy-duty machinery and vehicles.

# SEALED LEAD ACID (SLA)

Security systems. Back-up systems. Emergency lighting. Wheelchairs. Golf carts. All of these - and many more - use sealed lead acid (SLA) batteries, also known as valve regulated lead acid (VRLA) batteries, to power their operation. Here, you'll find the best general purpose, deep cycle, gel and high rate SLA batteries. Check out our selection of top lead-based batteries and battery accessories for the charge and dependability you need to stay powered up, whatever your application.

			<ul style="list-style-type: none"> <li>Ideal for emergency situations</li> <li>Provides fast power delivery for backup applications</li> <li>Long lifespan, needs little maintenance</li> </ul>		

## Charging, Maintenance, and Storage Tips

	Recharge after each use and store battery fully charged.		Do not store in a discharged state. Charge batteries every couple months.		Overcharging kills batteries.		Undercharging shortens battery life.
	Disconnect charger once fully charged.		Use charger that provides proper voltage for the battery. GEL batteries are charged at 13.8 - 14.1V.		Check battery for corrosion or deformation.		Store in cool, dry place (68°F is best).

## SLA Terminal Types

# LITHIUM IRON PHOSPHATE

Looking to upgrade from traditional SLA batteries? Lithium Iron Phosphate, or LiFePO4 batteries are the answer. With a faster recharge time, longer battery life, expansive operating temperature range and twice the power of a regular SLA battery, lithium is the smarter choice.

## Don't forget the charger!

Make sure your charging system is capable of charging lithium batteries. Not sure? Your business account rep can help.

## WHY LITHIUM?

10x

More cycles than traditional lead acid batteries

Faster charging & lower self-discharge

2x

Twice the power of traditional lead acid batteries

Lightweight

Maintenance Free

EXCLUSIVELY AT  
BATTERIES PLUS®

**POWERSONIC**  
TRUSTED BATTERY SOLUTIONS

### Medical Lithium

Ideal for non life saving applications that need to be lightweight & mobile, but also require premium power.

### Bluetooth Lithium

Designed for premium safety & performance. Plus, check the status of the battery with the Powersonic app.

### Series Connection Lithium

Designed to be connected in a series for applications that demand higher voltage or capacity.

### High Rate Lithium

Built for industrial applications that require long battery life and quick-charging capability.

# UPS BACKUP SYSTEMS

Storms hit. Unexpected power outages happen. Power surges, too. An uninterruptible power supply (UPS) device can protect your equipment and data, but it needs a dependable battery to perform at its best. Protect your business with a UPS backup system from Batteries Plus.

In addition to vital UPS backup units, which keep your data and equipment safe in the event of a power surge or outage, our experts can guide you toward complete commercial solutions for your data. Shop server racks & accessories, power distribution units and UPS replacement batteries. Extended warranties available, too.

SLA replacement batteries are specifically designed and tested to meet or exceed original manufacturer standards. We proudly offer Duracell® Ultra SLA batteries, which provide fast power delivery for backup applications.

Save time and money, and provide the backup protection you need with our ready to assemble and pre-assembled kits.

Power outages can happen at any time. When a simple, easy-to-use replacement option is needed, a prebuilt battery kit is a great option.

Back-up UPS systems provide guaranteed power & surge protection for wireless networks, computers, POS systems and other essential electronics for your business.

## LAWN & GARDEN

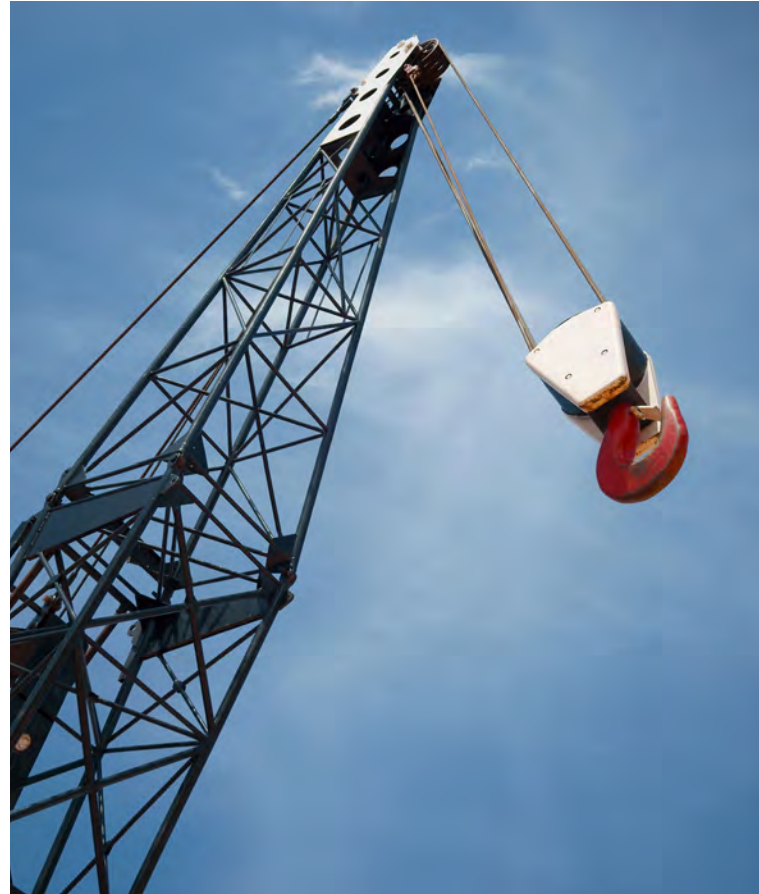

Superior power in a small package, that's the nature of our lawn and garden batteries. Designed to deliver the power and long storage life a small engine needs, our lawn and garden SLI batteries are also nearly 100% recyclable and covered under our national warranty.

# SPECIALTY BATTERIES

## Hard-to-Find Batteries? No Problem.

Have a niche need? Batteries to operate a crane remote? Batteries that run assembly line or factory machinery? Exit and emergency batteries? Batteries Plus has you covered. Our experts will concentrate on the batteries, so you can concentrate on the business.

## PROGRAMMABLE LOGIC CONTROLLER (PLC) BATTERIES

Batteries that go into digital computers that control the automation in assembly line machinery, packaging equipment, lighting systems, and material handling equipment. Replacements for all major PLC brands.

**SIEMENS TOSHIBA.**

# INDUSTRIAL ALKALINE

Large or small, easy to find or relatively rare, the batteries you need to power your business are right here. Single-use alkaline batteries power applications like touchless devices, digital multimeters, scanners, scales and so many more. While you concentrate on work, we'll concentrate on making work, work. Power your business with alkaline batteries from Batteries Plus.

## PROCELL® INTENSE POWER

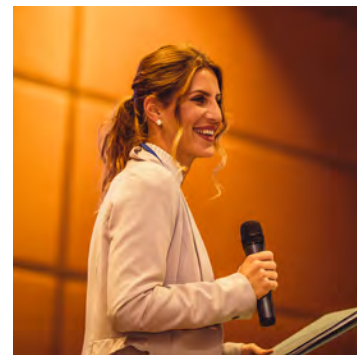

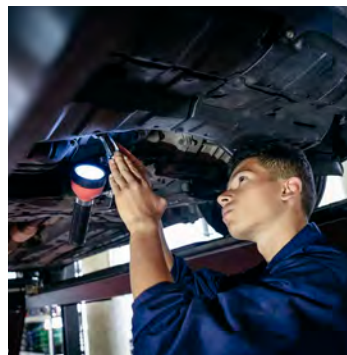

Procell Intense Power is a new battery design specifically engineered to deliver precise pulses of energy while lasting longer in high-drain professional devices.

Recommended for high drain devices such as blood pressure monitors, paper towel dispensers, electronic door locks, security cameras, soap/sanitizer dispensers, hands-free devices, flashlights, digital cameras and more.

## RAYOVAC® ULTRA PRO™

Engineered for professional use, Rayovac Ultra Pro alkaline batteries are guaranteed fresh for up to 10 years. That means guaranteed power when you need it. Each multipack comes shrinkwrapped or in a recloseable container to help keep batteries protected & organized.

## PROCELL®

Procell batteries, manufactured to deliver dependable, long-lasting power, are designed specifically for professional applications. Each battery meets the standards for durability and longevity that pros demand and expect.

## WERKER® BATTERIES PLUS PRO POWER

Werker alkaline batteries are available exclusively at Batteries Plus. Engineered for professional equipment, flashlights, clocks, wireless devices, remotes & more. Werker batteries hold power for up to five years in storage. Available in multipacks for convenient purchase and use.

Cell Size	Werker	Rayovac Ultra Pro	Procell	Procell Intense

# SWITCH TO PROCELL AND SAVE

You get it: Time = money. Spending time trying the wrong battery is a waste of both. Get it right, right out of the gate with a little help from the best in the business: Your business partners at Batteries Plus.

## Replacing batteries over and over can cost 7x the amount of the batteries themselves.

Based on a current \$100,000 annual spend on alkaline batteries, switching to Procell Intense batteries can save up to:

**26%**

in a Hospital

**23%**

in Education

**12%**

in Manufacturing

**62%**

in Restaurants

**43%**

in Hotels

## COIN CELL

Small batteries power important applications like key fobs, hearing aids, remotes, laser pointers, thermometers and many more. Buy in bulk for cost savings, and make sure you have the right coin cell battery for the right application (there are dozens). Our experts can help.

**Key Fobs**

**Thermometers**

**Remotes**

# LED BULB TYPES

## TYPE

## DESCRIPTION

## FEATURES

### Reflector

Best for recessed can fixtures and track lighting.

A PAR reflector bulb has either a spot or flood beam spread.

#### Spotlights - PAR / MR

- Cast beams less than 40°
- Great for highlighting objects and small areas
- For outdoor flood applications

#### Floodlights - BR Lamps

- Cast beams all the way up to 100°
- Great for illuminating larger areas
- For recessed can lighting

### Filament

Mimic vintage incandescent bulbs with unique looks.

Offer extended life and reductions in energy consumption by using LED technology.

- Multiple glass and base styles to fit all decorative applications

- Produces warm and inviting color temperature

- Unique LED filament design

### A-Shaped

Great for table lamps, chandeliers, ceiling fans, vanity lights and general lighting.

An A-Shaped bulb is either a semi-directional or omni-directional.

#### Omni-Directional

- 25,000 hour rated life
- Dimmable

#### Semi-Directional

- 15,000 hour rated life
- Non-dimmable

### Decorative & Specialty

Much more than just functional, as they enhance a fixture's appearance with distinctive shapes and colors.

#### Most Common Glass Options

- Candle
- Globe: G16.5 and G25
- T10 and A15

**ALL OF OUR LED LAMPS CARRY UP TO A 5 YEAR WARRANTY**

# LED RETROFIT

Thinking about the cost savings you could realize from switching to LED bulbs? Us, too. Let's talk about retrofitting LED bulbs into your existing fixtures.

RETROFIT TYPE	ENERGY SAVINGS	LIFE	DESCRIPTION
<b>LED T8</b> 	UP TO <b>64%</b> Energy Savings vs. Fluorescent	<b>50,000</b> Hours	<ul style="list-style-type: none"> <li>• Save up to \$100 over lifetime of bulb</li> <li>• No mercury</li> <li>• Bypass and ballast compatible</li> </ul> 
<b>LED Pin Based</b> 	OVER <b>50%</b> Energy Savings vs. Pin CFL	<b>50,000</b> Hours	<ul style="list-style-type: none"> <li>• Making the switch from CFL to LED is no longer just for linear bulbs</li> <li>• 4X rated life</li> <li>• Ballast bypass and ballast compatible</li> <li>• Horizontal and vertical installation options</li> <li>• Plug and play compact LEDs easily replace CFLs</li> </ul>
<b>LED HID Lamps</b> 	UP TO <b>86%</b> Energy Savings vs. HID	<b>50,000</b> Hours	<ul style="list-style-type: none"> <li>• Replaces HID, CFL, and incandescent</li> <li>• Direct wire range voltage 100-277V</li> <li>• Approved for totally enclosed fixtures</li> <li>• Damp location – IP64 rated</li> <li>• Base up, base down or horizontal operation</li> </ul>  <p>E39 Mogul Base lamps only</p>
<b>LED Can Lights</b> 	Instant <b>On</b> No Warm-Up Time	<b>35,000</b> Hours	<ul style="list-style-type: none"> <li>• Replacement for 4" &amp; 5" to 6" applications</li> <li>• LED technology in a downlight conversion</li> <li>• Excellent for high ceilings</li> <li>• No mercury</li> <li>• Color and watt selectable options available</li> </ul>

## CUSTOMER SPOTLIGHT

### Aircraft Hangar Waukesha, WI

"The current lighting was not working for us, we were unhappy with light levels and lamp warm up times. The LED HID lights Batteries Plus recommended were a game changer when it comes to how much better our lighting is now! Plane maintenance staff have always needed extra light to perform required service and now the light has improved so much this is no longer an issue, and on top of that the instant on benefit has allowed us to confidently move equipment and airplanes."

» Bo, Hangar Owner  
Waukesha County Airport

BEFORE

AFTER

# FLUORESCENT / CONVERTING TO LED

LED linear tube lights might look similar, but they're not. There are four types: A, B, C and A+B. Batteries Plus carries all four, and we have the expertise to talk through the options with you and your team. How can we help you choose the right tube lighting for your facility or business?

## TYPE A

### Plug and Play

Integrated driver; compatible and operated on existing FLO ballast. Easiest to install. Ballast compatibility will vary; tied to ballast life.

## TYPE C

Remote driver; requires electrical modification to ensure driver is connected to sockets. Requires removal of ballast. Offers greatest efficacy, compatibility performance. Can be integrated with robust control systems.

## TYPE B

### Ballast Bypass

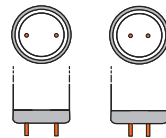

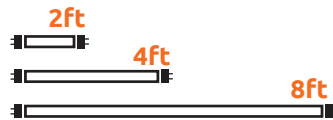

Internal driver powered directly from main line voltage. More efficient, but required rewiring fixture to bypass ballast. Removes compatibility issues.

## TYPE A+B

Able to be used as direct wire or ballast bypass. Ballast compatibility may vary.

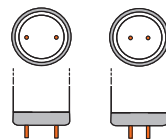

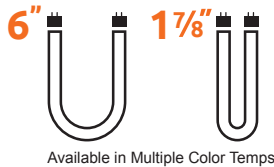

TYPE	SIZES	BASE TYPES	DESCRIPTION
------	-------	------------	-------------

### Linear

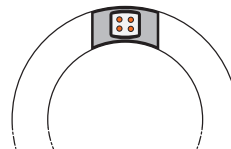

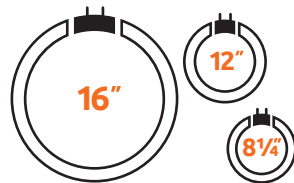

- TCLP compliant, lead-free glass
- For cold temperature application use in enclosed fixtures
- For maximum energy savings, use with electronic instant start ballast
- Long life up to 30,000 hours on program start ballasts
- Energy saving
- Great color rendering and lumen maintenance
- Multiple color temperatures available

### U-Bend

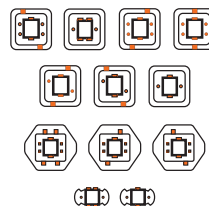

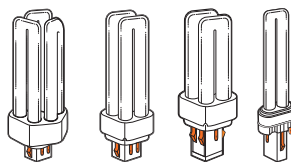

### Circline

- 22 watts T-9, 8 1/4 inch diameter
- 32 watts T-10, 12 inch diameter
- 40 watts T-10, 16 inch diameter

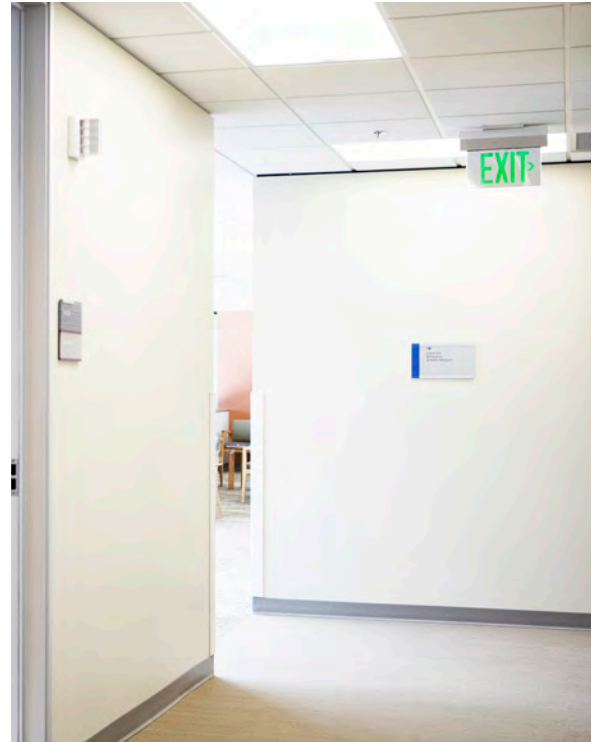

### Pin Based

- Long life up to 10,000 hours
- Uses less energy than incandescent bulbs with same lumens
- Multiple color temperatures available
- Designed for use with preheat magnetic ballasts
- Contains less than 2.5mg of mercury

# LED PANELS

LED lighting panels are typically used for overhead lighting in offices, hospitals, schools, churches, warehouses, and similar places for energy saving illumination. These back-lit panels work well because they provide even distribution of light, they're lightweight and are easy to install in standard drop ceilings. Additionally, there are variable color and wattage selections available. Add in the cost savings, plus the Batteries Plus limited warranty and you'll see why LED panels are a popular choice.

## Exit & Emergency Lighting

Keeping your team, clients and customers safe in an emergency is your top priority, and that means exits need to be well-marked, obvious and accessible. For optimal visibility, we offer signage with various colored housings, green or red letter options and mounting choices to fit your needs. You'll also find certified solutions for cities & regions with the most stringent guidelines. Additionally, our experts can help you find products equipped for fire alarm interface, self-diagnostics and damp-location ratings.

## Battery Replacement

Safety first! Be sure to check your emergency lighting batteries at regular intervals, and have extra SLA batteries on hand for easy replacement. Remember that business customers receive volume discounts, so it may pay to order a larger quantity.

**Pro Tip:** Upgrading exit signage is an easy win for cost savings. Longer lasting = less maintenance = savings for your business.

# BALLASTS

Noticing buzzing, flickering or dimming from your overhead lights? It could be a bad ballast rather than a spent bulb. And replacing a bad ballast is an important part in realizing the greatest energy and cost savings for your company. No matter which type you're looking for, you can count on us to have the right replacement.

Keystone has the highest quality electronic ballasts for all fluorescent lighting applications, including commercial, industrial and residential. Known for dependability and energy efficiency, Keystone ballasts are factory tested to ensure exceptional performance and superior reliability. If a bulb needs a ballast, Batteries Plus has an option.

## NEMA Premium

NEMA Premium is recognized as the most energy-efficient commercial grade T8 ballasts. These ballasts typically provide energy savings of 5-7% over standard commercial grade ballasts. Keystone Technologies is a proud licensee of this distinguished program.

TYPE	COMMON CASE STYLES	LAMP TYPES
Emergency Ballasts		<ul style="list-style-type: none"> <li>• T12</li> <li>• T8</li> <li>• T5</li> <li>• T5HO</li> <li>• Compact fluorescent</li> </ul>
Fluorescent & Sign Ballasts		<ul style="list-style-type: none"> <li>• T12</li> <li>• T12HO</li> <li>• T8</li> <li>• T8 bulbs Over 48"</li> <li>• T5</li> <li>• T5HO</li> <li>• <b>SMARTWIRE</b></li> <li>• Parallel wire</li> </ul>
Compact Fluorescent Ballasts		<ul style="list-style-type: none"> <li>• Compact fluorescent</li> <li>• PLL</li> <li>• Circline</li> <li>• 2D</li> </ul>
High Intensity Discharge (HID) Ballasts		<ul style="list-style-type: none"> <li>• Pulse start metal halide</li> <li>• Metal halide</li> <li>• High pressure sodium</li> </ul>

**ALL OF OUR BALLASTS CARRY A 2-5 YEAR WARRANTY**

MULTIPLE CASE SIZES AVAILABLE. CONFIRM EXISTING BALLAST FOR FIT.

# FLASHLIGHTS

All flashlights are not created equal. Make sure you have the right tool for the job at hand, whether it's a compact, focused task light, a hands-free headlamp or a bright, heavy-duty flashlight. Our experts can fill you in on the best brands and lights for your business or industry.

## Handheld

Built with everyday use in mind and perfect for almost any industry with a wide array of options available at multiple price points.

## Tactical / Sportsman

Specialty flashlights with multiple innovative features such as water and impact resistances, rechargeable options and many more. Suited for almost any industry.

## Industrial

Flashlights built with durability and ruggedness at their core. Designed for professionals who need light in areas of extreme conditions.

## Headlamps

In situations where hands-free light is required, headlamps are the optimal choice. Built to be lightweight, but also provide the user with plenty of light.

# INDUSTRY MATTERS

Custom solutions for  
your business.

There is no one-size-fits-all solution. Whether your business is large or small. Whether you're a four-person office or a 500-person warehouse. Whether your team serves clients or customers or students, we'll work together to customize products and services based on your unique needs, from order placement to pricing to delivery. And recycling services, too.

**We're Batteries Plus and solutions for your  
business are our business.**

## A BRIGHTER FUTURE FOR YOUR BUSINESS

You'll find a variety of energy-efficient lighting options available to replace standard 60W incandescent bulbs, including halogen, CFL and LED bulbs. Take a look to determine which ones might work best for you and your individual business needs.

Energy cost savings shown here are over the life of the bulb and will vary depending on runtime. The bulb's lifespan will also vary depending upon its application. If you have any questions, our experts are here to help.

# SCHOOLS

Classroom learning relies on everything in the background happening seamlessly. Over 9,100 schools, from pre-schools and universities, rely on us to light their classrooms, keep communications systems running, safety equipment at the ready and to make sure tablet screens are intact, lit and ready for each teachable moment. Each district's needs are unique, but cost savings is always top-of-mind.

# BRANDS YOU TRUST.

The brand names we trust are the ones you trust, too, and for good reason. Products we carry are put through rigorous safety, performance and reliability testing, first in our Quality Assurance labs and then again at our Distribution Center. Our standards are high, and you'll receive only the best merchandise we have to offer.

## CERTIFICATIONS

For the certifications you require, or those you want to take advantage of, your business account rep has the products to get you there. Just ask. Let us do the work.

# SERVICE MATTERS

It's about more than just the products we sell.

Fixing one phone or ten or twenty. Recycling one battery or twenty or fifty. No matter your size or how great your needs, your company's one-stop-repair-and-recycling shop is Batteries Plus.

A partnership with us means we tailor phone & tablet repair, key fob services, tech pack rebuilds and recycling programs to fit your business's exact needs. We both value quality repairs over phone replacement. We appreciate quick repair turnaround, nationwide support and 6-month warranties. And most importantly, expert, personal service close to where you work.

**We're Batteries Plus and your recycling and repair solutions start here.**

- Ballasts

# KEY FOB SERVICES

Auto key fobs programmed and batteries replaced, typically for less than what it might cost at a dealership. Make sure your fleet is fully supplied with the keys they need, at a cost savings to you.

## Take Advantage of:

- Expert, hassle-free key cutting and programming services
- Large assortment of keys, key fobs, proximity keys and replacement shells
- Specialized equipment to program a large assortment of remotes and keys, including high-security laser keys
- 3-month warranty

Save up to **50%** compared to dealership pricing

Cover up to **95%** of vehicles on the road

**SAME DAY** on most orders

## Your Key Fob Solutions

Proximity®, flip key, Fobik®, key fob remote, combo & transponder key are all cut and programmed right at our store by our team of experts. The remotes and keys you receive from us work exactly like each vehicle's original factory remote, but typically at a cost savings to you.

# DEVICE REPAIR SERVICES

Wait! Before you put one of the company phones or tablets out of service, bring it to us. Not only will we repair cracked screens and replace lagging batteries, but we'll also diagnose and fix broken buttons and cameras, getting you back to business in no time, at a cost you'll appreciate. Is your business using Samsung Galaxy phones? Batteries Plus is a Samsung Independent Service Provider, which means repairs are done using Samsung equipment and with genuine Samsung parts\*. That said, no matter which brands your phone fleet consists of, our pros will take care of your repairs, on time and on budget. Let's talk.

## Services:

- Cracked Screen Replacement
  - Battery Replacement
  - Button Repair
  - Camera Repair
  - Charge Port Repair
  - Headphone Jack Repair
  - Speaker Repair
  - Microphone Repair
- & more**

## Device Accessories:

- Screen Protection
- Cases
- Cables
- Mobile Power Pack
- Car Mounts

## DID YOU KNOW?

**39%**

Nearly two in five Americans admit their phone is currently in need of repair

**56%**

Of those with a damaged phone say their battery life is a problem

**20%**

One in five people currently have a screen that's broken or in need of repair

\*Samsung repairs are performed using genuine Samsung parts only at participating locations and when parts are available.

Expert  
Technicians

Many times, a phone or tablet repair is more practical and cost-effective than a replacement. Partner with our in-store experts to diagnose, repair and care for your fleet of phones and tablets.

## Stay Connected

We understand that cell phones and tablets are a vital part of everyday communication. So when a phone goes down, it creates stress, disruption and can negatively contribute to your customers' experience and satisfaction.

With a Batteries Plus business account, you can make sure you are up and running again in no time. Bring your broken or damaged devices to our store and let us take care of you so you can take care of business.

Our expert technicians can run free diagnostic tests and provide quick turnaround on cell phone and tablet repair. In addition to screen repairs and battery replacements, our experts can address charge port repairs, camera replacement, volume and power buttons, water damage and more.

Whether you have a handful, or hundreds of devices in your fleet, we can help. Stop in or get in touch with a business rep to learn more.

## Trust your phone with us.

## CERTIFIED TECHNICIANS

One way we set ourselves apart from other cell phone repair retailers is through our participation in the Cellular Telecommunications and Internet Association's (CTIA) WISE™ certification program. This means that when you bring your cell phone, tablet or any other device to one of our stores, you can be confident that you're receiving only the highest-quality repairs, knowing that our technicians have been certified to perform repairs consistently to industry standards.§

§WISE certified technicians at participating locations only. The WISE™ marks are registered trademarks of CC LLC and/or its affiliates in the United States and other countries.

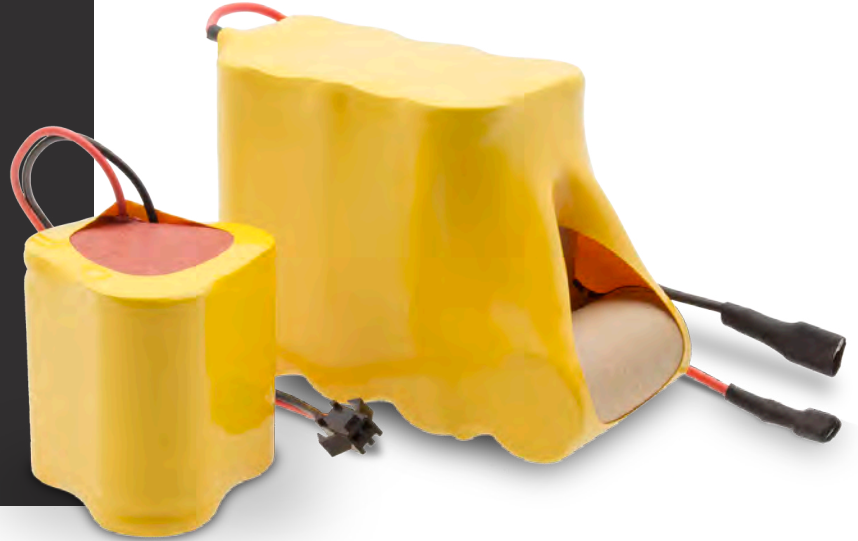

# CUSTOM BATTERY PACKS

To help save you money and meet your unique power needs, our techs can rebuild or recondition your existing battery packs.

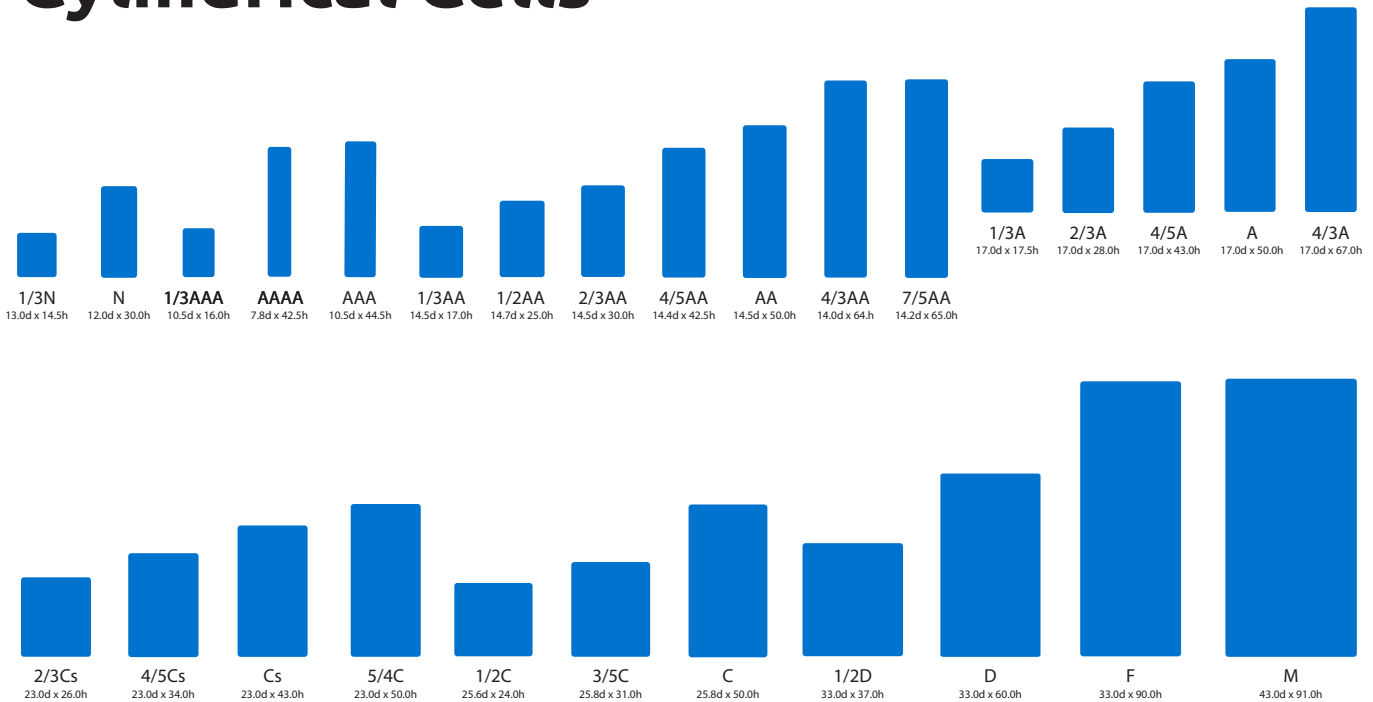

## WE CHARGE, TEST & ANALYZE YOUR BATTERY PACKS

Our technicians can help develop a solution using top industrial cells across all chemistries including:

- Nickel Cadmium (NiCd)
- Nickel Metal Hydride (NiMH)
- AGM
- Lithium (primary, non-rechargeable)
- Alkaline
- Silver Oxide

## Cylindrical Cells

Dimensions are in millimeters. Illustrations are at 40% scale.

Brands Available: **Panasonic** **XENO ENERGY** **SAFT** **ONuon** **VARTA**

# RECYCLING

Batteries and bulbs don't belong in landfills. Let's work together to map out a recycling plan for your business.

## Let's All Do Our Part

Join us. Commit to recycling your company's spent batteries and bulbs and together we'll reduce landfill waste, stop chemical contamination of our soil and water and preserve our environment.

Talk to your business account rep or one of our in-store experts for more information.
