Re: Region 14 Contract #07-69 - Boss Design 2023 Price Increase

To Region 14 ESC,

Unfortunately, due to continued increases in costs, particularly foam, stainless steel, labor and transportation, we had to implement a 4% average price increase effective 10/16/23. Of course, a price increase is never welcome, but we have been able to put it off as long as possible since our last price increase was 19 months ago in March of 2022.

We will honor any outstanding quotes for 60 days, and if there are any outstanding projects that do not meet this timeline, we will review them on a case-by-case basis.

Please let me know if you have any questions or need any other information.

Sincerely,

*Cami Bond*

**Subject:** Marsh Armfield Price List

Katie,

I have finally finished the calculations for the new Boss price list. These prices were calculated from current raw material and labor rates. Please keep in mind that foam prices rose as sharply as 80-90% and labor costs on average \$3-5 more per hour these days. We are looking to implement on all orders shipped on or after 11/15. Does that work for Boss?

This list is based off order history from Boss over the last 18 months. I can provide prices for more items if needed. If there was no order history, it was not included in this price list.

Matt Jones  
Marsh Armfield, Inc.
