

# WE GET HOW TO REDUCE THE COMPLEXITY OF THE CLOUD.

## OMNIA CDW·G Total Cloud Solutions Contract

### About the Total Cloud Solutions Contract

The contract features CDW·G's full high-quality catalog of SaaS offerings and IaaS and PaaS Cloud Partners:

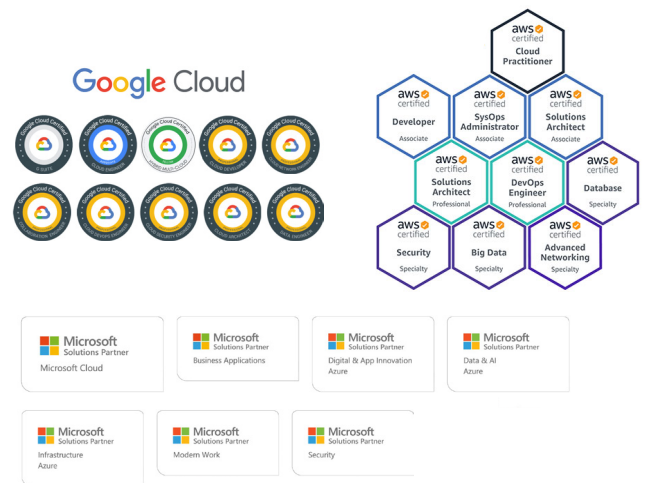

### Cloud Implementation and Management Services by CDW·G

CDW·G provides a comprehensive menu of cloud implementation options, based on your needs and where you are on your cloud journey.

Our professional and managed services assure full lifecycle management. CDW·G experts can help you assess and create your cloud solution. We also assist with migration, adoption integration and management — always keeping security at the forefront. CDW·G cloud engineers will work to understand your technology, business, people, processes and preferences.

### CDW·G has achieved multiple GCP, Azure and AWS certifications.

### About CDW·G and OMNIA Partners

OMNIA and Region 4 ESC's mission is to offer technology solutions to public sector organizations across the nation while reducing the administrative burden and technical complexity inherent in such a task.

CDW·G is best aligned to support this mission due to our comprehensive cloud catalog, robust expertise, dynamic partner ecosystem and dedicated contract management capabilities. We also orchestrate local service with account representatives in your area, offering industry-leading expertise and experience.

Simply put, we maintain the depth and breadth of solutions and experience required to support this mission.

**Competitive Pricing | No need for a Cloud RFP**
