Notes: Vendor may include other notes regarding the contract update here: (attach another page if necessary).
EZGO is updating 2023 pricing. The change in cost is due largely to power trains. Everything with an EX1 Engine (RXV's and Valor's) will have no price increase. Anything with a Kawasaki Engine will have a \$250 increase in cost, and all models With ELiTE (lithium) batteries will have a \$200 increase in cost. Additionally, EZGO is officially removing all 72V models from the Offering. EZGO stopped producing the 72V models in July 2022 but our dealers had inventory, which is now mostly depleted.
