Region 4 ESC,

We had some issues with the Prefixes on 437 new items in the Core and Non-core from the Q3 file.

I included the accompanying file with tabs from the original Core and Non-core price sheets into 2 different authorized tabs.

I then copied the Core into Non-Core into its separate tabs and added the corrected columns highlighted in green.

Core:

In the core file there were 40 items that mistakenly had the SCT as the MFG Prefix instead of the correct prefix of LTP.

Non-Core:

In the Non-core file there were 397 items where the Manufacture's was missing completely so the new prefix is SCT.

Thanks!
