

Who We Are

EverDriven is the pioneer of alternative student transportation. We work with school districts across the nation to supplement their existing bus transportation services with smaller, alternative vehicles.

What We Do

We work hard to produce the most compliant, reliable, and safest transportation in the country for all our district partners. This provides their students with equal opportunities to the education they deserve.

Why We Do It

Alternative transportation isn't something we just do, it's something we live and breathe. From being active participants in improving transportation safety regulations, to providing consistency in students' lives, we believe that every student deserves the opportunity to learn, grow, and succeed.

How We Do It

District Portal

Your source for specific EverDriven tools and reports. Features include trip tracking, storing of essential student information, reviewing past trips, and more.

Online Transportation Requests

Never fill out forms by hand again. Simply log into the District Portal to make requests for new or existing students.

VIP App

If permitted by your district, parents and guardians can have access to driver and vehicle information, student tracking, and easily cancel transportation up to two hours before a scheduled pick-up time.

Custom Contact Info

Your district is given a custom toll-free number and email address that connects you directly to your local EverDriven team.
