### 4.5 Environmental Purchasing Requirements

- As an industry innovator, Exemplis LLC's executive management team views sustainability as
  essential to its core business and values. We engrained that philosophy from the top down
  organization-wide. Our lean manufacturing practice, along with 'Rapid Continuous Improvement'
  processes provides the foundation of our sustainability strategy by linking eliminating waste,
  conserving resources, responsibly designing product for durability and extended life and offering
  an 'End of life' take-back program.
- All SitOnIt Seating and IDEON Soft Seating products have been tested and certified by the GREENGUARD Environmental Institute for meeting safe indoor air quality emissions recognized by the USGBC LEED rating system. Furthermore, all products have been certified to the even more stringent levels required by the GREENGUARD Children & Schools in accordance with the Collaborative for High Performance Schools (CHPS). We also demand all of our textile vendors to be GREENGUARD certified, to ensure that our products will have none or little VOCs.

www.exemplis.com

- Exemplis LLC's manufacturing facility, processes and practices are world class and by the nature of being a "Mass Assembler" we are inherently going to be greener than those manufacturers who do some of their own vertical component production (i.e. dipping frames into caustic chrome).
- Exemplis LLC is committed to improving energy conversation and efficiency which includes reducing our overall energy consumption and greenhouse gas emissions. It is our policy to continuously improve upon and regularly monitor our energy performance; acting in accordance with all current and future local, state and national legislation required of our operations in this area.
- The Exemplis LLC Supply Chain team has built-in goals and incentives to source components with higher recycled content and from regional partners. On average, SitOnIt Seating and IDEON Soft Seating products have anywhere from 10% - 20% recycled content in the finished product. With any component we buy, besides the percentage of recycled content, our greatest priority is the quality and craftsmanship of the component.
- Reducing the environmental impact of our products begins with our new product development process. All new products or major design modifications on existing products go through our Design for Environment (DFE) process which seeks to incorporate energy and water efficiency, renewable, recycled, recyclable and biodegradable materials, and to account for end of life impacts. As part of this process, we also incorporate Design for Durability/Upgradeability (DFDU) into all products. Our products are designed to have a long and useful life and are manufactured to withstand repeated service, repair and handling. To facilitate maintenance, servicing and reassembly, replaceable components are standard features of our products, making them easy to refurbish and upgrade for multiple uses by the original or future users. We are also one of a few manufacturers who stands behind their lifetime warranty and will, upon approval, pay for the labor on warranty replacements.
- In 2014, we achieved the ultimate recognition for our sustainability efforts by attaining ANSI-BIFMA
  e3 Furniture Sustainability Standard LEVEL 1 certification for our plant and all SitOnIt Seating and
  IDEON Lounge product. Please visit www.spot.ul.com for verification of Exemplis LLC's sustainable
  production processes and LEVEL 1 certifications.
- Within the past year, Exemplis LLC attained the highly coveted ANSI-BIFMA e3 Furniture Sustainability Standard LEVEL 2 certification.
- Please find Exemplis LLC's detailed response to the City of Charlotte's Environmental Purchasing Responses in Form 10.

### • Describe any green or environmental initiatives or policies:

- O As an industry innovator, Exemplis LLC's executive management team views sustainability as essential to its core business and values. We have engrained that philosophy from the top down organization-wide. Our lean manufacturing practice, along with 'Rapid Continuous Improvement' processes provides the foundation of our sustainability strategy by linking eliminating waste, conserving resources, responsibly designing product for durability and extended life and offering an 'End of life' take-back program.
- O All SitOnIt Seating and IDEON Soft Seating products have been tested and certified by the GREENGUARD Environmental Institute for meeting safe indoor air quality emissions recognized by the USGBC LEED rating system. Furthermore, all products have been certified to the even more stringent levels required by the GREENGUARD Children & Schools in accordance with the Collaborative for High Performance Schools (CHPS). We also demand all of our textile vendors to be GREENGUARD certified, to ensure that our products will have none or little VOCs.
- Exemplis LLC's manufacturing facility, processes and practices are world class and by the nature of being a "Mass Assembler" we are inherently going to be greener than those manufacturers who do some of their own vertical component production (i.e. dipping frames into caustic chrome).
- Exemplis LLC is committed to improving energy conversation and efficiency which includes reducing our overall energy consumption and greenhouse gas emissions. It is our policy to continuously improve upon and regularly monitor our energy performance; acting in accordance with all current and future local, state and national legislation required of our operations in this area.
- The Exemplis LLC Supply Chain team has built-in goals and incentives to source components with higher recycled content and from regional partners. On average, SitOnIt Seating and IDEON Soft Seating products have anywhere from 10% 20% recycled content in the finished product. With any component we buy, besides the percentage of recycled content, our greatest priority is the quality and craftsmanship of the component.
- Reducing the environmental impact of our products begins with our new product development process. All new products or major design modifications on existing products go through our Design for Environment (DFE) process which seeks to incorporate energy and water efficiency, renewable, recycled, recyclable and biodegradable materials, and to account for end of life impacts. As part of this process, we also incorporate Design for Durability/Upgradeability (DFDU) into all

products. Our products are designed to have a long and useful life and are manufactured to withstand repeated service, repair and handling. To facilitate maintenance, servicing and reassembly, replaceable components are standard features of our products, making them easy to refurbish and upgrade for multiple uses by the original or future users. We are also one of a few manufacturers who stands behind their lifetime warranty and will, upon approval, pay for the labor on warranty replacements.

- o In 2014, we achieved the ultimate recognition for our sustainability efforts by attaining ANSI-BIFMA e3 Furniture Sustainability Standard LEVEL 1 certification for our plant and all SitOnIt Seating and IDEON Lounge product. Please visit www.spot.ul.com for verification of Exemplis LLC's sustainable production processes and LEVEL 1 certifications.
- Within the past year, Exemplis LLC attained the highly coveted ANSI-BIFMA e3 Furniture Sustainability Standard LEVEL 2 certification.
- We are not only environmentally mindful of our production process and being as efficient with raw materials and waste, but that also trickles down to how we package and ship our product. We can ship a few different ways, blanket wrapped, KD (knocked down in a small box), partially assembled or fully assembled. We prefer blanket wrapping as the most environmentally and economically friendly option, but if that is not possible, the KD or partially assembled box is going to be significantly smaller than what most other manufacturers are able to achieve with their cartons.
- o In terms of "End-of-life strategy" for products, Exemplis LLC has a few options for OMNIA Partners members. We have a Take-Back Program to minimize product waste and make being environmentally responsible easy for our customers. To honor this, we have partnered with the nonprofit environmental organization ANEW to offer a return program for surplus product, regardless of condition.
- o If a customer chooses to embark on the recycling effort on their own, Exemplis LLC has chair disassembly instructions (PDF) for safer, environmentally conscious disposal. The End of Life Recovery Options matrix (PDF) provides a precise explanation of materials used in various products, examples of components, recycling notes and where to find a recycling outlet nearest your member so they can dispose of the chairs in an eco-friendly manner.
- Please find our Social Responsibility Report attached to this Document for additional information on our environmental and sustainability initiatives (Attachment 2 to OMNIA Partners – Response for National Cooperative Contract).

- Describe Company's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions:
  - Exemplis LLC has implemented the Microsoft Dynamix AX ERP system in 2017. This ERP System has been customized to input purchase orders, generate customer acknowledgments, initiate work orders for our manufacturing facility, assist with shipments for all orders, and fully support billing and receivables.
  - Exemplis LLC accepts the following payment formats:
    - Check
    - Credit card
    - ACH
    - Wire Transfer
    - EFT
- Provide the Contract Sales (as defined in Section 12 of the National Intergovernmental Purchasing Alliance Company Administration Agreement) that Company will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales"):
  - Exemplis LLC has decided to not provide a specific Guaranteed Contract Sales amount for the initial three years of this Agreement.
- Even though it is anticipated many Public Agencies will be able to utilize the Master
   Agreement without further formal solicitation, there may be circumstances where Public
   Agencies will issue their own solicitations. The following options are available when
   responding to a solicitation for Products covered under the Master Agreement:
  - Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners):
    - Exemplis LLC in conjunction with our aligned dealers intends to respond to most end user solicitations with the negotiated "tiered" agreement pricing.
       We believe the negotiated discounting tiers are very favorable to end users.

- If competitive conditions require pricing lower than the Agreement pricing,
   Company may respond with lower pricing through the Master Agreement. If
   Company is awarded the contract, the sales are reported as Contract Sales to OMNIA
   Partners under the Master Agreement:
  - When competitive conditions require lower pricing than the Agreement pricing, Exemplis LLC will first understand the project scope, scale and competitive landscape and then strategically decide whether it is appropriate to extend deeper than the Agreement pricing.
- Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners):
  - Exemplis LLC and our dealer network will qualify pre-sales/solicitation whether the OMNIA Partners member is open to using the Agreement, if so, we intend to use the negotiated discount. If not, we will use commercial project pricing to respond.
- If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as an alternative or additional proposal.
  - In this scenario, Exemplis LLC and aligned dealer would only respond with Agreement pricing.

Conservative credit Limit: 500,000

Risk category for this business: MODERATE

Aggressive credit Limit: 1,000,000

Risk category for this business: MODERATE

The Credit Limit Recommendation (CLR) is intended to serve as a directional benchmark for all businesses within the same line of business or industry, and is not calculated based on any individual business. Thus, the CLR is intended to help guide the credit limit decision, and must be balanced in combination with other elements which reflect the individual company's size, financial strength, payment history, and credit worthiness, all of which can be derived from D&B reports.

Risk is assessed using D&Bs scoring methodology and is one factor used to create the recommended limits. See Help for details.

#### FINANCIAL STRESS CLASS SUMMARY

The Financial Stress Score predicts the likelihood of a firm ceasing business without paying all creditors in full, or reorganization or obtaining relief from creditors under state/federal law over the next 12 months. Scores were calculated using a statistically valid model derived from D&B's extensive data files.

The Financial Stress Class of 4 for this company shows that firms with this class had a failure rate of 0.84% (84 per 10,000), which is 1.75 times higher than the average of businesses in D & B's database.

#### **Financial Stress Class:**

Financial Stress Class: 40

Low Risk:1; High Risk:5

Moderately higher than average risk of severe financial stress, such as a bankruptcy or going out of business with unpaid debt, over the next 12 months.

### Letter from our Founder & CEO

At SitOnIt Seating® and IDEON®, we understand how important it is to get what you want – to have an idea and see it created.

We built a company to help you do just that.

SitOnIt Seating® is the leader in custom, affordable build-to-order seating. We offer dozens of models, hundreds of options and thousands of textiles so you can get exactly what you want. Our chairs are made with world-class style for maximum comfort by renowned designers and engineers (at a price that is much lower than you would expect).

We also know that when you decide what you want, you want it fast. Our innovative build-to-order system means your custom creation ships in 2, 5 or 10 days – a promise unmatched in the industry. Because our products meet the highest industry standards, we stand behind them with a lifetime warranty. That's part of our outstanding customer service experience before, during and after each sale.

We're a California company and have proudly manufactured our products here since 1994. Our state faces monumental environmental challenges, as do other parts of North America: air pollution, drought and declining space in landfills are part of our ongoing challenges.

We have committed ourselves to being part of the solution, not part of the problem.

Our GREENGUARD Gold certified products protect indoor air from harmful emissions. We use less water to make a chair than we did five years ago. Material waste including fabric scraps and other components are collected, sorted and given to local recyclers to use in post-consumer products. We've implemented a complete design for environment program (DFE) addressing renewable and recyclable materials, end-of-life management, water management and energy efficiency. We have achieved ANSI/BIFMA level® certification, the ultimate recognition of our sustainability efforts.

We'll continue to build what you want, when you want it. Just for you. And we'll continue to build a cleaner California, and a better, more sustainable world.

Paul DeVries

## About our report

Thank you for taking the time to look through our second Social Responsibility Report.

SitOnIt Seating® and IDEON® are proud to announce our Sustainability Initiative and plans to continue achievement of the Business and Institution Furniture Manufacturing Association's (BIFMA) level® certification in several areas covering Materials, Energy & Atmosphere, Human & Ecosystem Health, and Social Responsibility. We will be assessing our products' conformance to the ANSI/BIFMA e3-2014 Standard.

We first received our (BIFMA) level® certification in 2013. This report is an opportunity for us to continue communicating to our stakeholders our efforts as we move towards becoming a more sustainable business while growing our operations, and continuously improve our sustainability performance.

We have identified our stakeholders to be our owners, employees, dealers, end-customers, suppliers, community, trade organizations, governmental and regulatory agencies, certifying bodies and consultants. The list was developed upon considering all groups who have influence over Company decisions and those who are impacted by Company decisions.

Years to come, we aim to provide our stakeholders with data and performance indicators that can be monitored over time and that are material to our operations.

This report contains Standard Disclosures and Performance Indicators from the GRI G4 Sustainability Reporting Guidelines. More information about the Global Reporting Initiative (GRI) can be found at globalreporting.org. To learn more about BIFMA level® certification, visit levelcertified.org.

We hope that you find our disclosures informative. We welcome any comments, feedback, or suggestions for improvement that you may have. You can do so by e-mailing us at sitonit@exemplis.com.

Thanks again, we appreciate your interest.

## Environmental accountability

SitOnlt Seating® and IDEON® are dedicated to sustainability from the fabrics we select, the way we manufacture and how we run our corporate offices. Our efforts have been recognized by Managing Automation, which listed us as one of its "Progressive 50." We work hard to minimize the impact of our manufacturing and support a healthy workplace – for our employees and our planet. Our lean manufacturing practice provides the foundation of our sustainability strategy by linking elimination of waste, conservation of resources and responsibly-designed products for durability and extended life.

#### **MATERIALS**

From the very beginning, our design and material selection process supports sustainability. Our fabric selection includes a variety of choices made of 100% recycled material. We manufacture with 10-20% recycled material. Our products contribute to achieving the LEED-CI Recycled Content Materials and Resources Credit.

#### **MANUFACTURING**

During assembly, our team uses environmentally-friendly water-based adhesives. Our precision design and state-of-the-art cutting machines minimize waste during production. And each month, we collect material waste like leather and fabric scraps, plastic drums, cardboard and metal and recycle them at local recycling centers.

SitOnIt Seating® and IDEON® seating products have been tested and verified by Underwriter Laboratories, Inc. (UL) and meet the GREENGUARD standards for indoor air-quality emissions.

#### CORPORATE

We run our business with sustainability in mind. From recycling office equipment and donating reusable seating to local schools to employees using their own mugs for coffee, many company-wide efforts are made with the environment in mind.

#### **ENERGY & GREENHOUSE GAS EMISSIONS**

We are committed to improving energy conservation and efficiency, which includes reducing our overall energy consumption and greenhouse gas emissions. It is our policy to continuously improve upon and regularly monitor our energy performance and to act in accordance with – if not exceed – all current and future local, state and national legislation required of our operations in this area. We will set objectives and targets directly related to energy conservation which will be reviewed at least annually. To hold ourselves accountable to these internal goals, we will be transparent with our performance metrics, reporting our performance to our stakeholders through publicly available, voluntary reporting outlets.

#### **DRIVE FOR EFFICIENCY**

SitOnIt Seating® and IDEON® have set a 40% reduction goal for normalized energy consumption at our facilities. We are hopeful we will reach this target by the year 2025. In order to achieve this, we have begun, and will continue, to implement energy savings projects to reduce our energy consumption. See the metrics we use to track both our energy consumption and greenhouse gas emissions (GHGs).

In addition, SitOnIt Seating® and IDEON® have committed to purchasing Renewable Energy Certificates (RECs) to offset a portion of the energy consumed from our manufacturing operations on an annual basis. For 2018, 669 MWh of Green-e certified RECs were purchased to account for a little over 20% of our electricity consumption. To learn more about RECs, please visit epa.gov/greenpower/gpmarket/rec.htm.

The normalized reductions we achieved from our 2008-2010 established baseline for energy consumption and greenhouse gas emissions for the 2018 reporting year were 27.8% and 16.8%, respectively.

#### **TRANSPORTATION**

SitOnIt Seating® and IDEON® are committed to reducing transportation related emissions through idling reductions, carrier selection and reductions in unnecessary intercompany movement. Attention is given to environmental criteria when selecting third-party carriers for inbound and outbound products and materials.

#### SOLID WASTE MANAGEMENT

SitOnlt Seating® and IDEON® have implemented a Zero Waste-to-Landfill goal. We will continuously work to achieve this goal by employing waste reduction and recycling strategies that will, over time, divert all manufacturing waste from our operations from being sent to a landfill.

We are in the early stages of identifying our waste streams and their current method of disposal. We know we have a long way to go and some potentially tough work ahead of us. Therefore, we are giving ourselves an appropriate deadline of 2025 to divert all our waste streams from the landfill.

#### **ENVIRONMENTAL MANAGEMENT**

SitOnIt Seating® and IDEON® are committed to environmental leadership and continue to utilize our lean manufacturing initiatives and principles to lower costs, use less materials and reduce our energy use.

## Product responsibility

Our dedication to green processes begins with smart manufacturing and continues through every stage of our product's lifecycle. During manufacturing, we maximize material usage and minimize or recycle waste. Our products are GREENGUARD or GREENGUARD Gold certified, protecting your office environment from harmful emissions.

But our commitment to green production doesn't end there...

#### DESIGN FOR ENVIRONMENT

Reducing the environmental impacts of our products begins with our new product development process. All new products or major design modifications on existing products go through our Design for Environment process, which seeks to incorporate energy and water efficiency, renewable, recycled, recyclable and biodegradable materials and to account for end-of-life impacts.

#### DESIGN FOR DURABILITY / UPGRADEABILITY

SitOnIt Seating® and IDEON® products are engineered to achieve the highest levels of durability and upgradeability. Our products are designed to have a long and useful life and are manufactured to withstand repeated service, repair and handling. To facilitate maintenance, servicing and reassembly, replaceable components are standard features of our products, making them easy to refurbish and upgrade for multiple uses by the original or future users.

#### CHEMICAL MANAGEMENT

We are committed to reducing the human and ecosystem health impacts of our products and processes through regularly evaluating our chemical management and hazard communication plans. We will continuously evaluate and monitor the chemicals used in our facility and maintain current Safety Data Sheets through an electronic filing system. Using this process we will build a chemical inventory system to identify and track all existing chemicals within and leaving our facility, as well as all future purchased chemicals that are not currently in our system.

#### PRODUCT TAKE-BACK PROGRAM

SitOnIt Seating® and IDEON® offer the Take-Back Program to minimize product waste and make environmental responsibility easy for our customers. To honor this, we have partnered with the nonprofit environmental organization ANEW to offer a return program for surplus product – regardless of condition.

Where possible, ANEW matches the used products and materials otherwise destined for landfills with local non-profits and public agencies. The remainder is recycled or considered for energy-from-waste to avoid deposit in a landfill. Visit www.anewfound.org to find out more.

We are committed to making this relationship a part of our sales strategy and are proud to recommend ANEW to customers who wish to recycle their furniture for the good of the community and the environment.

We understand the importance of credibility and trustworthiness to our success as a business. All officers and employees are expected to conduct their business affairs in accordance with all applicable laws of the United States and to observe the highest standards of business ethics, acting with integrity while considering the impact of their decisions on our stakeholders.

#### COMMUNITY INVOLVEMENT

Our goal is to continuously improve environmental performance. We also seek out activities that contribute to the community in which we operate. Activities may include volunteerism, donations, sponsorship opportunities and other community-based programs. We make every effort to involve our employees in these decisions and encourage their participation. Some of our efforts include:

#### LABOR AND HUMAN RIGHTS

It is our policy to protect and respect the basic human rights of our employees and associates. We are committed to providing decent work hours, wages and conditions, as well as upholding all local, national and global regulations prohibiting forced, compulsory and child labor.

To meet this end on a global scale, we have developed and distributed our Workplace Code of Conduct as a means for our supply partners to assess their own operations for social responsibility criteria - 80% of our partners have signed this Code of Conduct. At Exemplis, we believe that there needs to be a balance between business and society, a balance between maintaining a healthy business and proper respect and concern for people and the environment.

Understanding that our work with suppliers is consistently evolving, our Code of Conduct makes clear the expectations we have of our suppliers and lays out the minimum standards we expect each supplier to meet. Where issues of noncompliance are identified, suppliers shall work to address such issues under a spirit of continuous improvement. Where differences or conflicts in standards arise, the highest standard shall apply. Wherever the law is higher than this Code, the law will prevail.

It is our intent to use these standards as an essential factor in how we approach our sourcing strategies, how we assess supplier performance, and how we decide with which suppliers Exemplis will continue to engage and grow our business with. As we evolve our business model in sourcing and manufacturing, we expect to work with suppliers who understand that meeting these minimum standards is a critical starting point from which manufacturing leadership, continuous improvement and self-governance must evolve. Our Code of Conduct binds our suppliers to specific minimum standards that we believe are essential to meeting these goals, including Business Integrity, Voluntary Work, Prohibiting Child Labor, Non-Discrimnation or Harassment, Freedom of Association, Working Hours, Subcontracting, Occupational Health and Safety, Minimizing Environmental Impact, Recordkeeping and Transparency, Monitoring and Corrective Action.

#### **INCLUSIVENESS**

We do not discriminate on the basis of race, ancestry, place of origin, color, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, gender expression, age, marital status, family status or disability. We are committed to treating all of our employees and associates with dignity and respect, promoting collaboration, teamwork and the active involvement of all employees. #### C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. It is not intended to be provided to contractors. What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns\_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

- 1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).
- 2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. The form is worded to accept this alternate submission. The text should be amended if electronic submission will not be allowed.
- 3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
- 4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
  - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at <a href="http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12">http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12</a>. They will be updated from time-to-time as necessary.
  - b. A public agency using these forms should edit them to properly reflect the correct legislative district(s). As the forms are county-based, they list all legislative districts in each county. Districts that do not represent the public agency should be removed from the lists.
  - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
  - d. The form may be used "as-is", subject to edits as described herein.
  - e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
  - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
- 5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at <a href="http://www.nj.gov/dca/divisions/dlgs/resources/lfns\_2006.html">http://www.nj.gov/dca/divisions/dlgs/resources/lfns\_2006.html</a>). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

# C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee\*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - o of the public entity awarding the contract
  - o of that county in which that public entity is located
  - o of another public entity within that county
  - o or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

Taxpayer Identification# 330-697-684/000

**Dear Business Representative:** 

Congratulations! You are now registered with the New Jersey Division of Revenue.

Use the Taxpayer Identification Number listed above on all correspondence with the Divisions of Revenue and Taxation, as well as with the Department of Labor (if the business is subject to unemployment withholdings). Your tax returns and payments will be filed under this number, and you will be able to access information about your account by referencing it.

Additionally, please note that State law requires all contractors and subcontractors with Public agencies to provide proof of their registration with the Division of Revenue. The law also amended Section 92 of the Casino Control Act, which deals with the casino service industry.

We have attached a Proof of Registration Certificate for your use. To comply with the law, if you are currently under contract or entering into a contract with a State agency, you must provide a copy of the certificate to the contracting agency.

If you have any questions or require more information, feel free to call our Registration Hotline at (609)292-9292.

I wish you continued success in your business endeavors.

Sincerely,

James J. Fruscione
