Why Organizations Choose Fischer Identity

Accelerated Time to Value

Achieve maturity in months, not years, with a configuration-based, no-code framework and prebuilt integrations that cut deployment time by up to 75%.

Enhance Security and Compliance

Automate provisioning, enforce least privilege and maintain continuous visibility across the enterprise.

Simplify Complexity

Unify identity governance, access control, and password management within a single, flexible platform, with no bolt-ons or custom code.

Empower the Business

Enable IT and Business leaders with actionable insight into who has access to what and why to drive better decisions and reduce risk.

For over two decades, Fischer Identity has been modernizing IAM for some of the most complex organizations. Our customers include major R1 universities, health centers and others managing hundreds of thousands of active users, with most going live with full lifecycle automation within their first year.

One Platform, Total Visibility

A unified IAM solution with built-in automation, intelligence, and governance for every stage of the identity lifecycle.

CORE CAPABILITIES:

○ IDENTITY GOVERNANCE & ADMINISTRATION

Automate joiner/mover/leaver processes with RBAC, PBAC and ABAC. Simplify access requests and approvals.

○ ACCESS MANAGEMENT

Centralize authentication with Single Sign-On (SSO) and enforce consistent access policies across applications and systems

○ PASSWORD MANAGEMENT

Enable Self-Service Identity Claiming, Profile Management and Password Reset while enforcing security policies.

○ COMPLIANCE

Continuous compliance and simplified audits through automated access certifications, real-time visibility and reporting.

Platform Highlights

- **Powered by AWS** - Built in security and auto scaling to meet peak demands
- **Pre-built connectors** - HR, ERP, and directory integrations (Workday, SAP, Banner, Oracle and Active Directory)
- **No-code configuration** - Build workflows, add targets and manages policies, no developer required.

Built to Evolve With You

Fischer Identity makes it easy to scale Identity Governance as your organization evolves. Fischer Identity accelerates transformation, reduces risk and strengthens trust across your business.
