RE: Contract 07-88 Fleetwood Furniture Price Modification

Fleetwood has shared a long-standing partnership with you that has led to creating world-class learning environments.

Unfortunately, market conditions, increased labor costs, material fluctuations, and increased inbound freight rates have negatively impacted our costing. Our team is dedicated to minimizing the full impact of these factors, and we will continue to increase our resiliency to external factors to ensure optimal service levels.

After exhaustive studies regarding our competitiveness, product mix, and price positioning we will be implementing an average 3.5% list price increase on some Fleetwood products effective December 1, 2024, to in part offset the added costs we are experiencing.

Reasons for these increases are found in our supporting documentation that is attached with this letter. This data is from the PPI, which is found at [BLS Data Viewer](#).

Our new price list is online, and found at: [SPEC GUIDE \(price list\) | Fleetwood Furniture](#).

No Changes to any other terms or conditions, including discounting is being requested. We understand the price list is used for pricing only, and the terms and conditions of the contract will supersede any other terms listed in our current pricelist.

We would like to request this change to be implemented as soon as possible.

Please let us know if you have any questions.

Sincerely,

A handwritten signature in black ink that reads 'Dan Reisetter'.

December 1, 2024, Price Modification

Why is Fleetwood having a price modification? Market conditions, increased labor costs, material fluctuations, and increased inbound freight rates have negatively impacted our costs. Our team is dedicated to minimizing the full impact of these factors, and we will continue to improve our resiliency to external factors to ensure optimal service levels.

After exhaustive studies regarding our competitiveness, product mix, and price positioning, we will implement a 2-5% list price increase on some Fleetwood products effective December 1, 2024, to partially offset the added costs we are experiencing.

Not all products will experience a price modification and the amount will vary by product line. For example: Unitized Frame, C-Leg, Stacker and Post-Leg individual student desks will not have an increase and will remain at the same list price as current.

Space Planning tools are in the process of being updated and should be complete with 2025 list prices and new part numbers by December.
