

# WORKSPACE HEADQUARTERS.

**Boost your productivity.**

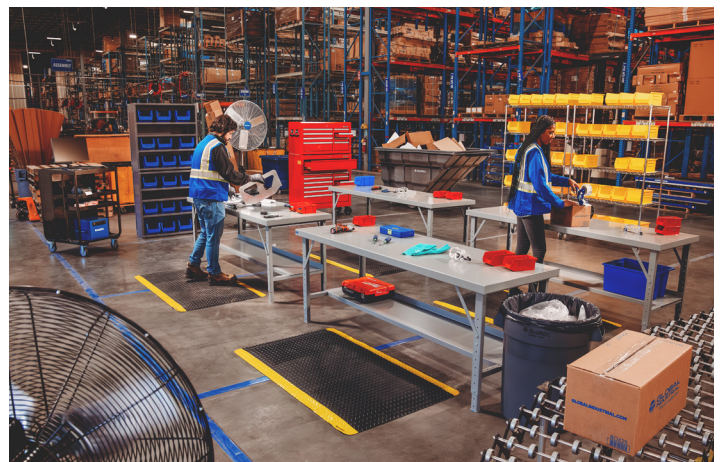

## Optimize Your Workspace

When it comes to success and growth, having all aspects of your business running smoothly and efficiently is key. Investing in new equipment, procedures, and safety protocols can improve productivity, work quality, and employee retention. From reception lobbies and office cubicles & cubicle accessories to production & assembly equipment, work benches, shipping & receiving, and loading dock supplies, Global Industrial has what you need to improve efficiency in just about every area of your business.

## Pack & Ship

From pallet racks, utility carts, and stretch wrap machines to dock equipment, shipping containers, and conveyors, we have a wide array of shipping & receiving products that are engineered to keep your facility running.

## Production & Assembly

With solutions such as anti-fatigue mats, PPE conveyors, air tools, and tool chests, it's never been easier to maintain an efficient production and assembly line.

## Distribution & Inventory Control

From pallet racks, utility carts, and stretch wrap machines to dock equipment, shipping containers, and conveyors, we have a wide array of shipping & receiving products that are engineered to keep your facility running.

## Desk & Office

With solutions such as anti-fatigue mats, PPE conveyors, air tools, and tool chests, it's never been easier to maintain an efficient production and assembly line.
