Appendix D, Exhibit A - 3.0 SUPPLIER RESPONSE

3.1 COMPANY

A. HISTORY AND DESCRIPTION OF SUPPLIER

Based on the dream, vision and core values of its' founder, Wayne Gonzalez, Gonzalez Solutions for Business was established in 2002. Today, a multi-million dollar company Gonzalez is headquartered in the heart of downtown Austin, Texas and is an internationally recognized certified minority business enterprise (MBE). From the beginning, our small staff of big thinkers has grown both, our commercial and public-sector business into one of the nation's most respected MBE companies.

A national award-winning business model, Gonzalez leverages a stellar network of strategic allies to provide innovative procurement solutions excelling in the area of single sourcing and procurement for its clients. Our proven operational capacity has established us as a premier vendor partner to high-profile commercial and government clients throughout the US for general supplies, custom print, promotional products, apparel and third party vendor integrations.

Since 2011, Gonzalez has proudly participated in a formal Mentor Protégé program sponsored by the Texas Education Agency and global partner Pearson. Pearson's own expertise and focus in the educational market has provided with Gonzalez with an exceptional opportunity for continued learning of selling in the education marketspace.

In 2012, Gonzalez was awarded the Central Texas Ethics in Business Award, and in 2013 and again in 2014, Gonzalez was honored as the MBE Supplier of the Year by the SMSDC, regional affiliate of the National Minority Development Council. Gonzalez currently participates in the national flagship Capacity Plus program sponsored by NMSDC and billion-dollar roundtable member, Johnson Controls.

Since 2010, Gonzalez has proven itself to be a reliable partner to Region 4 and subsequently National IPA. Just as the cooperative membership leverages their resources and piggybacks off nationally awarded contracts to streamline efficiency, in similar fashion, Gonzalez leverages the resources of its business partnerships and strategic alliances in order to maintain status as a competitive privately owned force in the office products industry.

Gonzalez had a significant learning curve when awarded its first national cooperative contract by TCPN in 2010. Today we are considered subject matter experts in cooperative purchasing. We understand the importance of the legislative structure of each State and how it impacts the purchasing process. We understand the benefits of cooperative selling and how to communicate that message to potential contract users in education, in municipal purchasing and in the non-profit sector. Leveraging this subject matter expertise is key. Since inception, we have generated more than \$12million in member sales.

As we have proven with our current contracts, our state-of-the-art systemic infrastructure allows for robust on demand reporting, both standard and ad hoc. Volume will be tracked and reported to National IPA as administered by OMNIA Partner's National Cooperative Contract requirements in Appendix D, Exhibit E and shown below.

B. SALES PERSONS AND LOCATIONS

Our technological infrastructure is unique to the industry, as is our go to market strategy and sales structure. Our three key leaders manage a contracted national sales team allowing us to

be as fluid and nimble as market conditions and growth patterns dictate. This is our primary sales structure. Secondarily, our logistics and warehouse partner, SP Richards' account managers support us in markets across the country, if and when we so choose.

C. SUPPORT CENTERS

Gonzalez utilizes two primary customer support centers. One support center is located in Austin at the corporate office. The secondary support center is in Raleigh, NC.

In May 2018 and typical to our innovative spirit, our online Customer Support Portal was introduced. This is an exciting new feature that streamlined our entire customer support process and is quickly serving to transform industry standards. The portal provides **expedited service** and it tracks the progress of requests from receipt through resolution insuring accountable prompt service to our clients.

Once complete, our customer support team marks ticket as <u>resolved</u>, but the end user gets the opportunity to mark the ticket as <u>complete</u>.

The system automatically closes out tickets after 10 days.

Admin credentials are available to our client's leadership teams so that they have visibility to the status of all open and closed tickets for their entire organization.

F. GREEN INITIATIVES

Gonzalez is committed to a variety of green initiatives both internally in our own organization and externally through both, our public sector and our private sector customers. We offer and participate in a unique e-waste recycling program, toner recycling, certified data destruction and shredding. Our mentor, Pearson Learning has hosted an annual Green Event, and for a number of years, we have been an active partner in this event working to assist them in reducing their carbon footprint and communicating this message to their employee base.

As a responsible steward of our planet's resources, Gonzalez looks for ways to reduce, reuse and recycle within all of our products and processes. We believe that it is our responsibility to align ourselves with other vendors and companies that are of that same corporate belief. We currently have over 10,000 items on our website that are recycled. These items encompass but are not limited to office supplies, furniture, facilities and IT products. Our customers are able to align their policies to their purchases because we have clearly marked green items in the webstore with a visible recycle icon.

The paper and plastic recycling program of our warehouse and logistics partner, SP Richards keeps these reusable items out of our landfills. Their use of recycled materials in packaging products for distribution to our customers, National IPA members, completes the cycle.

As a distribution company, they monitor their trucks and the routes they travel each day, making sure that we effectively conserve fuel and control usage, thereby limiting pollution and saving precious resources.

In an ongoing initiative to conserve energy within their facilities, SP Richards refitted their warehouses with energy efficient motion sensing lights and high velocity, low volume fans. This will allow their operations to significantly reduce energy costs and save much needed resources.

At Gonzalez we believe that working with our distributor, our vendor partners and our customers we will have an impact on protecting our environment. We hope to provide a better world for our future generations.

G. DIVERSITY PROGRAM

Gonzalez Office Products in our own right, is a certified minority business enterprise (MBE) and small business enterprise (SBE) with local, regional, and national certifications. As a result, our robust technological infrastructure supports both 1st and 2nd tier minority spend requirements for our clients.

At the national level, Gonzalez Office Products also holds membership in the National Supplier Development Council (NMSDC) serving on numerous committees and participating in the national flagship Capacity Plus program sponsored by NMSDC and Billion Dollar Round Table member, Johnson Controls.

Gonzalez intentionally cultivates Supplier Diversity relationships seeking out other certified SWMBE businesses to partner in various capacities when applicable to further support Tier 2 requirements. Many of our products are manufactured by diverse suppliers.

We support a mission of inclusion and diversity in our workplace with more than 50% of our workforce categorized as diverse minority.

I. KEY DIFFERENTIATORS

Our national competitors are large publicly traded entities and as such, their ultimate fiduciary responsibility is to their shareholders and executive team. The Gonzalez business model is entirely customer focused; our organizational structure is small enough to be quick to adapt, but large enough and hyper efficient so as to meet the individual needs of the most complicated people and organizations we serve.

National rollout of our Single Cart *online ordering technology* for our private and public sector clients has been hugely successful since 2014. Augmenting this rollout by being awarded another National IPA contract will position Gonzalez to provide a level of service to members that is unprecedented in the marketplace. Our intent is to utilize this unique technology to grow our own market share, assist National IPA in increasing the size of its membership and simultaneously offer National IPA an instrument to improve its membership contract utilization through our unique single source platform.

Gonzalez is a privately owned and operated entity. We are not a small business pass through. Gonzalez Solutions for Business represents quality over quantity. We believe it's how you finish that counts. Our mission is to make a difference in the world by providing a safe place for our team to grow both personally and professionally. We do more than provide great customer service; we serve others. We are supporting the lifeblood of our economy by providing business opportunities as an instrument for others to grow their profession, their business and serve their own local communities. We consider our vendors and manufacturers partners in our mission. We have grown our business knowing that by all working together we are stronger than we are apart.

J. LEGAL PROCEEDINGS

Gonzalez is not involved in present or past litigation, bankruptcy or reorganization.

K. FELONY CONVICTION NOTICE

Gonzalez Solutions for Business is not owned or operated by anyone who has been convicted of a felony.

L. DEBARMENT/SUSPENSION

Each day by electronic transmission, Gonzalez notifies wholesaler of daily general supplies purchases to all warehouse locations across the US. This "just in time" purchasing model allows Gonzalez to provide next day delivery on more than 35,000 unique items to the majority of metropolitan areas across the US. Additionally, our capital resources are not wasted on inventory and obsolescence, rather our resources are invested in our people and our processes so that we are well positioned to best serve large clients like National IPA.

Gonzalez partners with the largest most reputable custom products and apparel manufacturers in the US. Transmission of these orders are also seamlessly transmitted electronically to avoid any error that might be caused by human intervention.

In order to expedite delivery to the end user, Gonzalez utilizes a variety of delivery methods depending on the marketplace. In some instances, orders are shipped from the warehouse via Regional Carriers to a local Independent Dealer for delivery to the end user. In other instances, deliveries are distributed by Local Courier to the National IPA customer. When fulfilling orders from a secondary warehouse in order to expedite deliver, UPS or US Postal Service may be used as a resource.

 - ii. Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days

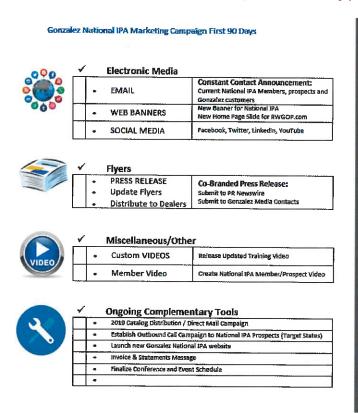

Gonzalez has numerous great advantages as a successful incumbent contract holder. One HUGE advantage is our ability for speed to market. National IPA is currently the "go to" public sector contract for Gonzalez Solutions for Business.

Our Executive Leadership team stands prepared to endorse and fully support another National IPA contract and it is with great anticipation that we agree to launching a new and improved National IPA sales training program alongside OMNIA partners.

- B.  - i. Creation and distribution of a co-branded press release to trade publications

A sample of our 90-day plan is shown below:

Our dedicated National IPA portal is getting a facelift. Here is a sneak preview:

C. Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Currently, National IPA (TCPN) contracts are the sole national public sector contracts held by Gonzalez Solutions for Business. A new contract award would simply replace the contracts currently in place. Aside from new logos, new contract numbers and new pricing, the transition would appear seamless to our existing customers.

D. Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

Gonzalez will provide OMNIA Partners with a copy of our logo and authorize use in their marketing efforts. We will consult with the Omnia marketing team prior to reproducing the Omnia logo.

- E. Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:
 - Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency
 - ii. Best government pricing
 - iii. No cost to participate
 - iv. Non-exclusive contract

Having held two consecutive TCPN/National IPA contracts, Gonzalez Solutions for Business is well versed and experienced in directing public agencies to cooperative purchasing. Our sales materials now show the TCPN/National IPA logos, so they just would be replaced by the inclusion of the OMNIA Partners logo.

Gonzalez is prepared to support the sales initiatives indicated by OMNIA Partners such as:

- i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency
- ii. Best government pricing
- iii. No cost to participate
- iv. Non-exclusive contract
- F. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:
 - Key features of Master Agreement i.
 - Working knowledge of the solicitation process ΪĬ,
 - Awareness of the range of Public Agencies that can utilize the Master iii. Agreement through OMNIA Partners
 - Knowledge of benefits of the use of cooperative contracts ĺν.

Training of our National Sales force on the Master agreement will take place in person, via video conference, phone calls and emails. We have seasoned veterans already well versed in selling and maintaining cooperative contract accounts. The training certainly would focus on:

i. Key features of Master Agreement

ii. Working knowledge of the solicitation process

- iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners
- iv. Knowledge of benefits of the use of cooperative contracts
- G. Provide the name, title, email and phone number for the person(s), who will be responsible for:
 - i. **Executive Support**
 - ii. Marketing
 - iii. Sales
 - iv. Sales Support
 - V. Financial Reporting
 - vi. Accounts Payable
 - vii. Contracts

Pamela Gonzalez, Vice President Responsible for: Executive Support, Contracts, Accounts Payable pam@gonzalezop.com 512-717-6623

Mary Carneiro, Solutions Partner Responsible for: Marketing, Sales Support mary@gonzalezop.com 512-717-6628

Jesse Pantoja, Strategic Accounts Manager Responsible for: Sales, Financial Reporting jesse@gonzalezop.com 512-717-6626

H. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Nationally, Gonzalez has vetted a number of independent dealer reps to provide coverage across the United States for our current contracts. With high levels of accountability standards, these account managers provide local customer service, account management and often, local delivery on behalf of Gonzalez Solutions for Business. By utilizing LOCAL people in LOCAL communities National IPA is assured of consistent representation, even in rural communities. The national sales structure is managed by Pamela Gonzalez, Vice President.

I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

Since Gonzalez and its TCPN/National IPA account managers are familiar with selling and servicing a cooperative contract, we already have best practices in place. However, we are excited to hear and implement new innovative ideas from OMNIA. Currently, Gonzalez sales management works directly with the local representatives on presentations, coordination of marketing events and marketing collateral. Gonzalez Solutions for Business does have an exploratory team for our existing National IPA contracts. We research schools, public entities, schools and not for profit organizations on a national level to determine targets for National IPA membership.

Our sales team reaches out to these potential members to educate and encourage them to adopt a cooperative purchasing membership with National IPA.

In addition to the above, Gonzalez employs a multifaceted fully *integrated marketing* methodology that typically results in improved market positioning. We utilize traditional marketing methods along with social media outlets to maximize the results of our customer communications.

We welcome the support of OMNIA Partners and look forward to the resulting robust growth of contract sales.

J. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Gonzalez relies heavily on streamlined processes and technology in order to efficiently rollout and manage our national account process. From account onboarding to ongoing account management, our processes are tried and true.

Specific to a new contract, a National IPA Sales and Marketing Coordinator will be a key position in our organization.

Account set up, whether simple or complex with hundreds of ships to and users is second nature to our organization.

Contract administration processes currently in place will be refined to support the new contract. Gonzalez is perfectly positioned for scalability of a subsequent contract(s).

K. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

See chart.

M. Provide the Contract Sales (as defined in Section 10 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

\$<u>200,000</u>.00 in year one

\$<u>300,000</u>.00 in year two

\$_400,000.00 in year three

To date, Gonzalez has generated \$XXXXX sales on the TCPN/National IPA contracts. A pay to play scenario is not palatable to Gonzalez under any scenario. We are confident in our ability to grow our contract and hope to at minimum, double current contract sales.

To the extent Supplier guarantees minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

- N. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.
 - Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).
 - ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with

lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.

ΪΪ.

Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).

If alternative or multiple proposals are permitted, respond with pricing iv. higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier's strategies under these options when responding to a solicitation.

As we have historically proven, Gonzalez always leads with our National IPA contracts. If a competitive situation warrants, Gonzalez responds with the National IPA contract coupled with a lower priced custom core for the member. All sales are reported If agency refuses to use the National IPA contract, Gonzalez presents our higher standard market pricing. If alternative or multiple proposals are permitted, we respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Staring on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

Appendix D, Exhibit A - 3.0 SUPPLIER RESPONSE

3.1 COMPANY

M. HISTORY AND DESCRIPTION OF SUPPLIER

Based on the dream, vision and core values of its' founder, Wayne Gonzalez, Gonzalez Solutions for Business was established in 2002. Today, a multi-million dollar company Gonzalez is headquartered in the heart of downtown Austin, Texas and is an internationally recognized certified minority business enterprise (MBE). From the beginning, our small staff of big thinkers has grown both, our commercial and public-sector business into one of the nation's most respected MBE companies.

A national award-winning business model, Gonzalez leverages a stellar network of strategic allies to provide innovative procurement solutions excelling in the area of single sourcing and procurement for its clients. Our proven operational capacity has established us as a premier vendor partner to high-profile commercial and government clients throughout the US for general supplies, custom print, promotional products, apparel and third party vendor integrations.

Since 2011, Gonzalez has proudly participated in a formal Mentor Protégé program sponsored by the Texas Education Agency and global partner Pearson. Pearson's own expertise and focus in the educational market has provided with Gonzalez with an exceptional opportunity for continued learning of selling in the education marketspace.

In 2012, Gonzalez was awarded the Central Texas Ethics in Business Award, and in 2013 and again in 2014, Gonzalez was honored as the MBE Supplier of the Year by the SMSDC, regional affiliate of the National Minority Development Council. Gonzalez currently participates in the national flagship Capacity Plus program sponsored by NMSDC and billion-dollar roundtable member, Johnson Controls.

Since 2010, Gonzalez has proven itself to be a reliable partner to Region 4 and subsequently National IPA. Just as the cooperative membership leverages their resources and piggybacks off nationally awarded contracts to streamline efficiency, in similar fashion, Gonzalez leverages

the resources of its business partnerships and strategic alliances in order to maintain status as a competitive privately owned force in the office products industry.

Gonzalez had a significant learning curve when awarded its first national cooperative contract by TCPN in 2010. Today we are considered subject matter experts in cooperative purchasing. We understand the importance of the legislative structure of each State and how it impacts the purchasing process. We understand the benefits of cooperative selling and how to communicate that message to potential contract users in education, in municipal purchasing and in the non-profit sector. Leveraging this subject matter expertise is key. Since inception, we have generated more than \$12million in member sales.

As we have proven with our current contracts, our state-of-the-art systemic infrastructure allows for robust on demand reporting, both standard and ad hoc. Volume will be tracked and reported to National IPA as administered by OMNIA Partner's National Cooperative Contract requirements in Appendix D, Exhibit E and shown below.

N. SALES PERSONS AND LOCATIONS

Our technological infrastructure is unique to the industry, as is our go to market strategy and sales structure. Our three key leaders manage a contracted national sales team allowing us to be as fluid and nimble as market conditions and growth patterns dictate. This is our primary sales structure. Secondarily, our logistics and warehouse partner, SP Richards' account managers support us in markets across the country, if and when we so choose.

O. SUPPORT CENTERS

Gonzalez utilizes two primary customer support centers. One support center is located in Austin at the corporate office. The secondary support center is in Raleigh, NC.

In May 2018 and typical to our innovative spirit, our online Customer Support Portal was introduced. This is an exciting new feature that streamlined our entire customer support process and is quickly serving to transform industry standards. The portal provides **expedited service** and it tracks the progress of requests from receipt through resolution insuring accountable prompt service to our clients.

Once complete, our customer support team marks ticket as <u>resolved</u>, but the end user gets the opportunity to mark the ticket as <u>complete</u>.

The system automatically closes out tickets after 10 days.

Admin credentials are available to our client's leadership teams so that they have visibility to the status of all open and closed tickets for their entire organization.

R. GREEN INITIATIVES

Gonzalez is committed to a variety of green initiatives both internally in our own organization and externally through both, our public sector and our private sector customers. We offer and participate in a unique e-waste recycling program, toner recycling, certified data destruction and shredding. Our mentor, Pearson Learning has hosted an annual Green Event, and for a number of years, we have been an active partner in this event working to assist them in reducing their carbon footprint and communicating this message to their employee base.

As a responsible steward of our planet's resources, Gonzalez looks for ways to reduce, reuse and recycle within all of our products and processes. We believe that it is our responsibility to align ourselves with other vendors and companies that are of that same corporate belief. We currently have over 10,000 items on our website that are recycled. These items encompass but are not limited to office supplies, furniture, facilities and IT products. Our customers are able to align their policies to their purchases because we have clearly marked green items in the webstore with a visible recycle icon.

The paper and plastic recycling program of our warehouse and logistics partner, SP Richards keeps these reusable items out of our landfills. Their use of recycled materials in packaging products for distribution to our customers, National IPA members, completes the cycle.

As a distribution company, they monitor their trucks and the routes they travel each day, making sure that we effectively conserve fuel and control usage, thereby limiting pollution and saving precious resources.

In an ongoing initiative to conserve energy within their facilities, SP Richards refitted their warehouses with energy efficient motion sensing lights and high velocity, low volume fans. This will allow their operations to significantly reduce energy costs and save much needed resources.

At Gonzalez we believe that working with our distributor, our vendor partners and our customers we will have an impact on protecting our environment. We hope to provide a better world for our future generations.

U. KEY DIFFERENTIATORS

Our national competitors are large publicly traded entities and as such, their ultimate fiduciary responsibility is to their shareholders and executive team. The Gonzalez business model is entirely customer focused; our organizational structure is small enough to be quick to adapt, but large enough and hyper efficient so as to meet the individual needs of the most complicated people and organizations we serve.

National rollout of our Single Cart *online ordering technology* for our private and public sector clients has been hugely successful since 2014. Augmenting this rollout by being awarded another National IPA contract will position Gonzalez to provide a level of service to members that is unprecedented in the marketplace. Our intent is to utilize this unique technology to grow our own market share, assist National IPA in increasing the size of its membership and simultaneously offer

National IPA an instrument to improve its membership contract utilization through our unique single source platform.

Gonzalez is a privately owned and operated entity. We are not a small business pass through. Gonzalez Solutions for Business represents quality over quantity. We believe it's how you finish that counts. Our mission is to make a difference in the world by providing a safe place for our team to grow both personally and professionally. We do more than provide great customer service; we serve others. We are supporting the lifeblood of our economy by providing business opportunities as an instrument for others to grow their profession, their business and serve their own local communities. We consider our vendors and manufacturers partners in our mission. We have grown our business knowing that by all working together we are stronger than we are apart.

Each day by electronic transmission, Gonzalez notifies wholesaler of daily general supplies purchases to all warehouse locations across the US. This "just in time" purchasing model allows Gonzalez to provide next day delivery on more than 35,000 unique items to the majority of metropolitan areas across the US. Additionally, our capital resources are not wasted on inventory and obsolescence, rather our resources are invested in our people and our processes so that we are well positioned to best serve large clients like National IPA.

Gonzalez partners with the largest most reputable custom products and apparel manufacturers in the US. Transmission of these orders are also seamlessly transmitted electronically to avoid any error that might be caused by human intervention.

In order to expedite delivery to the end user, Gonzalez utilizes a variety of delivery methods depending on the marketplace. In some instances, orders are shipped from the warehouse via Regional Carriers to a local Independent Dealer for delivery to the end user. In other instances, deliveries are distributed by Local Courier to the National IPA customer. When fulfilling orders from a secondary warehouse in order to expedite deliver, UPS or US Postal Service may be used as a resource.

Our dedicated National IPA portal is getting a facelift. Here is a sneak preview:

G. Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Currently, National IPA (TCPN) contracts are the sole national public sector contracts held by Gonzalez Solutions for Business. A new contract award would simply replace the contracts

currently in place. Aside from new logos, new contract numbers and new pricing, the transition would appear seamless to our existing customers.

H. Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

Gonzalez will provide OMNIA Partners with a copy of our logo and authorize use in their marketing efforts. We will consult with the Omnia marketing team prior to reproducing the Omnia logo.

- S. Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:
 - Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency
 - νi. Best government pricing
 - Vii. No cost to participate
 - viii. Non-exclusive contract

Having held two consecutive TCPN/National IPA contracts, Gonzalez Solutions for Business is well versed and experienced in directing public agencies to cooperative purchasing. Our sales materials now show the TCPN/National IPA logos, so they just would be replaced by the inclusion of the OMNIA Partners logo.

Gonzalez is prepared to support the sales initiatives indicated by OMNIA Partners such as: i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency

- Best government pricing
- iii. No cost to participate
- iv. Non-exclusive contract
- T. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:
 - Key features of Master Agreement V.
 - Working knowledge of the solicitation process vi.
 - Awareness of the range of Public Agencies that can utilize the Master vii. Agreement through OMNIA Partners
 - Knowledge of benefits of the use of cooperative contracts Viii.

Training of our National Sales force on the Master agreement will take place in person, via video conference, phone calls and emails. We have seasoned veterans already well versed in selling and maintaining cooperative contract accounts. The training certainly would focus on:

- i. Key features of Master Agreement
- ii. Working knowledge of the solicitation process
- iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners
- iv. Knowledge of benefits of the use of cooperative contracts
- U. Provide the name, title, email and phone number for the person(s), who will be responsible for:

V. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Nationally, Gonzalez has vetted a number of independent dealer reps to provide coverage across the United States for our current contracts. With high levels of accountability standards, these account managers provide local customer service, account management and often, local delivery on behalf of Gonzalez Solutions for Business. By utilizing LOCAL people in LOCAL communities National IPA is assured of consistent representation, even in rural communities. The national sales structure is managed by Pamela Gonzalez, Vice President.

W. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

Since Gonzalez and its TCPN/National IPA account managers are familiar with selling and servicing a cooperative contract, we already have best practices in place. However, we are excited to hear and implement new innovative ideas from OMNIA. Currently, Gonzalez sales management works directly with the local representatives on presentations, coordination of marketing events and marketing collateral. Gonzalez Solutions for Business does have an exploratory team for our existing National IPA contracts. We research schools, public entities, schools and not for profit organizations on a national level to determine targets for National IPA membership. Our sales team reaches out to these potential members to educate and encourage them to adopt a cooperative purchasing membership with National IPA.

In addition to the above, Gonzalez employs a multifaceted fully *integrated marketing* methodology that typically results in improved market positioning. We utilize traditional marketing methods along with social media outlets to maximize the results of our customer communications.

We welcome the support of OMNIA Partners and look forward to the resulting robust

growth of contract sales.

X. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Gonzalez relies heavily on streamlined processes and technology in order to efficiently rollout and manage our national account process. From account onboarding to ongoing account management, our processes are tried and true.

Specific to a new contract, a National IPA Sales and Marketing Coordinator will be a key position in our organization.

Account set up, whether simple or complex with hundreds of ships to and users is second nature to our organization.

Contract administration processes currently in place will be refined to support the new contract. Gonzalez is perfectly positioned for scalability of a subsequent contract(s).

Y. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

See chart.

AA.Provide the Contract Sales (as defined in Section 10 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

\$<u>200,000</u>.00 in year one

\$<u>300,000</u>.00 in year two

\$_400,000.00 in year three

To date, Gonzalez has generated \$XXXXX sales on the TCPN/National IPA contracts. A pay to play scenario is not palatable to Gonzalez under any scenario. We are confident in our ability to grow our contract and hope to at minimum, double current contract sales.

To the extent Supplier guarantees minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

- BB.Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.
 - v. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).

vi. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.

vii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).

viii. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier's strategies under these options when responding to a solicitation. As we have historically proven, Gonzalez always leads with our National IPA contracts. If a competitive situation warrants, Gonzalez responds with the National IPA contract coupled with a lower priced custom core for the member. All sales are reported. If agency refuses to use the National IPA contract, Gonzalez presents our higher standard market pricing. If alternative or multiple proposals are permitted, we respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.
