

GRAINGER METALWORKING

What you need, when and where you need it.

Grainger delivers powerful metalworking solutions for every area of your operation. **From production to QC, we have the products, services and expertise that help keep you on the cutting edge.**

It's everything you need to help stay productive, organized and focused on both your production and maintenance metalworking priorities.

GRAINGER
FOR THE ONES WHO GET IT DONE

WHY GRAINGER?

Grainger can help you get the most out of your metalworking operations. Our documented value program can help:

- Optimize product selection and application
- Mitigate risk of downtime
- Expand supply chain reach and product availability
- Minimize scrap and rework

SOLUTIONS THAT WORK

Grainger has 380,000+ metalworking products from over 500 suppliers. Our partnership with globally known and trusted brands as well as the latest in metalworking technology ensures that you have the products you need when and where you need them.

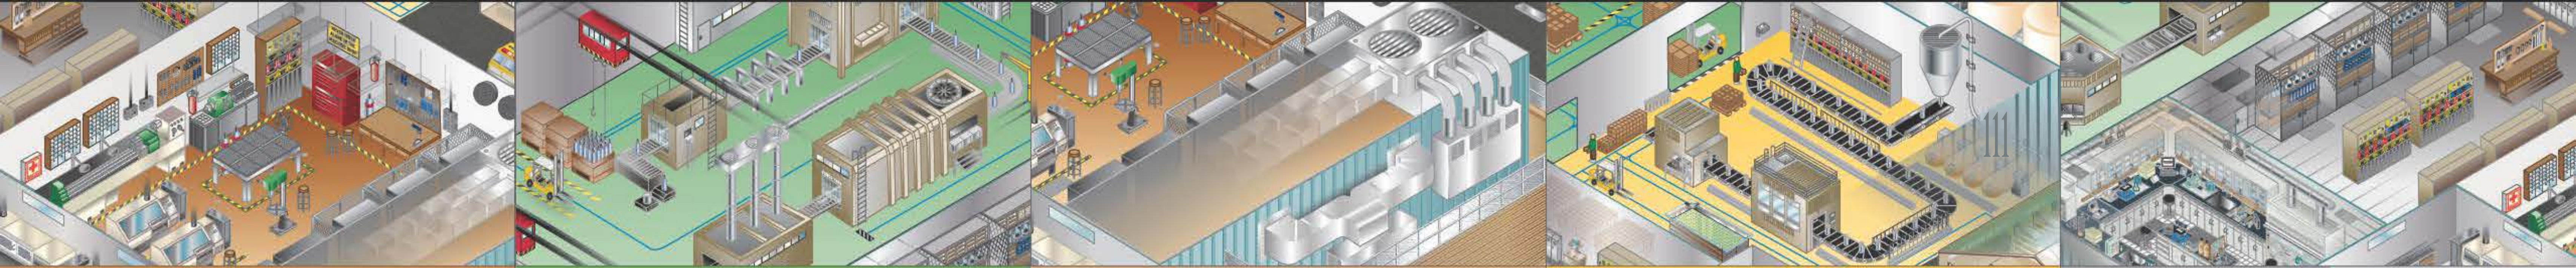

By leveraging relationships with our specialist and supplier networks, Grainger can help provide deep industry expertise and educational resources to support your production and maintenance metalworking operations.

METALWORKING EXPERTISE

Grainger has resources to help with some of your toughest metalworking challenges:

- Metalworking Specialists
- Technical Product Support Specialists
- Over 170 Metalworking Supplier Partners
- Articles and Industry Research
- A Comprehensive Metalworking Catalog

For more information on Grainger's metalworking solutions call 1-800-GRAINGER or contact your local Grainger rep. You can also visit: grainger.com/metalworking
