From better education for tomorrow's leaders, to an ever-increasing array of cost-saving efficiencies, school districts require always-on connectivity from their network solutions.

CUSTOMER CHALLENGE

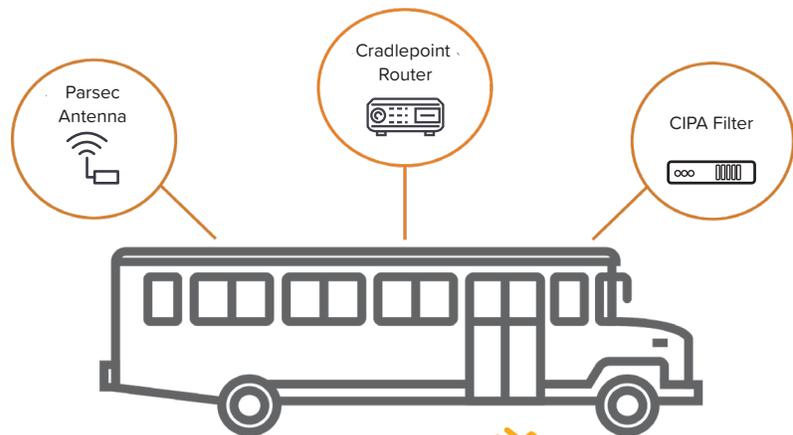

- Rapidly changing demands to connect at a safe distance
- Improve accessibility & availability of Internet access
- Expand learning beyond the physical classroom
- Portable solution that can be used across a fleet of buses

THE GRANITE SOLUTION

Granite is committed to providing customers with reliable service. Granite's School Bus WiFi solution allows you to extend connectivity beyond the physical classroom.

KEY BENEFITS

- Rapid Deployment
- Scalable Solutions
- Multi-Carrier Connectivity

Powered by: **cradlepoint**

- Basic Package connects up to 30 students and comes with easy to install internal antennas
- Standard includes Dual Carrier connectivity that can connect up to 100 students and a high gain antenna
- Portable is a portable solution that does not require professional installation. The solution is housed in a Parsec Antenna box that included an A/C inverter for easy connection to power. The solution supports up to 30 users
