SoCo™

SoCo™

Today's busy professionals are taking meetings and project planning in a variety of different ways and places. SoCo™ is an intuitive modular lounge series designed to encourage the ease of both collaborative and individual work while supporting how people like to sit and get comfortable. Multiple shapes come together to create a wide range of configuration possibilities, from understated and sophisticated to more fun and cozy. Power is cleanly integrated within the design and is located where multiple users can access and utilize its functionality to stay connected. SoCo™ offers soft, comfortable support and a tailored aesthetic in spaces that allow you to get away from the workstation throughout the day.

FEATURES

- SoCo™ supports dynamic collaboration and casual focus work with a soft, organic, tailored aesthetic that delivers comfort for a variety of sitting postures.
- Seven modular shapes work together to create unlimited linear and curvilinear configurations.
- A fully upholstered design with a multi-fabric seat/back option softens the corporate aesthetic.
- Optional plug-in or hardwired electrical is available on select shapes and supports both USB-A and USB-C compatibility.
- Dual-purpose glides allow two functions: without glide caps furniture stays in place; with glide caps furniture easily moves for reconfiguration.
